Practical Handbook for Healthcare Epidemiologists, Second Edition

Ebbing Lautenbach, MD, MPH, MSCE, *University of Pennsylvania, Philadelphia, PA* and Keith Woeltje, MD, PhD, *Medical College of Georgia, Augusta, GA*

352 pp., Hard Cover, **Due Fall 2004**, ISBN 1-55642-677-1, Order #16771, **\$94.95**

If you work in today's healthcare epidemiology programs **you will need** the latest edition of *Practical Handbook for Healthcare Epidemiologists, Second Edition*. Situations that are encountered daily can be challenging, and now the answers needed are available in one solid resource.

Extensively updated and revised, this **best selling** handbook is concise, user-friendly and will provide practical information regarding many aspects of establishing and managing a healthcare epidemiology program.

The Society for Healthcare Epidemiology of America (SHEA) has recruited recognized leaders in the field to share their expertise. They discuss overarching goals, as well as successful strategies for handling specific situations and problems. There is also extensive information on infection control in the outpatient setting and measures to take after exposure to infectious agents. *This is the most complete hands-on source about healthcare epidemiology and infection prevention and control.*

A straight forward and practical guide, *Practical Handbook for Healthcare Epidemiologists, Second Edition* will be critical to establishing and operating a successful healthcare epidemiology and infection control program. Students, residents, fellows, and faculty will benefit as they learn in a productive manner what to expect in their future roles.

Topics Inside:

- How to negotiate with administration
- How to implement exposure workups
- Ethical decisions and application to infection control
- The building blocks of surveillance-identification to communication
- Extending infection control programs into long term care & outpatient facilities
- How to survive JCAHO and OSHA inspections

New to this edition:

- Patient safety
- Bioterrorism preparedness
- Antimicrobial resistance
- Hand hygiene
