Intending members are requested to communicate with one of the Secretaries (G. L. Parsons, Peckwater Eastcote Road, Pinner, Middlesex; Mrs. E. M. Williams, 155 Holden Road, N.12). The subscription to the Association is 15s. per annum, and is due on Jan. 1st. It includes the subscription to "The Mathematical Gazette".

Change of Address should be notified to Mrs. Williams. If Copies of the "Gazette" fail for lack of such notification to reach a member, duplicate copies can be supplied only at the published price.

Subscriptions should be paid to the Hon. Treasurer, Mathematical Association, 29 Gordon Square London. W.C. 1.

JUST PUBLISHED

A NEW GEOMETRY FOR SCHOOLS

By CLEMENT V. DURELL, M.A.

STAGE A, 1s. 6d. STAGE B, 4s. 6d. ; also in 3 parts.

STAGES A and B bound together, 5s. 6d.

In writing this entirely new book Mr. Durell has taken the opportunity to recast his treatment of the subject in the light of the experience gained and the suggestions received since his well-known *Elementary Geometry* appeared fourteen years ago. He has also been able to make full use of the Second Report of the Mathematical Association on the Teaching of Geometry. The book contains a comprehensive course of geometry from the first stage up to the standard of the School Certificate.

"Has all the merits which those who know his *New Algebra for Schools* will expect, notably a wealth of examples collected and graded with infinite pains. There is skilful adaptation to the needs of a variety of schools and teachers, excellent pagination, a plenitude of little diagrams, plain, bracketed and starred numbers to guide selection of examples, and every device to make matters easier."—*Times Educational Supplement*.

EXERCISES AND THEOREMS IN GEOMETRY

This is an alternative arrangement of the material contained in *A New Geometry*. It should appeal to teachers who prefer to have Exercises, Constructions and Theorems respectively collected together in separate sections. The book is issued in forms and at prices similar to those of *A New Geometry*.

* * * A book of Hints and Solutions is in the press.
