

## Parasitology

**Back volumes.** Vols. 1–71: Inquiries should be addressed to Wm. Dawson & Sons Ltd, Cannon House, Folkestone, Kent. Vols. 72 onwards: quotations for parts still in print may be obtained from Cambridge or the American Branch of Cambridge University Press.

**Copying.** This journal is registered with the Copyright Clearance Center, 27 Congress Street, Salem, Mass. 01970. Organizations in the USA who are also registered with C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of US copyright law) subject to payment to C.C.C. of the per-copy fee of \$5.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0031–1820/93 \$5.00 + .00.

Organizations authorized by the Copyright Licensing Agency may also copy material subject to the usual conditions.

**ISI Tear Sheet Service.** 3051 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorized to supply single copies of separate articles for private use only.

**For all other use,** permission should be sought from Cambridge or the American Branch of Cambridge University Press.

**Claims** for missing issues can only be considered if made immediately after receipt of the subsequent issue.

**Advertising.** Details of advertising in *Parasitology* may be obtained from the publisher.

# Parasitology

## CONTENTS

	PAGE
Hollister, W. S., Canning, E. U., Colbourn, N. I., Curry, A. and Lacey, C. J. N. Characterization of <i>Encephalitozoon hellem</i> (Microspora) isolated from the nasal mucosa of a patient with AIDS	351
Cooke, B. M., Morris-Jones, S., Greenwood, B. M. and Nash, G. B. Adhesion of parasitized red blood cells to cultured endothelial cells: a flow-based study of isolates from Gambian children with falciparum malaria	359
Matsuba, T., Kubota, H., Tanaka, M., Hattori, M., Murata, M., Sugimoto, C. and Onuma, M. Analysis of mixed parasite populations of <i>Theileria sergenti</i> using cDNA probes encoding a major piroplasm surface protein	369
Hrdý, I. and Mertens, E. Purification and partial characterization of malate dehydrogenase (decarboxylating) from <i>Tritrichomonas foetus</i> hydrogenosomes	379
Blair, K. L., Bennett, J. L. and Pax, R. A. Serotonin and acetylcholine: further analysis of praziquantel-induced contraction of magnesium-paralysed <i>Schistosoma mansoni</i>	387
Kresina, T. F., Qing He, Degli Esposti, S. and Zern, M. A. Hepatic fibrosis and gene expression changes induced by praziquantel treatment during immune modulation of <i>Schistosoma japonicum</i> infection	397
De Luca D'Oro, G. M., Gardenal, C. N., Perret, B., Crisci, J. V. and Montamat, E. E. Genetic structure of <i>Trypanosoma cruzi</i> populations from Argentina estimated from enzyme polymorphism	405
Müller, N., Imboden, M., Detmer, E., Mansfield, J. M. and Seebeck, T. Cytoskeleton-associated antigens from African trypanosomes are recognized by self-reactive antibodies of uninfected mice	411
Bandi, C., La Rosa, G., Comincini, S., Damiani, G. and Pozio, E. Random amplified polymorphic DNA technique for the identification of <i>Trichinella</i> species	419
Timothy, L. M. and Behnke, J. M. <i>Necator americanus</i> in inbred mice: a re-evaluation of primary infection kinetics	425
Taylor, M. J. and Hoole, D. <i>Ligula intestinalis</i> (L.) (Cestoda: Pseudophyllidea): polarization of cyprinid leucocytes as an indicator of host- and parasite-derived chemoattractants	433
McKindsey, C. W. and McLaughlin, J. D. The viability of <i>Sphaeridiotrema pseudoglobulus</i> (Digenea) eggs following cold water storage as a possible overwintering strategy	441
Selkirk, M. E., Gregory, W. F., Jenkins, R. E. and Maizels, R. M. Localization, turnover and conservation of gp15/400 in different stages of <i>Brugia malayi</i>	449
Warbrick, E. V., Barker, G. C., Rees, H. H. and Howells, R. E. The effect of invertebrate hormones and potential hormone inhibitors on the third larval moult of the filarial nematode, <i>Dirofilaria immitis</i> , <i>in vitro</i>	459
