

# Astronomical Society of Australia

Proceedings

Volume 10 Number 2 1992

## *Invited*

Does Gravity Rule the Universe?	D.S. Mathewson	87
IRIS: What can it do for you?	D.A. Allen	94
s-Process Nucleosynthesis on the Asymptotic Giant Branch	J.C. Lattanzio	99

## *Extragalactic*

Near Infrared Imaging and Spectroscopy of Centaurus A	V. Meadows & D. Allen	104
Towards a Unified Model of Active Galactic Nuclei	C.S. Coleman & M.A. Dopita	107

## *High Energy Astrophysics*

The Magnetic Fields of Pulsars, Electrons and the Sun	K.D. Cole	110
---	-----------	-----

## *Galactic and Stellar*

Observations of the 18.3-GHz Transition of C <sub>3</sub> H <sub>2</sub> towards Sgr B2	R.S. Peng, J.B. Whiteoak, J.E. Reynolds, T.B.H. Kuiper & W.L. Peters	113
An Anomalous Stellar Image on an Astronomical Slide Photograph	P. McGee	118
Hot Bottom Burning in a 5M <sub>0</sub> Model	J.C. Lattanzio	120
Numerical Modelling of Star Formation in GMCs	J.C. Lattanzio & J.J. Monaghan	122
The Formation of Red Giants	C. Frost & J.C. Lattanzio	125
Is Alfvén's Critical Ionization Velocity Important at the Galactic Centre?	J. Nicholls	128

## *Solar and Solar System*

An Improved Oblateness for the Earth's Thermosphere from Lunar Eclipse Observations	B.W. Soulsby	131
---	--------------	-----

## *Instruments and Basic Astronomy*

The IAU Thesaurus for Improved On-line Access to Information	R.M. Shobbrook & R.R. Shobbrook	134
A New Infrared Camera Optical Design	Y-S Sun, M.C.B. Ashley & J.W.V. Storey	137
A Catalogue of 'Southern' Radio Sources with Accurate Positions	G.L. White	140

## *History of Australian Astronomy*

Solar Radio Astronomy at the University of Western Australia, 1946-48	R.R. Burman & P.M. Jeffery	168
Robert L.J. Ellery, his Life and Times	S.C.B. Gascoigne	170

## *Society Business*

Council meetings and 25th AGM report		177
--------------------------------------	--	-----
