

## GENERAL NOTES

THE Editors are anxious to improve the clinical aspect of the Journal and would welcome more reports of interesting cases. These clinical records need not be at all elaborate and it would be unnecessary to go minutely into the ætiology or the literature of the subject. Senior Registrars have unique opportunities for seeing a large variety of cases, many with unusual features. It is in many ways regrettable that these should go unrecorded. It is hoped that all those in charge of clinics will help us in this matter and see that such cases are not overlooked. It is important that all illustrations should have captions and also that the author's name should be written on the back.

### ROYAL COLLEGE OF SURGEONS OF ENGLAND OTOLARYNGOLOGY LECTURES 1959

THE following lectures, arranged jointly by the Royal College of Surgeons of England and the Institute of Laryngology and Otology, will be delivered in the Lecture Hall of the College, at 5.30 p.m.

1959

February 5th. MR. VICTOR RIDDELL. "Thyroid gland and recurrent laryngeal nerve."

March 5th. MR. ROBERT BRAIN. "Œsophageal replacement."

April 30th. PROFESSOR MARTIN RUSHTON. "Cystic conditions of the upper jaw."

July 2nd. DR. DENIS HILL. "The value of electro-encephalography in diagnosis."

### INTERNATIONAL SYMPOSIUM

Milan, December 7th and 8th, 1958.

INTERNATIONAL SYMPOSIUM ON THE MODERN TRENDS IN DIAGNOSTIC RADIOLOGY IN OTO-RHINO-LARYNGOLOGY.

This meeting will be held under the joint presidency of Professor Luigi Pietrantoni, O.R.L. Clinic, Milan University and Professor Arduino Ratti, Institute of Radiology, Milan University.

For information about this meeting write to:

Dr. Carlo Agazzi or Dr. Luigi Ferri, Clinica Otorinolaringologica dell'Università di Milano, Via Commenda 16, Milano, Italy.

## General Notes

### THE INSTITUTE OF LARYNGOLOGY AND OTOLOGY

330-332 GRAY'S INN ROAD, LONDON, W.C.1.

The Academic Board announces the following

#### SPECIAL LECTURES AND DEMONSTRATIONS

to be given at the Institute—except where otherwise stated. These are open to all members of the Speciality and to postgraduate students. No ticket of admission is required.

*Saturday, 6th December, 1958, at 11.30 a.m.*

Dr. J. A. SULLIVAN (Toronto)—“Modern temporal bone surgery”.

*Friday, 12th December, 1958, at 5.30 p.m.*

PROFESSOR W. ST. C. SYMMERS (Charing Cross Hospital Medical School)  
—“Mycotic diseases”.

---

#### PROVISIONAL LIST OF

#### SHORT COURSES FOR CONSULTANTS AND SENIOR REGISTRARS

*17th, 18th and 19th February, 1959*—Malignant diseases of the ear, nose and throat.

*20th and 21st February, 1959*—Pathology of the ear, nose and throat.

*10th, 11th and 12th March, 1959*—Diagnosis and treatment of the deaf child.

*13th and 14th March, 1959*—Modern methods of acoustic and vestibular testing.

*10th and 11th April, 1959*—Practical Aural Surgery Class.

The number of entries is limited in each course.

A detailed syllabus of any of the above can be obtained on application to the Secretary.

## POST-TONSILLECTOMY COMFORT

Immediate pain relief—Speedier Convalescence

The pain of traumatized tissues following tonsillectomy, demands its own relief—and points the need for analgesia that quickly reaches the irritated area.

ASPERGUM provides 'salivary analgesia' through the simple act of chewing—it brings pain-relieving acetylsalicylic acid into *intimate* and *prolonged* contact with the tonsillar

region, seldom reached even intermittently by gargling. The rhythmic stimulation of muscular action also aids in relieving local spasticity & stiffness; more rapid tissue repair is promoted. Each pleasantly flavoured chewing gum tablet provides  $3\frac{1}{2}$  grains acetylsalicylic acid, permitting frequent use. Particularly suitable for children.
