

# Earth and Environmental Science

## Transactions of the Royal Society of Edinburgh

volume 100 parts 1 & 2 2010  
(for 2009)

### Special Issue

**The Sixth Hutton  
Symposium on The Origin  
of Granites and Related  
Rocks**

Published by The RSE Scotland Foundation, 22–26 George Street, Edinburgh EH2 2PQ

The Royal Society of Edinburgh is committed to the widespread dissemination of scientific knowledge and has published the *Transactions of the Royal Society of Edinburgh* since 1785, when James Hutton's 'Theory of the Earth' was published in volume 1. The journal evolved to the *Transactions of the Royal Society of Edinburgh: Earth Sciences* in 1980 and is now (as from 2007) the *Earth and Environmental Science Transactions of the Royal Society of Edinburgh*. Through this journal, the Society continues to encourage and support the international Earth and Environmental Science communities by:

- publishing a journal of international standing and authorship;
- publishing substantial papers on all scientific aspects of the earth and its surface environments;
- publishing without page charges;
- reproducing photographs and artwork to the highest standard, where appropriate at a size larger than is customary; and
- aiming to have papers reviewed within three months by at least two referees of international standing; usually publishing within six months of acceptance.

**The Editorial Board welcomes original manuscripts in the Earth and Environmental Sciences. It also welcomes proposals for Special Issues in these areas.**

#### Editorial Board

P. M. BISHOP  
University of Glasgow  
(Chairman & Editor-in-Chief)

J. G. GRACE  
University of Edinburgh

C. E. SNAPE  
University of Nottingham

M. J. BENTON  
University of Bristol

M. P. HENTON  
Environment Agency, Bristol

R. THOMPSON  
University of Edinburgh

M. I. BIRD  
James Cook University  
Queensland, Australia

M. J. SIEGERT  
University of Edinburgh

A. M. ZIOLKOWSKI  
University of Edinburgh

D. J. FETTES  
BGS, Edinburgh

A. B. SMITH  
Natural History Museum,  
London

J. D. MACMILLAN  
(Ex Officio: RSE Curator)

E. M. GILL  
Rural & Environmental Research & Analysis Directorate

#### Consulting Editors

P. AHLBERG  
Lund University  
Sweden

B. W. CHAPPELL  
Macquarie University  
Sydney, Australia

J. DOWDESWELL  
Scott Polar Research Institute  
University of Cambridge, UK

P. A. ALLEN  
Imperial College  
London, UK

I. W. D. DALZIEL  
University of Texas at Austin  
USA

J. C. KNOX  
University of Wisconsin  
Madison, USA

M. ARIMA  
Yokohama National University  
Japan

J. F. DEWEY  
University College, Oxford  
UK

D. WALOSZEK  
Universität Ulm  
Germany

S. BANNO  
Kyoto University  
Japan

P. DONOGHUE  
University of Bristol  
UK

C. T. WILLIAMS  
The Natural History Museum  
London, UK

R. L. CARROLL  
McGill University, Montreal, Canada

Sixth Hutton Symposium  
on  
The Origin of Granites and Related Rocks

Proceedings of a Symposium held in  
Stellenbosch, South Africa  
2–6 July 2007

Guest Editor-in-Chief:  
John D. Clemens

EESTRSE Editor:  
Colin Donaldson

Guest Editors:  
Carol D. Frost  
Alexander F. M. Kisters  
Jean-François Moyen  
Tracey Rushmer  
Gary Stevens

# CONTENTS

J. D. CLEMENS Preface	v
Sharad MASTER Plutonism versus Neptunism at the southern tip of Africa: the debate on the origin of granites at the Cape, 1776–1844	1
Hervé MARTIN, Jean-François MOYEN and Robert RAPP The sanukitoid series: magmatism at the Archaean–Proterozoic transition	15
J.-F. MOYEN, D. CHAMPION and R. H. SMITHIES The geochemistry of Archaean plagioclase-rich granites as a marker of source enrichment and depth of melting	35
Simon TURNER and Tracy RUSHMER Similarities between mantle-derived A-type granites and voluminous rhyolites in continental flood basalt provinces	51
Luke LONGRIDGE, Roger L. GIBSON and Paul A. M. NEX Structural controls on melt segregation and migration related to the formation of the diapiric Schwerin Fold in the contact aureole of the Bushveld Complex, South Africa	61
Jean H. BEDARD Parental magmas of Grenville Province massif-type anorthosites, and conjectures about why massif anorthosites are restricted to the Proterozoic	77
Paul D. BONNS, Jens K. BECKER, Marlina A. ELBURG and Kristjan URTSON Granite formation: Stepwise accumulation of melt or connected networks?	105
Eric HORSMAN, Sven MORGAN, Michel de SAINT-BLANQUAT, Guillaume HABERT, Andrew NUGENT, Robert A. HUNTER and Basil TIKOFF Emplacement and assembly of shallow intrusions from multiple magma pulses, Henry Mountains, Utah	117
M. O. M. RAZANATSEHENO, A. NEDELEC, M. RAKOTONDRAZAFY, J. G. MEERT and B. RALISON Four-stage building of the Cambrian Carion pluton (Madagascar)	133
Keith BENN Anisotropy of magnetic susceptibility fabrics in syntectonic plutons as tectonic strain markers: the example of the Canso pluton, Meguma Terrane, Nova Scotia	147
J. D. CLEMENS, P. A. HELPS and G. STEVENS Chemical structure in granitic magmas – a signal from the source?	159
R. C. ECONOMOS, V. MEMETI, S. R. PATERSON, J. S. MILLER, S. ERDMANN and J. ŽÁK Causes of compositional diversity in a lobe of the Half Dome granodiorite, Tuolumne Batholith, Central Sierra Nevada, California	173
Axel MÜLLER, Alfons M. van den KERKHOF, Hans-Jürgen BEHR, Andreas KRONZ and Monika KOCH-MÜLLER The evolution of late-Hercynian granites and rhyolites documented by quartz – a review	185

C. JUNG, S. JUNG, E. HELLEBRAND and E. HOFFER Trace element constraints on mid-crustal partial melting processes – A garnet ionprobe study from polyphase migmatites (Damara orogen, Namibia)	205
M. P. SEARLE, J. M. COTTLE, M. J. STREULE and D. J. WATERS Crustal melt granites and migmatites along the Himalaya: melt source, segregation, transport and granite emplacement mechanisms	219
Takashi HOSHIDE and Masaaki OBATA Zoning and resorption of plagioclase in a layered gabbro, as a petrographic indicator of magmatic differentiation	235
AUTHOR INDEX	251
