The Carolingians and the Written Word

ROSAMOND MCKITTERICK

A pioneering study of the function and status of the written word in Carolingian society in the 8th and 9th centuries. It demonstrates that literacy was by no means confined to a clerical elite, going on to assess the consequences of literacy for the development of European society after the 10th century.

Piers Plowman and the New Anticlericalism

WENDY SCASE

This book is the first extended investigation of the anticlericalism of *Piers Plowman*. Wendy Scase challenges the usual assumption that long-established anticlerical traditions continued unchanged in the conflicts of the fourteenth century, and traces the emergence of a distinctive 'new anticlericalism'. Referring closely to the contemporary controversies, and with constant attention to the text, she reveals the significance of the poem's anticlericalism.
