

INDEX OF AUTHORS

Coward, W. A.	127	Kellaway, R. C.	67	Ranawana, S. S. E.	67
Dinsdale, D.	135	McAllan, A. B.	55	Reynolds, L.	45
Ellis, M.	35	McCartney, P. R.	1	Robinson, D. S.	35
Frangi, S. M.	1	Miller, W. S.	35	Rook, J. A. F.	45
Gjøen, A. U.	93	Monsey, J. B.	35	Sawyer, M. B.	127
Heard, C. R. C.	1	Mudgal, V. D.	23	Smith, R. H.	55
Jacobson, S.	107	Nir, I.	81	Wester, P.-O.	107
		Nitsan, Z.	81	Williams, R. B.	135
		Njaa, L. R.	93	Wright, P. M.	1
		Patle, B. R.	23		

FORTHCOMING PAPERS

The next issue of the *British Journal of Nutrition* will appear in March 1977. It is hoped to publish in it the following papers:

Papers of direct relevance to CLINICAL AND HUMAN NUTRITION

Nitrogen retention in rats fed on diets enriched with arginine and glycine. 1. Improved N retention after trauma. By H. S. SITREN and H. FISHER

Nitrogen retention in rats fed on diets enriched with arginine and glycine. 2. Effect of diethyl ether anaesthesia on N retention. By H. S. SITREN and H. FISHER

The effect of wheat fibre on plasma lipids and faecal steroid excretion in man. By R. M. KAY and A. S. TRUSWELL

Endogenous loss of leucine and methionine in adult male rats. By R. J. NEALE and J. S. WATERLOW

Megadosage of ascorbic acid in an Antarctic expedition. By P. J. GORMLY

Papers on GENERAL NUTRITION

Nitrogen retention in the pig. By J. R. CARR, K. N. BOORMAN and D. J. A. COLE

Effect of protein deficiency on absorption, transport and distribution of α -tocopherol in the rat. By O. V. RAJARAM, PREMA FATTERPAKER and A. SREENIVASAN

Fat mobilization in Pietrain and Large White pigs. By J. D. WOOD, N. G. GREGORY, G. M. HALL and DAVID LISTER

Artificial rearing of pigs. 6. The effect of different levels of fat, protein and methionine in a milk substitute containing skim-milk and soya-bean oil. By R. BRAUDE, H. D. KEAL and M. J. NEWPORT

Effect of diet on the metabolism of labelled tocopherol in sheep. By M. HIDIROGLOU

Concurrent studies of the flow of digesta in the duodenum and of exocrine pancreatic secretion in calves. 5. The effect of feeding milk once and twice daily, and of weaning. J. H. TERNOUTH, J. H. B. ROY, I. J. F. STOBO, SUSAN M. SHOTTON and CATHERINE M. GILLIES

Effect of fat supplementation on voluntary food intake and rumen metabolism in sheep. By J. KOWALCZYK, E. R. ØRSKOV, J. J. ROBINSON and C. S. STEWART

Effect of environmental temperature and food intake on the distribution of fat in growing hairless mice. By MARGARET W. STANIER

The British Journal of Nutrition

Volume 37 No. 1 January 1977

CONTENTS

Papers of direct relevance to CLINICAL AND HUMAN NUTRITION

Biochemical characteristics of different forms of protein-energy malnutrition: an experimental model using young rats. By C. R. C. HEARD, SYLVIA M. FRANGI and PAULINE M. WRIGHT.	1-21
Methionine sulphoxide as a source of sulphur-containing amino acids for the young rat. By ANNE U. GJØEN and L. R. NJAA	93-105
Balance study of twenty trace elements during total parenteral nutrition in man. By S. JACOBSON and P.-O. WESTER	107-126
Whole body albumin mass and distribution in rats fed low-protein diets. By W. A. COWARD and M. B. SAWYER	127-134

Papers on GENERAL NUTRITION

Utilization of dietary energy for maintenance, milk production and lipogenesis by lactating crossbred cows during their midstage of lactation. By B. R. PATLE and V. D. MUDGAL	23-33
The effect of feeding magnesium-enriched diets on the quality of the albumen of stored eggs. By J. B. MONSEY, D. S. ROBINSON, W. S. MILLER and MARGARET ELLIS	35-44
Intravenous infusion of glucose and insulin in relation to milk secretion in the sow. By L. REYNOLDS and J. A. F. ROOK	45-53
Some effects of variation in carbohydrate and nitrogen intakes on the chemical composition of mixed rumen bacteria from young steers. By A. B. MCALLAN and R. H. SMITH	55-65
Responses to postprandial infusions of graded levels of casein in lactating goats. By S. S. E. RANAWANA and R. C. KELLAWAY	67-79
A comparative study of the nutritional and physiological significance of raw and heated soya-beans in chicks and goslings. By ZAFRIRA NITSAN and I. NIR	81-91
The enhancement by dietary zinc deficiency of the susceptibility of the rat duodenum to colchicine. By D. DINSDALE and R. B. WILLIAMS	135-142
