

NOTES AND QUERIES.**SECTION OF LARYNGOLOGY OF THE ROYAL SOCIETY OF MEDICINE: SUMMER CONGRESS, 1920.**

The *Second Annual Summer Congress* of this Section will be held on Thursday and Friday, June 24 and 25, 1920, at 1, Wimpole Street, London W. 1.

Members of the Section are invited to contribute papers which may be read at the Congress. Papers will be read on the afternoon of Thursday, June 24, from 2.30 till 5.30 p.m., and on the morning of Friday, June 25, from 10 to 1. Not more than 15 minutes will be allowed for the reading of any paper.

The usual Clinical Meeting will be held on Friday afternoon at 4 p.m. Demonstrations will be given; also there will be a Pathological Museum and an exhibition of Instruments and Drugs.

Those who intend to read papers are requested to send in the abstracts of their papers not later than May 24 to the Hon. Secretaries, Dr. Irwin Moore, 30A, Wimpole Street, London, W. 1, or Mr. Charles Hope, 22, Queen Anne Street, London, W. 1.

American and foreign colleagues are cordially invited to take part in the work of the Congress as Honorary Members.

The Annual Dinner will be held at the Café Royal on the evening of Thursday, June 24. Members are requested to intimate their intention to be present to the Secretaries as soon as possible.

OTOLOGICAL SECTION OF THE ROYAL SOCIETY OF MEDICINE.

The next meeting of this Section will be held on May 21. Notices and papers to be sent in not later than May 1. Secretaries: Mr. H. Buckland Jones and Mr. Lionel Colledge.

LARYNGOLOGICAL SECTION OF THE ROYAL SOCIETY OF MEDICINE.

The next monthly meeting of this Section will be held on May 7. Notices and papers to be sent in not later than April 25. Secretaries: Dr. Irwin Moore and Mr. C. W. Hope.

ANNUAL MEETING IN CAMBRIDGE, JUNE 30-JULY 3, 1920.

The British Medical Association has not held its usual annual gathering since July in the fateful year of 1914. The forthcoming meeting at Cambridge promises to be most interesting and a great success under the presidency of Sir Clifford Allbutt. There is no Section of Otology or Laryngology this year. Ophthalmology, an older if not a larger speciality, and several small ones are in exactly the same case. We understand that the object is to secure better work at the Sections by giving each of them a meeting every two or three years instead of annually. Oto-laryngologists are welcome to contribute communications to the surgical or other sections, and we trust that many of our readers will avail themselves of this opportunity.

It is hoped and expected that many visitors from the provinces, the over-seas Dominions and foreign countries will attend the Summer Congress in London and go on to the meeting in Cambridge.

CONGRÈS FRANÇAIS D'OTO-RHINO-LARYNGOLOGIE, PARIS, MAY 10-13, 1920.

This Congress commences at 9 a.m. on May 10 at the Hôtel des Sociétés Savantes, 8 rue Danton.

The two subjects for general discussion are—(1) "Radium and Radio-therapy in Tumours of Ear, Nose and Throat," to be opened by Dr. Lombard and Dr. Sargnon; (2) "Paradental Cysts of the Upper Jaw," to be introduced by Dr. Jacques.

The outgoing President is Dr. Bar, of Nice, and the President-elect is Prof. Sieur, of Paris. Quite a number of British oto-laryngologists have arranged to visit Paris for this meeting, and further particulars can be obtained by writing to the Editor of this JOURNAL.

CENTRAL LONDON THROAT AND EAR HOSPITAL.—LANTERN DEMONSTRATION BY DR. J. S. FRASER (Edinburgh).

Dr. J. S. Fraser is giving a lantern demonstration of his slides illustrating diseases of the labyrinth at the above Hospital, on Thursday, May 20, at 5 p.m.

Readers of this Journal are well acquainted with the notable work on the pathology of the labyrinth which Dr. Fraser has been carrying on, to the high credit of British otology, for many years past, and this opportunity of a general survey of the subject is one that should not be missed.

THE new volume of the *Medical Annual* is of unusual value and interest. The experiences gained by the War have produced advances in medical science and practice which, under ordinary conditions, would have required many years to reach.

This progress will be found chronicled in the *Annual*, and adapted in every way possible to the requirements of the practitioner.

From Press Notices.

British Medical Journal.—"Good reading, and an excellent investment."

Lancet.—"A valuable addition to the library of the Medical Practitioner; contains in one volume a practical summary of the progress of medicine during the past year."

Last year's volume was exhausted soon after publication, and, to avoid disappointment, early application is advised for this issue.

Bristol: JOHN WRIGHT & SONS LTD.

London: SIMPKIN, MARSHALL & CO. LTD.

A NEW HEAD LAMP.

Devised by GILBERT CHUBB, M.B.,
D.Sc.Lond., F.R.C.S.Eng.

An improved lamp on the Klar principle; fitted with unbreakable mirror of speculum metal; easily adjusted and economical in use. (Vide *Lancet*, March 13th, 1920.)

A MASTOID RETRACTOR

Designed by B. SEYMOUR JONES, F.R.C.S.,
Surgeon, Birmingham Ear and Throat Hospital.

A simple self-retaining spring retractor; easily placed in position and removed and not liable to slip when in use.

A TONGUE HOLDER & DEPRESSOR for Tonsillectomy.

Suggested by JAMES DONELAN, Ch.M., M.B.

When removing the tonsils by dissection this tongue forceps has been found useful. The points are inserted transversely and well back in the dorsum of the tongue, which is depressed so as to give a good view and free the respiratory passages.

Chiron Examination Lamp (Regd.)

The Chiron Lamp has been approved by many leading Specialists, and we have no hesitation in recommending it as superior to any lamp yet produced. The Burner of the $\frac{1}{2}$ -Watt type, of special design, gives a brilliant illumination of about 200 candle-power.

TONSIL PASTE APPLICATOR.

Devised by IRWIN MOORE, M.B., C.M.Edin., Surgeon to the Throat Hospital, Golden Square.

Vide "The Treatment of Enlarged or Diseased Tonsils in Cases where Surgical Procedures are Contra-indicated" (*Journal of Laryngology*, October, 1919).
