### Cover picture

*She Hears Sea* (self-portrait, 2012), by Eleanor Bennett (b. 1996).

Eleanor Leonne Bennett is an internationally award-winning artist. Her photography has been published in the *Telegraph*, *Guardian*, on the BBC News website and on the cover of books and magazines in the USA and Canada. Her art is also globally exhibited. She writes: 'I have OCD and have done from around the age of 11 when a close friend of mine contracted terminal cancer. It was a sort of self-bargaining to make things right. I am not a logical person, more passionate than anything. With my obsessive behaviour I have tried to refocus it into the direction of art. Recently I have exhibited in Argentina, Denmark and in Buxton (UK) at the Devonshire Dome at the poetry festival. When I was 15, I started collaborative work on my first photo book with the Australian poet, Scott Patrick Mitchell. I have met and collaborated with some amazing people. I have only been taking photos for around 4 years. Before that I had won two national art competitions with the Woodland Trust'.

We are always looking for interesting and visually appealing images for the cover of the *Journal* and would welcome suggestions or pictures, which should be sent to Dr Allan Beveridge, British Journal of Psychiatry, 17 Belgrave Square, London SW1X 8PG, UK or [bjp@rcpsych.ac.uk](mailto:bjp@rcpsych.ac.uk).
