Students buy and use their own practice tapes in booths like this. Cabinetry for booths and console were made by Arlington's maintenance shop.

ARLINGTON COLLEGE LAB BUSY TO CAPACITY— ADDITIONAL BOOTHS, LANGUAGES PLANNED!

Everything's growing at Arlington State College, now a four-year college with 11,000 enrollment. And one area in particular that's growing by leaps and bounds is language instruction. Over 1500 students are now enrolled in language courses and 160 of them are language majors.

French, Spanish, German and Russian are offered. Future plans call for adding Arabic, and Japanese or Chinese. Present plans call for extending language studies to the graduate level.

Small wonder the language lab is busy to nearly 100% capacity—2246 hours a semester. It's proved so effective a tool of instruction that plans call for enlarging the lab from 72 booths to 216 in the new building now being planned.

LEARN BY REPETITION

Virgil L. Poulter, laboratory director at Arlington, describes the

lab's contribution this way: "The first principle of language learning is *repetition*. This is so because language consists of a set of patterns. Memorization of these speech patterns is essential to learning any foreign language, and the laboratory gives students an unparalleled opportunity to listen, practice, compare . . . and learn by this repetition."

Lab practice is an integral, required part of language instruction at Arlington. Most courses include two hours a week in the laboratory plus three hours in a regular classroom.

USE "SCOTCH" RECORDING TAPES

Two special classroom tapes are used at Arlington. "SCOTCH" Brand Heavy Duty No. 175 Tenzar Tape that outwears ordinary tape at least 15 times is used for mastering. In the booths, students buy and use "SCOTCH"

No. 282 Sandwich Tape—the tape with protective plastic over the recording surface to prevent rub-off and keep equipment clean. "Scotch" Self-Threading Reels are used for easy tape handling.

TAPE-FILMSTRIP COURSE OFFERED BY 3M

"Taking the Mystery Out of the Language Laboratory," a special tape-filmstrip course, provides teacher, principal, administrator with a guide to planning, operating and budgeting a lab. Available only from 3M. For full information, write 3M Magnetic Products Division, Dept. MCN-55, St. Paul, Minnesota 55119.

COLLEGE READING SKILLS

by LETTIE J. AUSTIN
and the staff of the *Howard University Reading Program*

This book represents a complete and extensively tested course in reading for the college freshman, taught in three steps. First, the principles of the English language are examined, and words, sentences, and paragraphs are related to the reading process. These explanations are then followed by models which illustrate the principles at work, and lead to further reading. In the third step, imaginative questions and exercises test ability and encourage thoughtful response from the student. A STATEMENT OF EDITORIAL POLICY

PMLA endeavors to represent the most distinguished contemporary scholarship and criticism in the modern languages and literatures. It welcomes both new and traditional approaches by either young or established scholars, providing only that whatever it publishes is excellent and likely to be of permanent value. The distribution of papers in *PMLA* should reflect work of distinction actually being done from year to year, regardless of periods or languages. Members who feel their interests neglected by this policy can always alter the situation by writing, or by encouraging others to write, articles good enough to be published.

The audience for *PMLA* is the total membership of the Association. Hence, it is reluctant to publish minor articles or highly technical studies addressed to specialists in limited fields. Nor does it encourage brief notes or unduly long papers. *PMLA* does not review books. Articles should be written in a clear, concise, and attractive style. Documentation should be held to a necessary minimum.

Every member of the Association has the privilege of submitting papers for publication in *PMLA*. Each paper submitted will be read by at least one consultant with special competence in the field concerned. Papers in any way recommended will also be read by at least one member of the Editorial Committee. Attempt is made to publish papers within nine months of acceptance. If a decision to accept or reject a paper seems unduly delayed, contributors are reminded that the services of consultant readers and the Editorial Committee are the unpaid labors of distinguished men and women who generously contribute their scant leisure to the advancement of scholarship in humane letters.

Manuscripts must be prepared in conformity with the *MLA Style Sheet*, published in the April 1951 *PMLA* and on sale as a pamphlet in the MLA offices. Authors are urged to read also the advice of R. B. McKerrow and H. M. Silver on scholarly publication, published in the April 1950 *PMLA*, and also on sale as a pamphlet. Manuscripts should be addressed to the Editor of *PMLA*, 4 Washington Place, New York, N. Y. 10003. Carbon copies are not needed, but should be made and retained by the author.
