PROCEEDINGS OF THE BRITISH SOCIETY OF ANIMAL PRODUCTION, 1978	367

Photographed diagrams are also accepted. Lettering inside the framework of the diagram should be avoided as far as possible but if unavoidable it should be included on a fly-leaf. Marginal lettering should be inserted lightly in pencil on the original diagram or on a fly-leaf.

(b) Photographs intended for half-tone reproduction should be on glossy paper. They will be accepted only if found necessary by the Editors.

(c) Colour plates are unlikely to be accepted unless authors bear the cost.

Tables should be as simple and as few as possible. Each table should be typed on a separate sheet.

Abstract: Every article should have a short abstract (not more than 250 words) complete in itself and understandable without reference to the paper. *The abstract will be printed at the beginning of the paper.*

References: Only papers closely related to the author's work should be referred to; exhaustive lists should be avoided. The arrangement of references should be as in recent papers in *Animal Production*; details are given in the notes for guidance.

Proofs are supplied once and must be returned corrected to the Editors within seven days. Only essential corrections should be made.

Reprints: Twenty-five reprints of each paper will be supplied free to authors on request. Further copies may be purchased if the order is sent at the proof-stage.

Animal Production is published six times a year in two volumes. Annual subscription is £25.00 (or \$60.00 in the U.S.A. and Canada) and the price for a single part is £4.50 (or \$11.00) net.

Proceedings of the British Society of Animal Production (New Series) ceased publication in 1975 and the material is now published as a separate section in the June issue of *Animal Production*.

Business matters, including regular subscriptions and sales (current and back numbers of the Journal and the Proceedings) should be addressed to Longman Group, Journals Division, 43/45 Annandale Street, Edinburgh EH7 4AT.

Senior Editor

J. A. F. Rook, Hannah Research Institute.

Editors

R. C. Campling, Wye College, University of London.
C. J. M. Hinks, Animal Breeding Research Organisation.
J. Hodgson, Hill Farming Research Organisation.
A. M. Raven, West of Scotland Agricultural College.
A. J. F. Webster, University of Bristol.
M. B. Willis, University of Newcastle upon Tyne.

Assistant Editors

B. A. Nettlefold
Jill M. Read
