THE SOVIET SYSTEM OF GOVERNMENT

by **JOHN N. HAZARD**

Professor of Law, Columbia University

The method by which the Communist party keeps its dominant position in Russia is explained in this up-to-date account of Communist government in the U.S.S.R. Examining all available documents, statistics, and refugee reports, John N. Hazard analyzes the propaganda appeals and controls of the Soviet system and compares them with the democratic institutions and procedures of Western states. Professor Hazard finds that the shrewd leaders of the Communist party have developed a workable kind of two-faced government that pretends to give the Russian people more and more freedom but in reality does the opposite.

Announcing the Republication of a Great Work

HISTORY OF UKRAINE-RUS

by **M. HRUSHEVSKY**

In ten big volumes (more than 7,000 pages), the outstanding Ukrainian scientist-historian Professor Mychajlo Hrushevsky presents the history of the Ukrainian people from prehistoric times to the end of the seventeenth century.

This profoundly scientific work of history of the Ukrainian freedom-loving people became a great obstacle in the way of the Communist rulers in their national policies toward the Ukraine. The Communists not only banned this work from official use, therefore, but also ordered its complete exclusion from libraries and finally its destruction.

The Knyho-Spilka Publishing Company in New York has undertaken to reprint this great historical work. Eight volumes have already been released. The ninth volume (in two books) and the tenth will be issued during 1957.

The work is written in Ukrainian.

Handsome and durable cloth binding, of high-quality paper, attractive and readable format, trim size 6 by 9 $\frac{1}{4}$ inches, 10 volumes (11 books).

The first 8 volumes are now available at a price of \$7.50 per volume. The complete set sells for \$82.50. Order directly from
