# The Journal of Laryngology and Otology

(Founded in 1887 by MORELL MACKENZIE and NORRIS WOLFENDEN)

EDITED BY

A. LOGAN TURNER AND J. S. FRASER

ASSISTED BY

DOUGLAS GUTHRIE AND IRWIN MOORE

1. Original Articles are accepted on the condition that they have not been published elsewhere.

2. Manuscripts should be typewritten, on one side only of the paper, and well spaced.

3. Galley proofs and engraver's proofs of illustrations are sent to the author. Corrections, which should be kept to a minimum, must be clearly marked and no additional matter should be added.

4. The order for reprints should be sent when returning galley proofs, and for this purpose special forms are supplied, on which the price of the reprints is stated.

5. Authors of Original Communications on Oto-Laryngology in other Journals are invited to send a copy, or two reprints, to the *Journal of Laryngology*. If they are willing, at the same time, to submit their own abstract (in English, French, Italian, or German) it will be welcomed.

6. Editorial Communications should be addressed to "EDITORS, *Journal of Laryngology*, c/o Messrs OLIVER AND BOYD, Tweeddale Court, Edinburgh."

7. The Annual Subscription is Forty Shillings, post free, and is payable in advance.

8. Single copies of back numbers, both of the present and the previous series, are on sale at Four Shillings each.

9. An Annual Subscription can be commenced with any number of the Journal, and the preceding numbers of the current year can be purchased at Four Shillings each.

## UNITED STATES OF AMERICA

Orders for this Journal, for single parts or yearly subscriptions, can be sent either through a local bookseller, or to Messrs G. E. STECHERT & Co., 31-33 East 10th Street, New York.

## THE SURGICAL ANATOMY OF THE TEMPORAL BONE

By ARTHUR H. CHEATLE, F.R.C.S., comprising an album of 200 Photographs, half bound in Morocco, gilt edges, price £14 net, including a Catalogue of the specimens and a guide, arranged alphabetically under anatomical headings.

**Illustrated Descriptive Leaflet will be sent on application**

"Should prove extremely useful to those who are engaged in teaching the anatomy and surgery of the ear, . . . a valuable source of reference to the surgeon."

—*The Journal of Laryngology and Otology*.

" . . . should prove of the utmost utility for teachers of anatomy and aural surgery."—*Lancet*.

LONDON: H. K. LEWIS & CO. LTD., 136 Gower Street, W.C. 1.

### CHEVALIER JACKSON'S INSTRUMENTS FOR ŒSOPHAGOSCOPY, LARYNGOSCOPY, AND BRONCHOSCOPY

New Models as made for Walter G. Howarth, F.R.C.S.

Each Instrument is made in accordance with the details of Chevalier Jackson's most recent models, and each is supplied with a *spare light carrier*, i.e., 2 light carriers and 2 lamps. All the models have been redesigned with a view to rendering them more easily cleansed; all the crevices and corners for the dirt have been taken away.

To ensure better visibility the tips of the forceps are *black*.

The Howarth-Jackson's Instruments are **less expensive than other American or English models**, and a further economy has been effected by rendering the instrument tips interchangeable, thus reducing the number of forceps handles and tips required.

The lamps are 2.5 volt and more durable than the usual models.

Manufactured only by

## DOWN BROS., LTD.

SURGICAL INSTRUMENT MAKERS

21 and 23 ST THOMAS'S STREET

LONDON, S. E. 1

(Opposite Guy's Hospital)

Telegrams—"DOWN, LONDON."

## For Inflammatory Conditions

of the Nose, Ear and Throat

**N**EO-PROTOSIL is finding increasing favour in the treatment of the above conditions. It is a combination of silver iodide with a soluble protein base. Although a powerful bactericide, it is non-irritating to mucous membrane and does not cause dark stains.

*Further particulars and a sample will be sent on request*
