

NOTICE TO AUTHORS

American Antiquity publishes original papers on the archaeology of the New World and on archaeological method, theory, and practice worldwide. Authors of papers on Latin American topics are encouraged to submit their work to *Latin American Antiquity*. Papers on Latin American archaeology addressing broad methodological, theoretical, or comparative issues may be accepted by either journal after consultation with the editors. Authors submit manuscripts to the editor for consideration as ARTICLES, REPORTS, COMMENTS, or FORUM essays. REVIEWS and BOOK NOTES are solicited by the respective associate editor. OBITUARIES should be submitted to the editor, *The SAA Archaeological Record*, for publication (see *SAA Bulletin* March/April 1996, p. 7, for further details).

Authors are required to submit manuscripts electronically through Editorial Manager[®] (<http://www.editorialmanager/aq>). Detailed information on policy, style, and technical matters of manuscript preparation is given in the "Editorial Policy, Information for Authors, and Style Guide for *American Antiquity* and *Latin American Antiquity*," which appeared in the October 1992 issue (57:749–770) and can be read on the World Wide Web at <http://www.saa.org/Publications/StyleGuide/styframe.html>.

The editor reserves the right to evaluate manuscripts (with or without peer review) for appropriate subject matter, quality, length, and compliance with the style guide. Manuscripts may be returned to authors if they fail to meet expectations or conform to these guidelines. Manuscripts are evaluated by the editor in consultation with peer referees, as appropriate. The editor has the final responsibility for all decisions regarding manuscripts. The review process generally takes a minimum of two to four months. Authors will be notified as soon as a decision is reached to accept (outright or with revisions) or reject a manuscript.

ARTICLES

- 707 Eastern North American Population at ca. A.D. 1500
George R. Milner and George Chaplin
- 727 Social Transformation in Old Hawai'i: A Bottom-Up Approach
Thomas S. Dye
- 743 A Symmetry Analysis of Design Structure: 1,000 Years of Continuity and Change in Puebloan Ceramic Design
Dorothy K. Washburn, Donald W. Crowe, and Richard V. N. Ahlstrom
- 773 Changing Views of Drakensberg San Rock Art: Examining Landscape Use, Ritual Activity, and Contact through Multivariate Content-Based Spatial Analysis
Grant S. McCall
- 792 Land Use, Land Ideology: An Integrated Geographic Information Systems Analysis of Rock Art within South-Central California
David W. Robinson
- 819 Basketmaker and Archaic Rock Art of the Colorado Plateau: A Reinterpretation of Paleomimagery
Jennifer A. Kitchell
- 841 Evolutionary Ecology, Elite Feasting, and the Hohokam: A Case Study from a Southern Arizona Platform Mound
Deanna N. Grimstead and Frank E. Bayham
- 865 Footprints across the Black Rock: Temporal Variability in Prehistoric Foraging Territories and Toolstone Procurement Strategies in the Western Great Basin
Geoffrey M. Smith
- 886 Size-Dependence in Assemblage Measures: Essentialism, Materialism, and "She" Analysis in Archaeology
Michael J. Shott

REPORTS

- 907 Jake Bluff: Clovis Bison Hunting on the Southern Plains of North America
Leland C. Bement and Brian J. Carter
- 935 The Construction, Use, and Abandonment of Angel Site Mound A: Tracing the History of a Middle Mississippian Town through Its Earthworks
G. William Monaghan and Christopher S. Peebles

On the Cover: Stable carbon isotope data ($\delta^{13}\text{C}$) from the Bull Creek drainage in neighboring Beaver County, Oklahoma is plotted against time to illustrate changes in conditions through time. The Greenland ice core temperature trend is plotted above the Bull Creek data for comparison. From "Jake Bluff: Clovis Bison Hunting on the Southern Plains of North America" by Leland C. Bement and Brian J. Carter, pg. 910.
