

DR. J. COLLIS BROWNE'S CHLORODYNE.

ORIGINAL AND ONLY GENUINE.

COUGHS,
COLDS,
A STHMA.
B RONCHITIS.

DR. J. COLLIS BROWNE'S CHLORODYNE.—This wonderful remedy was discovered by Dr. J. COLLIS BROWNE, and the word Chlorodyne coined by him expressly to designate it. There never has been a remedy so vastly beneficial to suffering humanity, and it is a subject of deep concern to the world that they should not be imposed upon by having imitations pressed upon them on account of cheapness, and as being the same thing. Dr. J. COLLIS BROWNE'S CHLORODYNE is a totally distinct thing from the spurious compounds called Chlorodyne, the use of which only ends in disappointment and failure.

DR. J. COLLIS BROWNE'S CHLORODYNE STATED PUBLICLY in Court that Dr. J. COLLIS BROWNE was UNDOUBTEDLY THE INVENTOR of CHLORODYNE, that the whole story of the defendant was deliberately untrue, and he regretted to say it had been sworn to.—See *The Times*, July 18th, 1864.

DR. J. COLLIS BROWNE'S CHLORODYNE is a LIQUID MEDICINE which ASSUAGES PAIN OF EVERY KIND, affords a calm, refreshing sleep, WITHOUT HEADACHE, and INVIGORATES THE NERVOUS SYSTEM when exhausted.

DR. J. COLLIS BROWNE'S CHLORODYNE rapidly cuts short all attacks of EPILEPSY, SPASMS, COLIC, PALPITATION, HYSTERIA.

GREAT SPECIFIC FOR

CHOLERA, DYSENTERY,
ORIGINAL AND
DIAARRHEA.

The GENERAL BOARD
of HEALTH, London, RE-
PORT that it ACTS as a
CHARM, one dose generally
sufficient.

DR. GIBBON, Army
Medical Staff, Calcutta, states
—“TWO DOSES COM-
PLETLY CURED ME of
DIARRHEA.”

*From SYMES & Co., Phar-
macetical Chemists, Medical
Hall, Simla.—Jan. 5th, 1880.
To J. T. DAVENPORT, Esq.,
33 Great Russell St., Blooms-
bury, London.—DEAR SIR—*

We embrace this opportunity
of congratulating you upon
the wide-spread reputation
this justly esteemed medicine
has earned for itself, not
only in Hindostan, but all
over the East. As a remedy
ONLY GENUINE.

of general utility, we much question whether a
better is imported into the country, and we shall
be glad to hear of its finding a place in every Anglo-
Indian home. The other brands, we are happy to
say, are now relegated to the native bazaars and,
judging from their sale, we fancy their sojourn
there will be but evanescent. We could multiply
instances *ad infinitum* of the extraordinary efficacy
of Dr. Collis Browne's Chlorodyne in Diarrhea
and Dysentery, Spasms, Cramps, Neuralgia, the
Vomiting of Pregnancy, and as a general sedative,
that have occurred under our personal observation

during many years. In Choleraic Diarrhea, and even in the more terrible forms of Cholera itself, we have witnessed an surprisingly controlling power.

We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate breach of faith on the part of the chemist to prescriber and patient alike.—We are, Sir, faithfully yours, SYMES & Co.

Members of the Pharm. Society of Great Britain,
His Excellency the Viceroy's Chemists.

DR. J. COLLIS BROWNE'S CHLORODYNE is the TRUE PALLIATIVE in
NEURALGIA, GOUT, CANCER,
TOOTHACHE, RHEUMATISM.

IMPORTANT CAUTION.

The IMMENSE SALE of this REMEDY has given rise to many UNSCRUPULOUS IMITA-
TIONS.

N. B.—EVERY BOTTLE OF GENUINE
CHLORODYNE BEARS on the GOVERN-
MENT STAMP the NAME of the INVENTOR.

DR. J. COLLIS BROWNE.
SOLD IN BOTTLES, Is. 1½d., 2s. 9d., 4s. 6d.
by all Chemists.

SOLO MANUFACTURER,

The object of this Series is to provide the learner with a concise but practical introduction to the various languages, and at the same time to furnish students of comparative philology with a clear and comprehensive view of their structure. The attempt to adapt the somewhat cumbrous grammatical system of the Greek and Latin to every other tongue has introduced a great deal of unnecessary difficulty into the study of languages. Instead of analyzing existing locutions and endeavouring to discover the principles which regulate them, writers of grammars have for the most part constructed a frame-work of rules on the old lines, and tried to make the language of which they were treating fit into it. Where this proves impossible, the difficulty is met by lists of exceptions and irregular forms, thus burdening the pupil's mind with a mass of details of which he can make no practical use.

In these grammars the subject is viewed from a different standpoint: the structure of each language is carefully examined, and the principles which underlie it are carefully explained; while apparent discrepancies and so-called irregularities are shown to be only natural euphonies and other changes. All technical terms are excluded unless their meaning and application is self-evident; no arbitrary rules are admitted; the old classification into declensions, conjugations, etc., and even the usual *paradigms* and tables, are omitted. Thus reduced to the simplest principles, the Accidence and Syntax can be thoroughly comprehended by the student on one perusal, and a few hours' diligent study will enable him to analyze any sentence in the language.

The following are in preparation :—

Albanian, by Wassa Pasha, Prince of the Lebanon.	Icelandic, by Dr. Wimmer, Copenhagen.
Assyrian, by Prof. Sayce.	Lettish, by Dr. M. I. A. Völkel.
Bengali, by J. F. Blumhardt, Esq., of the British Museum.	Lithuanian, by Dr. M. I. A. Völkel.
Burmese, by Dr. E. Forchammer.	Malay, by W. E. Maxwell, of the Inner Temple, Barrister-at-Law.
Cymric and Gaelic, by H. Jenner, of the British Museum.	Portuguese, by Walter de Gray Birch.
Finnic, by Prof. Otto Donner, Helsingfors.	Russian, Bohemian, Bulgarian, and Serbian, by Mr. Morfill, of Oxford.
Hebrew, by Dr. Ginsburg.	Sinhalese, by Dr. Edward Müller.
