

INFORMATION FOR AUTHORS

The Canadian Journal of Neurological Sciences publishes original articles in neurology, neurosurgery and basic neurosciences. Manuscripts are considered for publication with the understanding that they, or the essence of their content, have not been published elsewhere except in abstract form and are not under simultaneous consideration by another journal. A cover letter that states the above must accompany the submission. Articles undergo peer review. Manuscripts should be submitted to: Douglas Zochodne, M.D., Editor, Canadian Journal of Neurological Sciences, 7015 Macleod Trail SW, Suite 709, Calgary, AB, Canada T2H 2K6

Manuscript Preparation via Regular Mail

- Submit five high quality copies of the manuscript and original illustrations. Papers will be accepted in English or French. Text should be formatted in Microsoft Word (saved as RFT files) or Quark Xpress. Manuscripts must be double spaced throughout including references, tables and legends for illustrations. Margins of at least 25mm should be left on all sides.
- After a paper has been reviewed, the author will be requested to submit four copies of the revised manuscript, including illustrations. Supply a CD containing the article *saved in an RTF format*. Identify clearly first author's name, file name, word processing program and version, and system (i.e. PC or Mac). Clearly indicate the order and importance of headings.
- For detailed instructions regarding style and layout refer to "*Uniform requirements for manuscripts submitted to biomedical journals*". Copies of this document may be obtained on the website www.icmje.org, but the main points are summarized here. Articles should be submitted under conventional headings of *introduction, methods and materials, results, discussion*, but other headings will be considered if more suitable. Clinical trials must be reported in Consort format (www.cjns.org). Pages of text should be numbered consecutively.

Manuscript Preparation via Electronic Mail

- Electronic submission is now available. Papers will be accepted in English or French. Text should be formatted in Microsoft Word (saved as RFT files) or Quark Xpress. Store illustrations as separate files - do NOT integrate them into your text. Export line drawings/vector graphics as TIF, or EPS format. Use Photoshop for processing and retouching scanned half-tone images. Save the original scan and the processed version. Export black and white or colour images as TIF or EPS format in their anticipated size in print. Do NOT send pictures embedded in a Word document.
- Papers will be accepted in English or French. Manuscripts must be double spaced throughout including references, tables and legends for illustrations. Margins of at least 25mm should be left on all sides.
- Scanned line drawings must be digitalized with a resolution of at least 800, better 1000 dpi (dots per inch) after scaling.
- Clearly label name and address of corresponding author. Set up a folder with all files and label as Journal Submission, attach and submit to address below.

- Scanned half-tone images should be digitalized with a final resolution of at least 300 dpi, a 12 bit grayscale accuracy and a density range of 2.8. Screen values must lie between 5% and 95%. Scanned color illustrations must be digitalized in RGB mode with a resolution of at least 300 dpi, a 32 bit accuracy and a density range of 2.8.

To Submit Manuscripts Electronically:

authorsubmission@cjns.org

- **A title page** should identify the title of the article which should be no more than 80 characters including spaces; name of institution(s) from which the work originated; and the name, address, telephone, and fax number of the corresponding author.
- **Abstract** Original Articles should be accompanied by an abstract of 250 words or less on a separate page, preferably in English and French, although the Journal will provide translation if required. Abstracts of original articles should consist of four paragraphs headed: *Background (or objective), Methods, Results and Conclusions*. Review articles should be accompanied by an abstract of 150 words or less.
- **Acknowledgements** including recognition of financial support should be typed on a separate page at the end of the text.
- The SI system (système international d'unités) should be used in reporting all laboratory data, even if originally reported in another system. An **Ethics approval statement** must be provided, if applicable. Temperatures are reported in degrees celsius. English language text may use either British or American spelling, but should be consistent throughout.
- **References** should be numbered in the order of their citation in the text. Those cited only in tables and legends for illustrations are numbered according to the sequence established by the first identification in the text of a particular table or illustration. Titles of journals should be abbreviated according to the style used in Index Medicus. References should list the names of up to six authors; if there are more, cite the first six, then *et al*. Provide the full title, year of publication, volume number and inclusive pagination for journal articles. For any reference cited as "in press", five copies of the article must accompany the author's manuscript. Do not reference unpublished or "submitted" papers; these can be mentioned in the body of the text and authors must provide five copies of "submitted" manuscripts. Avoid "personal communications" and, if necessary, include them in the body of the text, not among the references. Reference citations should not include unpublished presentations or other non-accessible material. Books or chapter references should also include the place of publication and the name of the publisher. Examples of correct forms of reference follow:

Journals

Rose ME, Huerbin MB, Melick J, Marion DW, Palmer AM, Schiding JK, et al. Regulation of interstitial excitatory amino acid concentrations after cortical contusion injury. *Brain Res.* 2002;935(1-2):40-6.

Chapter in a book

Meltzer PS, Kallioniemi A, Trent JM. Chromosome alterations in human solid tumors. In: Vogelstein B, Kinzler KW, editors. *The genetic basis of human cancer*. New York: McGraw-Hill; 2002. p. 93-113.

INFORMATION FOR AUTHORS

(continued)

• **Illustrations (regular mail)** Submit five original sets of illustrations. We will not return illustrations; therefore, authors should keep negatives for all photographs. Submit high quality glossy black and white photographs preferably 127 x 173 mm (5" x 7"). This includes graphs and diagrams. Do NOT send photocopies of illustrations. Original artwork and radiographs should not be submitted. The additional cost of coloured illustrations must be borne by the author; quotations are available upon request from the Journal office. Identify each figure with a label at the back indicating top, figure number and first author. Letters and arrows applied to the figures to identify particular findings should be professional appliques suitable for publication. Photomicrographs should include a calibration bar with a scale indicated on the figure or in the legend. Legends for illustrations should be typed on a separate page from the illustrations.

• **Tables** Type tables double-spaced on pages separate from the text. Provide a table number and title for each. Particular care should be taken in the preparation of tables to ensure that the data are presented clearly and concisely. Each column should have a short or abbreviated heading. Place explanatory matter in footnotes, not in the heading. Do not submit tables as photographs.

• **Review articles** on selected topics are also published. They are usually invited, but unsolicited reviews will be considered.

• **Letters to the Editor** concerning matters arising in recent articles are welcome. Letters should be limited to two double-spaced pages and may include one illustration and a maximum of four references.

• **Permissions and Releases** Any non-original material (quotations, tables, figures) must be accompanied by written permission from the author and the copyright owner to reproduce the material in the Journal. Permission must be for **print and electronic** media. Photographs of recognizable persons must be accompanied by a signed release from the legal guardian or patient authorizing publication. **Case reports** should include signed consent from the patient being reported.

• **Conflict of Interest** Authors who have non-scientific or non-academic gain whether it be financial or other from publishing their article are responsible for declaring it to the Editor. Any financial interest, research grant, material support, or consulting fee associated with the contents of the manuscript must be declared to the Editor. These guidelines apply to each author and their immediate families. Conflicts of interest are not necessarily wrong nor do they necessarily change the scientific validity of research or opinion, but the Journal and readers should be aware of the conflict. If the Editor considers the conflict to compromise the validity of the paper, it will not be accepted for publication. Authors, editorial staff and reviewers are asked to declare any relationship that would be considered as a conflict of interest whether or not they believe that a conflict actually exists. Information that the Journal receives about conflict or potential conflict will be kept confidential unless the Editor or Associate Editor considers it to be important to readers. Such conflicts will be published in the author credits or as a footnote to the paper, with knowledge of the authors.

Make a difference to your profession and become a CJNS reviewer

The Canadian Journal of Neurological Sciences (CJNS) is always looking for talented and skilled reviewers to submit timely and high quality reviews of manuscripts. Without these volunteers, the journal cannot maintain a steady stream of high quality, informational articles relevant to readers.

Reviewing for CJNS supports Canadian clinical neurosciences. Make it your top refereeing priority.

The Benefits of Becoming a Reviewer:

- An annual record of all your refereeing contributions for academic promotional purposes.
- Your name included in the "Thank you to Reviewers" list in the February issue of CJNS.
- Eligibility for the "Distinguished Reviewer of the Year" award, recognizing extensive, timely and high quality reviews.
- Reviewers who regularly contribute to the CJNS are considered for the editorial board.
- Credits towards your Maintenance of Certification.
- Serving as a CJNS reviewer supports your journal and Canadian clinical neurosciences.

Please email journal@cjns.org. Include your name, address, and area(s) of expertise and a CJNS representative will contact you.
