

Mount Sinai Hospital Medical Center of Chicago

“Preventive care at Mount Sinai Hospital includes Sloan OPTIMA® surgical scrub stations.”

Maintaining a sterile, efficient surgical environment in a busy hospital requires careful procedures and the most modern facilities available.

That's why Mount Sinai Hospital installed

twenty-six Sloan No-Hands automated scrub stations for its surgical personnel.

The Sloan OPTIMA No-Hands system uses an electronic sensor that “sees” the user and automati-

cally turns the scrub station faucet on and off—only as needed. This eliminates awkward arm- or leg-actuated faucet controls and helps provide a fast—yet thorough—scrub up.

The results: A more sterile, efficient scrub station. Reduced water usage and maintenance. And greater convenience for surgical personnel.

The Sloan OPTIMA No-Hands system meets all building codes and easily adapts to existing sink and plumbing hookups. The system is also compatible with soap

dispensers and hand dryers.

Ask your Sloan representative about Sloan No-Hands automated systems. Or write us.

WHAT'S THE BEST HANDWASH/SCRUB? HANDS UP OR HANDS DOWN IT'S

HIBICLENS[®]

(CHLORHEXIDINE GLUCONATE)

It is well established that handwashing is the most important single procedure in preventing transmission of hospital-acquired infections. HIBICLENS, the only proven antiseptic/antimicrobial, is the best agent available for both personnel handwashing and surgical scrubbing. HIBICLENS

provides the most immediate and prolonged protection against infection, with the best bactericidal "kill rate." And to encourage skin cleansing among hospital personnel, HIBICLENS offers cosmetic acceptability coupled with an excellent safety profile. Gentle to the skin, HIBICLENS is virtually

nonirritating and nonsensitizing, with a low potential for toxicity.

Available as both a liquid and impregnated in a disposable Sponge/Brush, HIBICLENS remains the single most effective antiseptic/antimicrobial skin cleanser for use throughout the hospital.

THE BEST ANTISEPTIC/ANTIMICROBIAL SKIN CLEANSER
