# THE JOURNAL OF PHYSIOLOGY

*Published for the Physiological Society*

Chairman of the Editorial Board:

A. V. Edwards, University of Cambridge

This internationally respected journal publishes high quality papers representing original experimental work in three areas: general physiology, mammalian physiology, and human physiology. Each hardbound monthly volume of *The Journal of Physiology* is concerned with respiration, circulation, excretion, reproduction, digestion, homeostasis, and particularly neurophysiology and muscular contraction. Abstracts of scientific meetings of the Physiological Society, which are accepted by the members present at those meetings, are also published. A Cumulative Subject and Author Index is produced triennially and an Annual Index is produced in the intervening years.

### *Selected papers*

Co-ordinated variations in chloride-dependent potassium transport and cell water in normal human erythrocytes, *G. W. Stewart*

Influence of right atrial stretch and atrial natriuretic factor on rate intestinal fluid content, *S. Kaufman & E. Monckton*

Outward rectification of inhibitory postsynaptic currents in cultured rat hippocampal neurons, *J. L. Barker & N. L. Harrison*

Review Lecture: Capillary permeability and how it may change, *C. C. Michel*

*The Journal of Physiology* (ISSN 0022-3751) is published monthly in 1989. Subscription to volumes 408-419: \$1200.00 per year; \$106.00 per volume.

Back Volumes: 254-407 (1976-1988) \$115.00 each.
