

SEX AND REASON

Whoever Thought Of Pairing The Two?

© Better Image, Chicago. All rights reserved.

Sexual drives and orientations are rooted in biology, but we don't act on them blindly. Indeed, as the eminently readable judge and legal scholar shows, we make quite rational choices about sex, based on the costs and benefits perceived.

Drawing on a sweeping range of fields including biology, law, history, religion, and economics, Posner examines societies from ancient Greece to today's Sweden and issues from masturbation, incest taboos, date rape, and gay marriage to Baby M. The first comprehensive approach to sexuality and its social controls, his rational choice theory surprises, explains, predicts, and totally absorbs.

Moral Legislation

A Legal-Political Model for Indirect Consequentialist Reasoning

Conrad D. Johnson

This is a book about moral reasoning: how we actually reason and how we ought to reason. It defends a form of "rule" utilitarianism whereby we must sometimes judge and act in moral questions in accordance with generally accepted rules, so long as the existence of those rules is justified by the good they bring about.

Belated Feudalism

Labor, the Law, and Liberal Development in the United States

Karen Orren

Traditional and still dominant theories of American political development depict the American state as a thoroughly liberal state from its very inception. According to these accounts, no vestiges of feudal social structure and no traditions of aristocratic privilege were harbored in the American political system at the time of the founding. Refuting this traditional view, Karen Orren's striking thesis is that a remnant of ancient feudalism was in fact embedded in the American system, in the judiciary, in the form of the law of master and servant, which effectively cut off labor relations from democratic politics.

The Search for Rational Drug Control

Franklin E. Zimring and Gordon Hawkins

In this comprehensive examination of drug control policy in the United States the authors address a number of pressing questions. How are policy choices identified, debated and selected? How are the consequences of governmental policy measured and evaluated? How, if at all, do we learn from our mistakes?

41668-X Hardcover \$24.95

Theory of Societal Constitutionalism

Foundations of a Non-Marxist Critical Theory

David Sciulli

Rather than define authoritarianism primarily by contrast to liberal democracy, Sciulli argues, we need to broaden our conception of authoritarianism to include "social authoritarianism," referring to social control imposed by private organizations and institutions, such as business corporations and professional associations.

A Culture of Rights

The Bill of Rights in Philosophy, Politics and Law—1791 and 1991

Michael J. Lacey and Knud Haakonssen, Editors

Written by leading authorities in history, philosophy, jurisprudence and political theory, the essays in this volume provide new insights into the variable and changing contents of the rights thinking and consciousness that lie at the core of American political culture and shape its central political institutions.

Law, Sexuality, and Society

The Enforcement of Morals in Classical Athens

David Cohen

Centering on the examination of the social and legal context of adultery, homosexuality, impiety, and the public-private dichotomy in Athenian society, this book attempts to examine the problems of social control and the regulation of sexuality in a way that will be of interest to a broad readership. It uses a comparative approach to show how the examination of such issues can deepen our understanding of classical Athens, particularly in regard to the role of law in society.

BANKRUPTCY, once a term that sent shudders up a manager's spine, has now become a potent weapon in the corporate arsenal.

Strategic Bankruptcy

How Corporations and Creditors Use Chapter 11 to Their Advantage

KEVIN J. DELANEY

"Delaney has set himself a task fit for a hero. . . . He offers a perspective on corporate restructuring that is bound to change our thinking for years to come."—John D. Ayer, former U.S. Bankruptcy Judge

"Delaney . . . shows how a legal tool designed to shield troubled companies has become a multi-purpose weapon in battles over corporate power."

—Kim Lane Scheppele, University of Michigan

"Delaney brings into sharp relief the strategic and political determinants of corporate bankruptcy that we must understand to have a clear picture of business in the 90s."—Mark Granovetter, SUNY, Stonybrook

Handling Cases in a Lower Criminal Court

MALCOLM M. FEELEY

"The book's findings are well worth the attention of the serious criminal justice student, and the analyses reveal a thoughtful, probing, and provocative intelligence...an important contribution to the debate on the role and limits of discretion in American criminal justice. It deserves to be read by all those who are interested in the outcome of the debate."

—Jerome H. Skolnick,

American Bar Foundation Research Journal

"[Feeley] spices provocative analysis with fascinating vignettes from his months in the courtroom...a fine attempt to kindle interest in lower courts and their handling of minor offenses. His combination of thorough empirical research with thoughtful analysis demands to be read, criticized, and savored."
