

LIST OF PARTICIPANTS

- D. J. Adams, Department of Physics, University of Leicester, U.K.
- B. Agrinier, Commissariat à l'Énergie Atomique, Centre d'Études Nucléaires de Saclay, France.
- L. H. Aller, Department of Astronomy, University of California, U.S.A.
- B. Anderson, Nuffield Radio Astronomy Laboratories, University of Manchester, U.K.
- J. R. P. Angel, Department of Astronomy, University of Columbia, New York, U.S.A.
- W. D. Arnett, Institute of Theoretical Astronomy, Cambridge, U.K.
- J. E. Baldwin, Cavendish Laboratory, University of Cambridge, U.K.
- R. A. Batchelor, Research Laboratory of Electronics, MIT, Massachusetts, U.S.A.
- J. Bergeron, Institut d'Astrophysique, Paris, France.
- S. van den Bergh, David Dunlap Observatory, Ontario, Canada.
- B. M. Bland, Department of Mathematics, University of Manchester, U.K.
- N. Bonazzola, Observatoire de Paris, Section d'Astrophysique, France.
- R. S. Booth, Nuffield Radio Astronomy Laboratories, University of Manchester, U.K.
- G. Börner, Max Planck Institut für Physik und Astrophysik, Munich, Germany.
- R. N. Bracewell, Radio Astronomy Institute, Stanford University, California, U.S.A.
- N. J. B. A. Branson, Cavendish Laboratory, University of Cambridge, U.K.
- J. W. Buckee, Department of Theoretical Physics, University of Oxford, U.K.
- A. G. W. Cameron, Belfer Graduate School of Science, University of Yeshiva, New York, U.S.A.
- V. Canuto, Goddard Institute for Space Studies, Maryland, U.S.A.
- A. G. Cavalieri, Centre for Space Research, Cambridge, U.S.A.
- G. Chanmugam, Institut d'Astrophysique, University de Liège, Belgium.
- W. N. Charman, Nuclear Physics Division, Atomic Energy Research Establishment, Harwell, U.K.
- H. Y. Chiu, Goddard Institute for Space Studies, Maryland, U.S.A.
- W. N. Christiansen, School of Electrical Engineering, University of Sydney, Australia.
- R. W. Clarke, Nuffield Radio Astronomy Laboratories, University of Manchester, U.K.
- W. J. Cocke, Steward Observatory, University of Arizona, U.S.A.
- J. M. Cohen, School of Natural Sciences, The Institute of Advanced Study, Princeton, U.S.A.
- R. G. Conway, Nuffield Radio Astronomy Laboratories, University of Manchester, U.K.

- B. A. Cooke, Department of Physics, University of Leicester, U.K.
- A. M. Cruise, Mullard Space Science Laboratory, Department of Physics, University of London, U.K.
- E. J. Daintree, Nuffield Astronomy Radio Laboratories, University of Manchester, U.K.
- J. G. Davies, Nuffield Radio Astronomy Laboratories, University of Manchester, U.K.
- R. D. Davies, Nuffield Radio Astronomy Laboratories, University of Manchester, U.K.
- L. Davis, Jr., Department of Physics, California Institute of Technology, Pasadena, U.S.A.
- F. D. Drake, Department of Astronomy, Cornell University, Ithaca, U.S.A.
- R. W. P. Drever, Department of Natural Philosophy, University of Glasgow, U.K.
- R. Ekers, California Institute of Technology, Pasadena, U.S.A.
- A. Evans, Department of Physics, University of Wales, Aberystwyth, U.K.
- A. C. Fabian, Mullard Space Science Laboratory, Department of Physics, University of London, U.K.
- D. F. Falla, Department of Physics, University of Wales, Aberystwyth, U.K.
- G. G. Fazio, Smithsonian Institution, Astrophysical Observatory, Cambridge, U.S.A.
- P. A. Feldman, Queen's University, Ontario, Canada.
- J. E. Felten, Institute of Theoretical Astronomy, Cambridge, U.K.
- F. E. Ferrari, Consiglio Nazionale delle Richersche, Laboratorio di Cosmo-Geofisica, Torino, Italy.
- B. Fitton, European Space Research Organization, Neuilly-sur-Seine, France.
- R. A. E. Fosbury, Royal Greenwich Observatory, Herstmonceux, U.K.
- P. R. Foster, Department of Natural Philosophy, University of Aberdeen, U.K.
- W. A. Fowler, California Institute of Technology, Pasadena, U.S.A.
- J. A. Galt, Dominion Radio Astrophysical Observatory, Penticton, Canada.
- K. Gebler, Max-Planck-Institut für Radioastronomie, Bonn, Germany.
- J. Gower, Department of Physics, University of British Columbia, Canada.
- R. Griffiths, Department of Physics, University of Leicester, U.K.
- J. E. Grindlay, Harvard College Observatory, Cambridge, U.S.A.
- S. Grounds, Department of Theoretical Physics, University of Oxford, U.K.
- D. ter Haar, Department of Theoretical Physics, University of Oxford, U.K.
- O. Hachenberg, Radiosternwarte, Bonn, Germany.
- J. P. Hagen, Pennsylvania State University, U.S.A.
- C. G. Haslam, Nuffield Radio Astronomy Laboratories, University of Manchester, U.K.
- D. J. Hegyi, NASA Institute for Space Studies, New York, U.S.A.
- C. Heiles, Arecibo Ionospheric Observatory, Puerto Rico.
- J. Heise, Space Research Laboratory, The Astronomical Institute at Utrecht, The Netherlands.
- H. F. Helmken, Astrophysical Observatory, Cambridge, U.S.A.

- H. Hesse, Department of Physics, Cambridge, U.K.
J. Heyvaerts, Institut d'Astrophysique, Paris, France.
A. M. Hillas, Department of Physics, University of Leeds, U.K.
R. R. Hillier, H. H. Wills Physics Laboratory, University of Bristol, U.K.
R. Hills, Astronomy Department and Radio Astronomy Laboratory, University of California, Berkeley, U.S.A.
P. Horowitz, Harvard University, Cambridge, U.S.A.
H. Hudson, University of California, San Diego, U.S.A.
V. A. Hughes, Queens University, Ontario, Canada.
R. A. James, Department of Astronomy, University of Manchester, U.K.
J. V. Jelley, Nuclear Physics Division, Atomic Energy Research, Harwell, U.K.
D. M. Jennings, Physics Department, University College, Dublin, Eire.
R. C. Jennison, Electronics Laboratory, University of Kent, U.K.
P. Kafka, Max Planck Institut für Physik und Astrophysik, Munich, Germany.
F. D. Kahn, Department of Astronomy, University of Manchester, U.K.
S. Karakula, Department of Physics, University of Durham, U.K.
E. M. Kellogg, American Science & Engineering, Massachusetts, U.S.A.
M. M. Komesaroff, CSIRO, Division of Radiophysics, N.S.W., Australia.
Z. Kopal, Department of Astronomy, University of Manchester, U.K.
J. Kristian, California Institute of Technology, Pasadena, U.S.A.
P. P. Kronberg, Department of Astronomy, University of Toronto, Canada.
F. K. Lamb, Department of Theoretical Physics, University of Oxford, U.K.
J. D. Landstreet, University of Columbia, New York, U.S.A.
M. I. Large, Nuffield Radio Astronomy Laboratories, University of Manchester, U.K.
J. P. Leray, Service d'Electronique Physique, C.E.A., France.
I. Lerche, Laboratory for Astrophysics & Space Research, University of Chicago, U.S.A.
B. M. Lewis, Nuffield Radio Astronomy Laboratories, University of Manchester, U.K.
J. L. Locke, Radio Astronomy Section, National Research Council, Ontario, Canada.
A. C. B. Lovell, Nuffield Radio Astronomy Laboratories, University of Manchester, U.K.
A. G. Lyne, Nuffield Radio Astronomy Laboratories, University of Manchester, U.K.
V. Malumyan, Biurakan Observatory, Armenia, U.S.S.R.
R. N. Manchester, National Radio Astronomy Observatory, Virginia, U.S.A.
P. G. Martin, Department of Theoretical Physics, Cambridge, U.K.
D. N. Matheson, Electronics Laboratory, University of Kent, U.K.
W. B. McAdam, National Radio Astronomy Observatory Virginia, U.S.A.
M. R. McNaughton, Laboratory for Astrophysics & Space Research, University of Chicago, U.S.A.
J. Meaburn, Department of Astronomy, University of Manchester, U.K.
L. Mestel, Department of Mathematics, University of Manchester, U.K.
F. C. Michel, Institute of Theoretical Astronomy, Cambridge, U.K.
R. Minkowski, University of California, Berkeley, U.S.A.

- A. T. Moffet, California Institute of Technology, Pasadena, U.S.A.
- I. Morison, Nuffield Radio Astronomy Laboratories, University of Manchester, U.K.
- J. E. Nelson, Lawrence Radiation Laboratory, University of California, Berkeley, U.S.A.
- G. Neugebauer, Physics Department, California Institute of Technology, Pasadena, U.S.A.
- P. S. Nicholson, Electronics Laboratory, University of Kent, U.K.
- E. O'Mongain, Physics Department, University College, Dublin, Eire.
- J. L. Osborne, Department of Physics, University of Durham, U.K.
- J. P. Ostriker, Princeton University Observatory, New Jersey, U.S.A.
- F. Pacini, Laboratorio Astrofisica, CP 67, Frascati (Rome), Italy.
- C. G. Page, Cavendish Laboratory, University of Cambridge, U.K.
- H. P. Palmer, Nuffield Radio Astronomy Laboratories, University of Manchester, U.K.
- C. Papaliolios, Smithsonian Astrophysical Observatory and Harvard University, Cambridge, U.S.A.
- J. C. B. Papaloizou, Astronomy Centre, University of Sussex, U.K.
- R. B. Partridge, Princeton University, U.S.A.
- A. Penny, Royal Greenwich Observatory, Herstmonceux, U.K.
- G. H. Pettengill, Cornell University and Arecibo Observatory, Puerto Rico.
- K. Pinkau, Max-Planck-Institut for extraterrestrische Physik, Munich, Germany.
- L. Pointon, Nuffield Radio Astronomy Laboratories, University of Manchester, U.K.
- J. E. B. Ponsonby, Nuffield Radio Astronomy Laboratories, University of Manchester, U.K.
- N. A. Porter, Physics Department, University College, Dublin, Eire.
- R. A. Porter, Nuffield Radio Astronomy Laboratories, University of Manchester, U.K.
- K. A. Pounds, Department of Physics, University of Leicester, U.K.
- V. Radhakrishnan, CSIRO Division of Radiophysics, N.S.W., Australia.
- J. M. Rankin, Arecibo Observatory, Puerto Rico.
- S. Rappaport, Department of Physics, Massachusetts Institute of Technology, U.S.A.
- M. J. Rees, Institute for Theoretical Astronomy, Cambridge, U.K.
- D. W. Richards, Arecibo Observatory, Puerto Rico.
- F. E. Roach, National Bureau of Standards, Boulder, Colorado, U.S.A.
- J. A. Roberts, Arecibo Observatory, Puerto Rico.
- B. Rowson, Nuffield Radio Astronomy Laboratories, University of Manchester, U.K.
- J. R. Ruffini, Institute for Advance Study, School of Natural Sciences, Princeton, U.S.A.
- C. Ryter, Service d'Electronique Physique, CEA, France.
- P. Sandford, Mullard Space Science Laboratory, University College, London, U.K.
- L. Sartori, Department of Physics, Massachusetts Institute of Technology, U.S.A.
- U. Schwartz, Kapteyn Laboratorium, The Netherlands.
- D. W. Sciama, Department of Theoretical Physics, Cambridge, U.K.
- E. R. Seaquist, Department of Astronomy, University of Toronto, Canada.

- G. Share, Naval Research Laboratories, Washington, U.S.A.
S. F. Smerd, CSIRO, Division of Radiophysics, N.S.W., Australia.
D. F. Smith, Stanford University, California, U.S.A.
F. G. Smith, Nuffield Radio Astronomy Laboratories, University of Manchester, U.K.
R. E. Spencer, Nuffield Radio Astronomy Laboratories, University of Manchester, U.K.
D. H. Staelin, Department of Physics, Massachusetts Institute of Technology, U.S.A.
G. J. Stanley, California Institute of Technology, Pasadena, U.S.A.
P. Stewart, Department of Mathematics, University of Manchester, U.K.
J. M. Sutton, Institute of Theoretical Astronomy, Cambridge, U.K.
G. Swarup, Tata Institute of Fundamental Research, Bombay, India.
R. M. Tennant, Department of Physics, University of Leeds, U.K.
P. Thomasson, Nuffield Radio Astronomy Laboratories, University of Manchester, U.K.
A. Treves, Department of Applied Mathematics and Theoretical Physics, Cambridge, U.K.
V. Trimble, Institute of Theoretical Astronomy, Cambridge, U.K.
K. P. Tritton, Royal Greenwich Observatory, Herstmonceux, U.K.
J. Truemper, Max-Planck-Institut für extraterrestrische Physik, Munich, Germany.
S. Tsuruta, National Aeronautics & Space Administration, Goddard Space Centre, Maryland, U.S.A.
W. H. Tucker, American Science & Engineering, Massachusetts, U.S.A.
A. J. Turtle, School of Physics, University of Sydney, Australia.
N. Visvanathan, Harvard College Observatory, Massachusetts, U.S.A.
T. Walraven, University Observatory, Leiden, The Netherlands.
B. Warner, Radcliffe Observatory, S. Africa.
L. Webster, Royal Greenwich Observatory, Herstmonceux, U.K.
R. J. Weymann, Astronomy Department, University of Arizona, U.S.A.
C. H. Whitford, Department of Physics, University of Leicester, U.K.
J. P. Wild, CSIRO Division of Radiophysics, N.S.W., Australia.
R. Wielebinski, Max-Planck-Institut für Radioastronomie, Bonn, Germany.
D. T. Wilkinson, Physics Department, Princeton University, U.S.A.
R. V. Willstrop, University Observatories, Cambridge, U.K.
A. S. Wilson, Cavendish Laboratory, University of Cambridge, U.K.
J. G. Wilson, Department of Physics, University of Leeds, U.K.
M. M. Winn, Department of Physics, University of Leeds, U.K.
L. Wolter, Department of Astronomy, Columbia University, New York, U.S.A.
W. W. Zuzak, Astronomy Department, University of Manchester, U.K.
