

GENERAL NOTES

ROYAL SOCIETY OF MEDICINE,

1 Wimpole Street, London, W. 1.

Section of Laryngology—*President*, Mr H. J. Banks-Davis, M.B., F.R.C.P.—*Hon. Secretaries*, Mr J. F. O'Malley, F.R.C.S., and Mr E. D. D. Davis, F.R.C.S.

The next Meeting of the Section will be held on Friday, 7th December, at 4.45 P.M. Members who are desirous of showing patients or specimens should give notice of the same to the *Senior Hon. Secretary*, Mr J. F. O'Malley, 6 Upper Wimpole Street, London, W. 1.

Section of Otology—*President*, Mr Sydney Scott, M.S. *Hon. Secretaries*, Mr Archer Ryland, F.R.C.S.Ed., and Mr T. H. Just, F.R.C.S.

The next Meeting of the Section will be held on Saturday, 8th December, at 10 A.M. Members who are desirous of showing patients or specimens should give notice of the same to the *Senior Hon. Secretary*, Mr Archer Ryland, 50 Harley Street, London, W. 1.

On Friday, 7th December, at 8.30 P.M., the Sections of Anæsthetics, Laryngology, Otology, Odontology, Ophthalmology, and Surgery will discuss "The Comparative Value of Cocaine Substitutes."

During the Session 1923-24, the *Sections of Laryngology and Otology* will meet upon the following dates:—

Section of Laryngology, on Friday 1st February, 7th March, 4th April, and 2nd May (*Annual Meeting*).

Section of Otology, on Saturday morning following each of the above dates, with the exception of the date in April.

A Conjoint Summer Meeting of the two Sections will be held in London on Friday and Saturday, 27th and 28th June 1924.

TREATMENT OF TUBERCLE IN THE NOSE AND THROAT BY FINSEN-LIGHT-BATHS.

Dr O. Strandberg of the Finsen Institute, Copenhagen, will deliver a Lecture on the above subject on Monday, 3rd December, at 5.30 P.M., at the Royal Society of Medicine, 1 Wimpole Street. The address will be illustrated on the epidiascope in order to show the arrangement of the lamps and the technique of the treatment.

* * *

ELECTRICAL APPARATUS FOR THE DEAF.

At the Institution of Electrical Engineers, Savoy Place, Victoria Embankment, London, W.C. 2, a Discussion upon "Electrical Apparatus for the Deaf" will be held on the evening of Monday, 3rd December, at 7 o'clock. The Discussion will be opened by Mr C. M. R. Balbi. The President and Council of the Institution will welcome the attendance of members of the medical profession who are interested in the subject.

General Notes

THE SCOTTISH SOCIETY OF OTOTOLOGY AND LARYNGOLOGY.

The Eighteenth Meeting of the Scottish Society of Otology and Laryngology will be held in the Royal Infirmary, Glasgow, on the afternoon of Saturday, 15th December, at 3 o'clock.

THE SEMON LECTURE.

On Thursday, 1st November, the Semon Lecture, University of London, was delivered by Dr A. Logan Turner in the Hall of the Royal Society of Medicine. The Chair was occupied by Mr Charles A. Parker, F.R.C.S.E., who introduced the Lecturer to a large audience. After the delivery of his address, which is published in the current number of the *Journal*, Dr Logan Turner was presented by the Chairman with the Semon Medal, and was accorded a hearty vote of thanks.

On the motion of Professor Urban Pritchard, seconded by Dr Jobson Horne, Mr Parker was cordially thanked for his services in the Chair.

In the evening, Sir St Clair Thomson, exercising his well-known hospitality, gave a reception to which he had invited the members of the Sections of Laryngology and Otology, the Vice-Chancellor of the University of London, the Presidents of the two Royal Colleges in London, the President of the Royal Society of Medicine, Professor Burger of Amsterdam, and other guests.

On the following day the Winter Session of the Sections of Laryngology and Otology was inaugurated under the new arrangement which brings the Sections together on consecutive days. If the large number of members who attended the Meetings on this occasion is to be taken as a forecast of the future, the success of the movement will be assured, and the interest taken in the scientific work of the Sections will be increased. The new Presidents, Mr H. J. Banks-Davis and Mr Sydney Scott entertained their respective Councils and other friends at the close of the Sectional Meetings.

ANNUAL DINNER OF THE CENTRAL LONDON THROAT AND EAR HOSPITAL.

The Annual Dinner of the Medical Staff of the Central London Throat and Ear Hospital was held in the Trocadéro Restaurant on Friday, 2nd November. Dr Dan M'Kenzie presided over a gathering numbering about sixty, which included Sir Arbuthnot Lane, Sir John Young, Prof. Burger, Amsterdam, and representative members of the specialty in London, the Provinces, Scotland, and Ireland. Most of the guests were old students of the Hospital. Noteworthy speeches were made by the gentlemen above named and by Sir St Clair Thomson, Dr Andrew Wylie, Dr William Hill, and Mr Richard Kershaw, the Secretary of the Hospital. The last received a special ovation, and many kind references were made to his untiring labours on behalf of the institution with which he has been connected for about forty-six years. In the course of the evening a Loving Cup, subscribed for by the active members of the staff, was presented to Mr James Atkinson on his retirement.

General Notes

THE NEW YORK LARYNGOLOGICAL SOCIETY.

We offer our congratulations to the New York Laryngological Society on attaining its fiftieth anniversary. Founded by Clinton Wagner, in 1873, twenty years before the foundation of its sister Society in London, it was the first Society to devote its attention to the study of this special branch of medicine and surgery.

After a short period of separate existence, it became a Section of the New York Academy of Medicine, and as such, it celebrated, on 15th November, this important anniversary. In connection with the event, an exhibition was organised representing the many contributions made to the science and progress of Laryngology in the city of New York.

A CHAIR OF OTOLOGY.

Through the munificence of Mr Geoffrey E. Duveen, the University of London will be enabled to found a Chair of Otology. For this purpose the donor has gifted a sum of £10,000. In addition to this, Mr Duveen intends to present £15,000 to University College Hospital for the purpose of providing a hospital for the treatment of Ear disease and for the education of the student and practitioner. These donations have been made by the donor in memory of his father, Mr Henry J. Duveen, one of the founders of the Art firm of Duveen Brothers.

Mr Geoffrey Duveen's gift was given originally with the object of removing the Royal Ear Hospital from its present site in Dean Street, Soho, where it has stood for more than a century. With the amalgamation of the Hospital with University College Hospital, it was obvious that the present site in Soho was unsuitable for the teaching of students who were attending the School. By aid of the funds thus provided, a new building, therefore, will be erected in the vicinity of University College.

The Editors of the *Journal* desire to express their indebtedness to, and their cordial appreciation of the work of, Dr Douglas Guthrie and the staff of collaborators, in the voluntary assistance which they have given throughout the year, in abstracting the current medical literature bearing upon the speciality.
