CONTENTS

PAGE

Babbage, D. W. A symmetrical configuration of $n+1$ rational normal curves in $[2n]$ 293

Baber, T. D. and **Hassé, H. R.** A comparison of wave functions for the normal helium atom 253

Baker, H. F. The envelope of the subspaces of the polyhedra of an involution on a rational curve 183

Band, W. A critical examination of Benedicks' homogeneous electrothermal effect 385

Bartlett, M. S. Note on the derivation of fluctuation formulae for statistical assemblies 390

Binnie, A. M. and **Poole, E. G. C.** The theory of the single-pass cross-flow heat interchanger 403

Blackman, M. Some properties of the vibrational spectrum of a lattice . . 94

—— The effect of temperature on the reflexion of X-rays 380

Bosworth, R. C. L. A study of the properties of hydrogen films on tungsten by the method of contact potentials 394

Bower, J. C. and **Petrie, D. P. R.** The radioactivity produced by the bombardment of lithium with deuterons 534

Broch, E. K. The spectrum of the normal frequencies of a polar linear lattice . 485

Burnett, D. The numerical calculation of $\int_0^\infty x^m e^{-x} f(x)\,dx$ 359

—— The determination of intermolecular forces in gases from their viscosity . . 363

Chang, T. S. Specific heats of solids due to molecular rotations 524

Coulson, C. A. The evaluation of certain integrals occurring in studies of molecular structure 104

—— A note on the criterion of maximum overlapping of wave functions . . 111

Coxeter, H. S. M. Abstract definitions for the symmetry groups of the regular polytopes, in terms of two generators. Part II: the rotation groups . . 315

Davies, W. T. and **O'Ceallaigh, C.** The application of the electron lens to cloud chamber photography 540

Daymond, S. D. and **Rosenhead, L.** The lateral force on a keel and rudder . 62

Devons, S. and **Neary, G. J.** The β- and γ-radiation of RaC'' 154

Devonshire, A. F. A note on molecular orbitals 250

https://doi.org/10.1017/S0305004100077537 Published online by Cambridge University Press

PAGE

Easthope, C. E. The dependence on composition of the critical ordering temperature in alloys 502

Erdös, P. On the easier Waring problem for powers of primes. I. 6

Frame, J. W. On the excitation of a lithium atom by collision with a slow α-particle 115

Gillis, J. Note on a theorem of Myrberg 419

Goldstein, S. The stability of viscous fluid flow between rotating cylinders . 41

Green, A. E. The elastic stability of a corrugated plate under a shearing force . 459

Hardy, G. H. On a theorem of Paley and Wiener 1

Hartree, D. R. On an equation occurring in Falkner and Skan's approximate treatment of the equations of the boundary layer 223

—— and **Swirles, B.** The effect of configuration interaction on the low terms of the spectra of oxygen 240

Hassé, H. R. and **Baber, T. D.** A comparison of wave functions for the normal helium atom 253

Heilbronn, H. A. On an inequality in the elementary theory of numbers . . 207

Hirschlaff, E. The optical reflectivity of metals in the supraconducting state . 140

Hoyle, F. The generalised Fermi interaction 277

Infeld, L. A new group of action functions in the unitary field theory. II. . . 70

Jeffreys, H. The comparison of series of measures 35

—— On the smoothing of observed data 444

Kaufmann, B. On the extension of the Pflastersatz (Part II) 13

Lacher, J. R. The statistics of the hydrogen-palladium system 518

Larmor, J. On temperature in relation to quantal phenomena 340

Leggett, D. M. A. The effect of two isolated forces on the elastic stability of a flat rectangular plate 325

Lewis, W. B. A "scale-of-two" high-speed counter using hard vacuum triodes . 549

Li, K. T. The structure of a β-ray line by semicircular magnetic focusing . . 164

Maxwell, E. A. On the theorem of Riemann-Roch 26

—— On certain surfaces which have unpostulated singularities 199

—— Regular canonical surfaces of genus three and four 306

—— and **Todd, J. A.** Note on the invariants of the canonical system of an algebraic variety 438

Milner, C. J. On the magneto-resistance effect in single crystals of cadmium . . 145

https://doi.org/10.1017/S0305004100077537 Published online by Cambridge University Press

PAGE

Misener, A. D. The "overshoot phenomenon" in superconductivity . . . 583

Morris, R. M. Two-dimensional potential problems 474

Neary, G. J. and **Devons, S.** The β- and γ-radiation of RaC'' 154

O'Ceallaigh, C. and **Davies, W. T.** The application of the electron lens to cloud chamber photography 540

Pedoe, D. On the canonical systems of certain algebraic surfaces 311

Petrie, D. P. R. and **Bower, J. C.** The radioactivity produced by the bombardment of lithium with deuterons 534

Pitman, E. J. G. The "closest" estimates of statistical parameters 212

Plancherel, M. Quelques remarques à propos d'une note de G. H. Hardy: the resultant of two Fourier kernels 413

Poole, E. G. C. and **Binnie, A. M.** The theory of the single-pass cross-flow heat interchanger 403

Rao, N. A. On certain Cremona transformations in circle-space connected with the Miquel-Clifford configuration 21

Rosenhead, L. and **Daymond, S. D.** The lateral force on a keel and rudder . 62

Roth, L. Projective characters and invariants of algebraic varieties 188

—— The postulation of a multiple surface 301

Rowland, E. N. The theory of the shot effect. II. 344

Shoenberg, D. Superconducting cylinders 260

—— Superconductors in alternating magnetic fields 559

—— An A.C. method of measuring resistance 577

Swirles, B. and **Hartree, D. R.** The effect of configuration interaction on the low terms of the spectra of oxygen 240

Todd, J. A. Intersections of loci on an algebraic V_4 425

—— and **Maxwell, E. A.** Note on the invariants of the canonical system of an algebraic variety 438

Varma, R. S. An infinite integral involving Bessel functions and parabolic cylinder functions 210

Weiss, P. Born's electrodynamics in complex form 79

Westcott, C. H. Some calculations on the diffusion of slow neutrons in hydrogenous media 122

—— A note on the absorbability in cadmium of neutrons slowed down in water and boric acid solutions 137

Whittaker, J. M. The shot effect for showers 451

https://doi.org/10.1017/S0305004100077537 Published online by Cambridge University Press
