
THE ROYAL INSTITUTE OF NAVIGATION

Aims and Objects

The objects of the Institute are to unite in one body those who are concerned with or who are interested in navigation and to further its development. Navigation is conceived as applying to locomotion of all kinds and is perceived as encompassing aspects of: command and control, psychology and zoology, operational research, risk analysis, theoretical physics, operation in hostile environments, instrumentation, ergonomics, financial planning and law as well as electronics, astronomy, mathematics, cartography and other subjects traditionally associated with navigation.

The aims of the Institute are to encourage the creation and dissemination of knowledge through research and development, to co-ordinate information from all the disciplines involved, to provide a forum in which new ideas and new products can have the benefit of informed and professional scrutiny and to further education and communication. The Institute initiates conferences and symposia on specific subjects and has a programme of meetings at which lectures are given and discussed. There are standing Special Interest Groups (SIGs), which keep under constant review pertinent aspects of navigation. The success of these Special Interest Groups is crucially dependent on the active involvement of members.

The SIGs include: Land Navigation and Location Group (LN&L), General Aviation Navigation Group (GANG), History of Air Navigation Group (HANG), Civil and Military Air Group (CMAG), Marine Traffic & Navigation Group (MT&NG), Small Craft Group (SCG), Space Group (Space), Animal Navigation Group (ANG) and Research & Development Group (R&D).

The Institute publishes *The Journal of Navigation* six times a year. It contains papers which have been presented at meetings, other original papers and selected papers and reports from Special Interest Groups. The Institute also publishes *Navigation News* six times a year which contains a full account of the Institute's proceedings and activities. This includes Branch News, a record of current navigational work, a diary of events, topical articles, news about Membership and advertising. A great deal of the Institute's work is international in character and is coordinated with that of similar organisations in other countries.

Membership

There are nine classes of membership under which individuals or organisations may apply to join the Institute. Details of the various membership criteria and current subscriptions are available on the RIN website (Home / Join the RIN / Membership Types <http://www.rin.org.uk/general.aspx?ID=59>) and from the Membership Secretary (membership@rin.org.uk Tel: +44(0)20 7591 3130 Fax: 44(0)20 7591 3131).

- (1) Ordinary Membership
- (2) Associate Membership
- (3) Associate Fellow Membership
- (4) Student Membership
- (5) Junior Associate Membership
- (6) Corporate Membership
- (7) Small Business Membership
- (8) Affiliate College University Membership
- (9) Affiliate Club Membership

Additional membership classes of Fellowship, Honorary Fellowship, Retired Membership and Affiliate Membership also exist and details are available from the Membership Secretary.

The subscription price (excluding VAT) to *The Journal* (ISSN 0373-4633) for Volume 68, 2015, which includes print and electronic access, is £523 (USA, Canada and Mexico US \$945) and includes delivery by air; single parts are available at £141 (USA, Canada and Mexico US \$250) plus postage. The electronic-only price available to institutional subscribers is £405 (USA, Canada and Mexico US \$739). EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country's rate. VAT registered subscribers should provide their VAT registration number. *The Journal* is issued free to all Members of the Institute. Orders, which must be accompanied by payment, may be sent to any bookseller or subscription agent or direct to the publishers: Cambridge University Press, UPH, Shaftesbury Road, Cambridge CB2 8BS, or in the USA, Canada and Mexico to Cambridge University Press, Journals Fulfillment Department, 100 Brook Hill Drive, West Nyack, New York 10994-2133. Japanese prices for institutions are available from Kinokuniya Company Ltd, P.O. Box 55, Chitose, Tokyo 156, Japan.

THE JOURNAL OF NAVIGATION

VOLUME 68 NUMBER 3 MAY 2015

CONTENTS

- Smartphone Shadow Matching for Better Cross-street GNSS Positioning in Urban Environments** 411
Lei Wang, Paul D. Groves and Marek K. Ziebart
- Fusing Stereo Camera and Low-Cost Inertial Measurement Unit for Autonomous Navigation in a Tightly-Coupled Approach** 434
Zhiwen Xian, Xiaoping Hu and Junxiang Lian
- Research on Wearable, Immersive Augmented Reality (WIAR) Adoption in Maritime Navigation** 453
Martha Grabowski
- A new Bayesian RAIM for Multiple Faults Detection and Exclusion in GNSS** 465
Qianqian Zhang and Qingming Gui
- Precise Point Positioning using Triple-Frequency GPS Measurements** 480
Mohamed Elsobeiey
- Moving Horizon Estimation for Cooperative Localisation with Communication Delay** 493
Wei Gao, Jian Yang, Ju Liu, Hongyang Shi and Bo Xu
- Spacecraft Autonomous GPS Navigation based on Polytopic Linear Differential Inclusion** 511
Zhen Chen, Jialin Li and Xiangdong Liu
- Unscented Kalman Filtering for Relative Spacecraft Attitude and Position Estimation** 528
Lijun Zhang, Tong Li, Huabo Yang, Shifeng Zhang, Hong Cai and Shan Qian
- Singular Value Decomposition-based Robust Cubature Kalman Filtering for an Integrated GPS/SINS Navigation System** 549
Qizhao Zhang, Xiaolin Meng, Shubi Zhang and Yunjia Wang
- Prediction of Length-of-day Using Gaussian Process Regression** 563
Yu Lei, Min Guo, Hongbing Cai, Dandan Hu and Danning Zhao
- Assessing the Safety Factors of Ship Berthing Operations** 576
Wen-Kai Kevin Hsu
- Research of Vessel Traffic Safety in Ship Routeing Precautionary Areas Based on Navigational Traffic Conflict Technique** 589
Song Li, Jianghua Zhou and Yuanqiang Zhang
- Ship Collision Frequency Estimation in Port Fairways: A Case Study** 602
Jinxian Weng and Shan Xue
- FORUM**
- Will Cost-Effectiveness Decisions Determine Future 4D Air Traffic Management Concepts?** 619
Peter Brooker
