AT THE UNIVERSITY PRESS**

1968

The Council of the Marine Biological Association wish it to be understood that they do not accept responsibility for the accuracy of statements published in this Journal, excepting when those statements are contained in an official report of the Council.

CONTENTS OF VOLUME 48

Number 1, pp. 1-274, 29 February 1968

Number 2, pp. 275-544, 20 June 1968

Number 3, pp. 545-872, 15 October 1968

	PAGE
Report of the Council: 1967-68	837
Income and Expenditure Account and Balance Sheet: 1967-68	869
ALLEN, J. A.	
The surface swarming of <i>Polybius henslowi</i> [Brachyura: Portunidae]	107
ALLEN, W. V.	
Fatty-acid synthesis in the echinoderms: <i>Asterias rubens</i> , <i>Echinus esculentus</i> and <i>Holothuria forskali</i>	521
ANDERSON, J. G., see MEADOWS and ANDERSON	161
ANGEL, M. V.	
Bioluminescence in planktonic halocyprid ostracods	255
ARMSTRONG, F. A. J. and BUTLER, E. I.	
Chemical changes in sea water off Plymouth during the years 1962 to 1965	153
ARMSTRONG, F. A. J. and TIBBITS, SUSAN	
Photochemical combustion of organic matter in sea water, for nitrogen, phosphorus and carbon determination	143
AUSTEN, ALAN P. and PRINGLE, JOHN D.	
Mitotic index in selected red algae <i>in situ</i> . I. Preliminary survey	609
AUSTIN, J., see RAYMONT, AUSTIN and LINFORD	735
BALDWIN, M. W. and RAVEN, J.	
2-aminoethylphosphonic acid in <i>Monochrysis</i>	603
BLAXTER, J. H. S.	
Rearing herring larvae to metamorphosis and beyond	17
BOWEN, H. J. M.	
The uptake of gold by marine sponges	275
BOWERS, A. B., see COLMAN and BOWERS	259
BRAVEN, J., see BALDWIN and BRAVEN	603
BRYAN, G. W.	
Concentrations of zinc and copper in the tissues of decapod crustaceans	303
BUTLER, E. I., see ARMSTRONG and BUTLER	153
CHAPMAN, DAVID M.	
Structure, histochemistry and formation of the podocyst and cuticle of <i>Aurelia aurita</i>	187
A new type of muscle cell from the subumbrella of <i>Obelia</i>	667
CORRETT, C. J. and URRY, D. L.	
Observations on the keeping of adult female <i>Pseudocalanus elongatus</i> under laboratory conditions	97
CORNER, E. D. S., SOUTHWARD, A. J. and SOUTHWARD, E. C.	
Toxicity of oil-spill removers ('detergents') to marine life: an assessment using the intertidal barnacle <i>Elminius modestus</i>	29

THE MARINE BIOLOGICAL ASSOCIATION OF THE UNITED KINGDOM

THE ASSOCIATION was founded in 1884 to promote accurate researches leading to the advancement of zoological and botanical science and to an increase in our knowledge of the food, life, conditions and habits of British fishes. The work of the Association is controlled by a Council elected annually by its subscribing members.

Professor T. H. Huxley took the chair at the initial meeting held in the rooms of the Royal Society and was elected the first President. Among those present were Sir John Lubbock (afterwards Lord Avebury), Sir Joseph Hooker, Professor H. N. Moseley, Mr G. J. Romanes, and Sir E. Ray Lankester who, after Professor Huxley, was for many years president of the Association. It was decided to build a laboratory at Plymouth, where a rich and varied fauna is found.

The Plymouth Laboratory was opened in June 1888, and, since that date, considerable additions have been made to the buildings, including a library, lecture-hall, and extensive laboratory accommodation with up-to-date equipment. Additional sea-water reservoirs have also been built, and an aquarium, modernized in 1959, opened to the public.

The Association is maintained by subscriptions and donations from private members, universities, scientific societies and other public bodies; a generous annual grant has been made by the Fishmongers' Company since the Association began. Practical investigations upon matters connected with sea-fishing are carried on under the direction of the Council, and from the beginning a Government Grant in aid of the maintenance of the laboratory has been made; in recent years this grant has been greatly increased in view of the assistance which the Association has been able to render in fishery problems and in fundamental work on the environment of marine organisms. Accounts of the laboratory and aquarium and the scope of the researches will be found in Vol. 27 (p. 761), Vol. 39 (p. 391) and Vol. 43 (p. 281) of this *Journal*.

The laboratory is open throughout the year and its work is carried out by a fully qualified research staff under the supervision of the Director. The names of the members of the staff will be found at the beginning of this number. Accommodation is available for British and foreign scientific workers who wish to carry out independent research in all branches of marine science. Arrangements are made for courses for advanced students, and marine animals and plants are supplied to educational institutions.

Work at sea is undertaken by two research vessels and by a motor boat, and these also collect the specimens required in the laboratory.

TERMS OF MEMBERSHIP

	<i>£</i>	<i>s.</i>	<i>d.</i>
Annual Members, receiving the Journal per annum	3	0	0
Annual Members, without the Journal per annum	1	1	0
Junior Members, receiving the Journal per annum	1	1	0
Life Members Composition fee	45	0	0
Founders	100	0	0
Governors	500	0	0

Members of the Association have the following rights and privileges: they elect annually the Officers and Council; they are entitled to receive the *Journal* of the Association at a much reduced rate; they are admitted to view the laboratory at Plymouth, and may introduce friends with them; they have the first claim to rent a place in the laboratory for research, with use of tanks, boats, etc; they have the privilege of occupying a table for one week in each year free of charge; and they have access to the books in the library at Plymouth.

The Commissioners of Inland Revenue have approved the Association for the purposes of Section 16, Finance Act, 1958, and that the whole of the annual subscription paid by a member who qualifies for relief under the section will be allowable as a deduction from his emoluments assessable to income tax under Schedule E.

All correspondence should be addressed to the Director, The Laboratory, Citadel Hill, Plymouth.
