

Contents of No. 275, September 1966

E. A. JOBBINS, F. G. DIMES, R. A. BINNS, M. H. HEY, and S. J. B. REED: The Barwell meteorite	page 881
H. G. SCHARBERT: The alkali feldspars from microsyenitic dykes of southern Greenland	903
ROBERT C. NEWTON: BeO in pegmatitic cordierite	920
R. G. J. STRENS: Properties of the Al-Fe-Mn epidotes	928
R. PHILLIPS: Amphibole compositional space	945
A. G. FREEMAN: The dehydroxylation behaviour of amphiboles	953
ERNEST G. EHLERS: A simplified method of 2V determination using 3- and 4-axis stages	958
D. C. GELLATLY: Graphite in natural and experimental carbonate systems	963
BIBHUTI MUKHERJEE: Psilomelane from India	971
A. HALL: The feldspars of the Rosses Granite Complex, Donegal, Ireland	975
B. A. O. RANDALL and J. M. JONES: Sideronatrite from mineralized cavities in the Rising Sun colliery, Backworth, Northumberland	983
W. R. DEARMAN: Rhodonite from Meldon, Okehampton, Devonshire	991
A. J. EASTON and A. A. MOSS: The analysis of molybdates and tungstates	995
D. W. WILLIAMS: Externally-heated cold-seal pressure vessels for use to 1200°C at 1000 bars	1003
A. LIVINGSTONE and N. COGGER: A new British locality for beudantite: Sandford Hill, Somerset	1013
W. R. DEARMAN: Datolite from Meldon, Okehampton, Devonshire	1017
M. N. SAXENA: Lamellae of uncertain origin in the gem garnets from Simla village, Jhunjhunu district, Rajasthan, India	1018
U. ASWATHANARAYANA: Isotopic ages of charnockites and other Indian rocks	1020
Book reviews	1022
