

# CLAY MINERALS

VOLUME 22, NUMBER 3, SEPTEMBER 1987

## CONTENTS

A. SINGER and P. STOFFERS. Mineralogy of a hydrothermal sequence in a core from the Atlantis II Deep, Red Sea	251
C. E. CORBATO and R. T. TETTENHORST. Analysis of illite-smectite interstratification	269
N. CHAIKUM and R. M. CARR. Electron spin resonance studies of halloysites	287
A. KELLOMAKI, P. NIEMINEN and L. RITAMAKI. Sorption of ethylene glycol monethyl ether (EGME) on homoionic montmorillonites	297
A. BEN HADJ-AMARA, G. BESSON et C. TCHOUBAR. Caracteristiques structurales d'une smectite dioctahédrique en fonction de l'ordre-desordre dans la distribution des charges electriques: I. Etudes des reflexions 00l	305
A. JUSTO, C. MAQUEDA, J. L. PEREZ-RODRIGUEZ and G. LAGALY. An unusually expandable low-charge vermiculit	319
J. TORRENT, U. SCHWERTMANN and V. BARRON. The reductive dissolution of synthetic goethite and hematite in dithionite	329
L. HELLER-KALLAI, I. MILOSLAVSKI and Z. AIZENSHTAT. Volatile products of clay mineral pyrolysis revealed by their effect on calcite	339
Notes	
L. HELLER-KALLAI and R. C. MACKENZIE. Effect of volatiles from kaolinite on calcite dissolution: DTA evidence	349
P. H. NADEAU. Relationships between the mean area, volume and thickness for dispersed particles of kaolinites and micaceous clays and their application to surface area and ion exchange properties	351
A. MANCEAU and G. CALAS. Absence of evidence of Ni/Si substitution in phyllosilicates	357
B. A. GOODMAN. On the use of Mössbauer spectroscopy for determining the distribution of iron in aluminosilicate minerals	363
M. MIYAKE, S. KOMARNENI and R. ROY. Dealumination of zeolites and clay minerals with $\text{SiCl}_4$ or $(\text{NH}_4)_2\text{SiF}_6$	367
Book Review	373
