

Journal of
MATERIALS RESEARCH

VOLUME 32 • NO 14
JULY 28, 2017

A publication of the

MRS MATERIALS RESEARCH SOCIETY®
Advancing materials. Improving the quality of life.

CAMBRIDGE
UNIVERSITY PRESS

Journal of MATERIALS RESEARCH

JOURNAL OF MATERIALS RESEARCH (JMR) is an interdisciplinary journal serving the materials research community through publication of original research articles and invited reviews encompassing the synthesis, processing, characterization, properties, and theoretical description of materials.

JMR publishes new research that demonstrates a significant impact or advance of scientific understanding of interest to the materials research community. Engineering studies and applications to commercial products are beyond the scope of *JMR* and should be submitted elsewhere. Manuscripts that report data without giving an analysis, interpretation, or discussion are only acceptable if the data are sufficiently important that publication is expected to lead to significant new studies or advancements in science or technology.

Manuscripts must be submitted to the *Journal of Materials Research* electronically via ScholarOne manuscripts, at the following website address: <http://mc.manuscriptcentral.com/jmr>. Electronic submission expedites the review process and also allows authors to track the status of their manuscripts at any time. Complete instructions are available on the ScholarOne site and authors will be prompted to provide all necessary information.

Manuscripts must be prepared in English, using a word processing program, formatted to fit 8½ x 11 in. paper, and saved as .doc, .pdf, .rtf, or .ps files. Separate graphics files (.eps and .tif) must be uploaded for each figure. Authors may also upload .xls or .ppt supplemental files as part of the manuscript submission process. All of these files will be converted to .pdf format. Detailed instructions are available on the submission web site. During submission, authors must enter all coauthor names and e-mail addresses. Manuscripts will not be considered for peer review until this information is provided. Authors must also enter manuscript keywords using the *JMR* keyword list (located on the submission web site). Authors who are not fluent in English must have their manuscript edited for correct English grammar and sentence structure before submission.

Authors are expected to follow the conventional writing, notation, and illustration style prescribed in *Scientific Style and Format: the CSE Manual for Authors, Editors and Publishers, 7th edition, 2006*. Authors should also study the form and style of printed material in this journal. SI units should be used. Authors should use an identical format for their names in all publications to facilitate use of citations and author indexes.

Manuscripts are accepted with the understanding that they represent original research, except for review articles, and that they have not been copyrighted, published, or submitted for publication elsewhere. Authors submitting manuscripts to *JMR* who have related material under consideration or in press elsewhere should send a copy of the related material to *JMR* at the time of submission. While their manuscripts are under consideration at *JMR*, authors must disclose any such related material. To expedite the review process, authors may provide names and contact information for up to four possible reviewers.

Articles are original research reports that include complete, detailed, self-contained descriptions of research efforts. All articles must contain an abstract and section headings.

Commentaries and Reviews: *Journal of Materials Research* occasionally publishes commentaries on topics of current interest or reviews of the literature in a given area. If an author proposes a review, the title, abstract, and a brief outline should be submitted to the Editorial Office via e-mail for prior consultation on the appropriateness of the topic.

Color policy: It is not necessary for authors to indicate that a figure should be displayed in color online. *JMR* will assume that any author who submits figures in color wants and agrees to their being produced in color online. Figures may be printed in color at the author's request for an additional charge. Color figures must be submitted before the paper is accepted for publication, and cannot be received later in the process. Authors cannot submit two versions of the same figure, one for color and one for black and white; only one version can be submitted. Authors need to carefully consider the following when submitting figures in color that will

be published in color online only: 1) The colors chosen must reproduce effectively and the colors should be distinguishable when printed in black and white; 2) The descriptions of figures in text and captions must be sufficiently clear for both online and print copy. When submitting figures to be in color online only, authors should include the phrase <<color online>> in the figure captions. This is the author's responsibility. Authors will see these color figures when viewing their author page proofs on screen. Authors should always print their page proofs in black and white to see how they will appear in print. Authors will NOT be allowed to submit color figures to replace black and white figures in the page proof stage. To maximize the probability that figures will be published in color online and also print as good quality black and white or grayscale graphics, authors are encouraged to follow these figure submission guidelines: 1) Submit a color graphic in Tagged Image File Format (.tif); 2) Submit color graphics with a resolution of at least 300 dpi (600 dpi if there is text or line art in the figure); 3) Submit color graphics in CMYK format; 4) Submit figures sized to fit the actual column or page width of the journal so that reduction or enlargement is not necessary; 5) Submit multipart figures in one single electronic file.

Journal of Materials Research Subscription Prices (2017)

[includes on-line web access]

	USA and Poss.	Non-US	Online Only
MRS Regular and Student Members	\$273.00	\$334.00	\$105.00
Institutions	\$2053.00	\$2053.00	\$1852.00

Journal of Materials Research (ISSN: 0884-2914) is published twenty-four times a year by Cambridge University Press, One Liberty Plaza, 20th Floor, New York, NY 10006 for the Materials Research Society. Periodical Postage Paid in New York, NY and additional mailing offices. **POSTMASTER:** Send address changes to *Journal of Materials Research*, c/o Journals Dept., Cambridge University Press, One Liberty Plaza, 20th Floor, New York, NY 10006, USA.

Subscriptions, renewals, address changes, and single-copy orders should be addressed to Subscription Fulfillment, *Journal of Materials Research*, Cambridge University Press, One Liberty Plaza, 20th Floor, New York, NY 10006, USA (for USA, Canada, and Mexico); or Cambridge University Press, University Printing House, Shaftesbury Road, Cambridge, CB2 8BS, England (for UK and elsewhere). Allow at least six weeks advance notice. For address changes, please send both old and new addresses and, if possible, include a mailing label from a recent issue. Requests from subscribers for missing journal issues will be honored without charge only if received within six months of the issue's actual date of publication; otherwise, the issue may be purchased at the single-copy price.

Reprints of individual articles in *Journal of Materials Research* may be ordered. For information on reprints, please contact Cambridge University Press. Reprints of complete back issues older than the prior volume year may be ordered on an individual basis via the Cambridge Journals Online website. To determine availability, visit the appropriate page for the *JMR* back issue desired (cambridge.org/journal-of-materials-research).

Individual member subscriptions are for personal use only.

Cover: Optical microscopy image of TATB after surface layer removal. [M. Taw, J. Yeager, D. Hooks, T. Carvajal, D. Bahr: The mechanical properties of as-grown non-cubic organic molecular crystals assessed by nanoindentation. p. 2728].

Journal of MATERIALS RESEARCH

Volume 32, Number 14, July 28, 2017

INVITED FEATURE PAPERS

- 2631–2637 **Appearance of quantum point contact in Pt/NiO/Pt resistive switching cells** Yusuke Nishi, Hiroki Sasakura, Tsunenobu Kimoto
- 2638–2657 **Recent progress in understanding high temperature dynamical properties and fragility in metallic liquids, and their connection with atomic structure** A.K. Gangopadhyay, K.F. Kelton

INVITED PAPERS

- 2658–2667 **Insights into the deformation behavior of the CrMnFeCoNi high-entropy alloy revealed by elevated temperature nanoindentation** Verena Maier-Kiener, Benjamin Schuh, Easo P. George, Helmut Clemens, Anton Hohenwarter
- 2668–2679 **Thermal processing and enthalpy storage of a binary amorphous solid: A molecular dynamics study** Peter M. Derlet, Robert Maaß
- 2680–2689 **Tailoring plasticity of metallic glasses via interfaces in Cu/amorphous CuNb laminates** Zhe Fan, Qiang Li, Jin Li, Sichuang Xue, Haiyan Wang, Xinghang Zhang

ARTICLE

- 2690–2699 **Elastic strain effects on the catalytic response of Pt and Pd thin films deposited on Pd–Zr metallic glass** Yiyi Yang, K. Sharvan Kumar

INVITED PAPER

- 2700–2706 **Effects of gas blowing condition on formation of mixed halide perovskite layer on organic scaffolds** Takeshi Gotanda, Shigehiko Mori, Haruhi Oooka, Hyangmi Jung, Hideyuki Nakao, Kenji Todorii, Yutaka Nakai

ARTICLES

- 2707–2718 **Investigation of thiophene flanked diketopyrrolopyrrole monomers with straight and branched alkyl chains and their electropolymerization study** Supreetha Paleyanda Ponnappa, Sivanesan Arumugam, Sergei Manzhos, Jennifer MacLeod, Henry J. Spratt, Anthony P. O'Mullane, Prashant Sonar
- 2719–2727 **Preparation of chitosan/safflower and ligusticum wallichii polysaccharides hydrogel for potential application in drug delivery and tissue engineering** Xiuying Pu, Xiaoyue Li, Weijie Zhang, Xiaochun Wang, Haibing Li, Haowen Li, Wenjun Xu
- 2728–2737 **The mechanical properties of as-grown noncubic organic molecular crystals assessed by nanoindentation** Matthew R. Taw, John D. Yeager, Daniel E. Hooks, Teresa M. Carvajal, David F. Bahr
- 2738–2746 **Role of hierarchical morphology of helical carbon nanotube bundles on thermal expansion of polymer nanocomposites** Oleksandr G. Kravchenko, Xin Qian, Sergii G. Kravchenko, Rocio Misiego, R. Byron Pipes, Ica Manas-Zloczower

(Continued)

- 2747–2754 **Oxidation behavior of high-purity nonstoichiometric Ti₂AlC powders in flowing air**
Fanyu Kong, Ke Feng, Yuelei Bai, Ning Li, Xinxin Qi, Yongting Zheng, Rongguo Wang, Xiaodong He
- 2755–2763 **Anisotropic surface stability of TiB₂: A theoretical explanation for the easy grain coarsening**
Wei Sun, Huimin Xiang, Fu-Zhi Dai, Jiachen Liu, Yanchun Zhou
- 2764–2772 **The role of fuel to oxidizer ratio in solution combustion synthesis of TiO₂ and its influence on photocatalysis**
Swapna Challagulla, Sounak Roy
- 2773–2780 **Enhanced photocatalytic activity in porphyrin-sensitized TiO₂ nanorods**
Wei Zhang, Chen Wang, Xiao Liu, Jun Li
- 2781–2789 **Synergy of palladium species and hydrogenation for enhanced photocatalytic activity of {001} facets dominant TiO₂ nanosheets**
Zhipeng Lyu, Bing Liu, Ran Wang, Lihong Tian
- 2790–2799 **Microstructure evolution with composition ratio in self-assembled WO₃–BiVO₄ hetero nanostructures for water splitting**
Haili Song, Chao Li, Chien Nguyen Van, Heng-Jui Liu, Ruijuan Qi, Rong Huang, Ying-Hao Chu, Chun-Gang Duan
- 2800–2809 **An impedance sensor for the detection of formaldehyde vapor using ZnO nanoparticles**
Padmanathan Karthick Kannan, Ramiah Saraswathi
- 2810–2818 **Physical, fluid dynamic and mechanical properties of alumina gel-cast foams manufactured using agarose or ovalbumin as gelling agents**
Murilo Daniel de Mello Innocentini, Victor Dias Rasteira, Marek Potoczek, Anna Chmielarz, Elwira Kocyló
- 2819–2828 **Controlled synthesis and photocatalytic performance of waxberry-like Ni₁₁(HPO₃)₈(OH)₆ microballs**
Yu Zhang, Zhijian Peng, Xiuli Fu
- 2829–2836 **Ce³⁺-enriched core–shell ceria nanoparticles for silicate adsorption**
Kijung Kim, Jihoon Seo, Myoungjae Lee, Jinok Moon, Kangchun Lee, Dong Kee Yi, Ungyu Paik
