# **Change and Bureaucracy**

*Public Administration in Venezuela*

by BILL STEWART

A timely work for Latin Americanists and those who seek to understand the factors that aid and hinder development. Stewart explains the nature of Venezuelan public administration and analyzes the problems it faces in the decade ahead. He focuses on change in society and in individual lives as he assesses the desirability and likelihood of reform.

# Texas on Economic Dependence

## **Foreign Policy and Economic Dependence**

By Neil R. Richardson

Neil R. Richardson adopts a political economy perspective to examine the foreign policy repercussions of international economic dependence. He analyzes the actual foreign policy behavior of a number of Latin American and Caribbean countries, with results that suggest that dependent countries do not always acquiesce to the industrial giants on which they rely for foreign trade, investment, and aid revenues. This rigorous investigation employs ideas from both "interdependence" and *dependencia* scholarship. 200 pages, \$12.95

## **Mexico and the United States in the Oil Controversy, 1917–1942**

By Lorenzo Meyer

Translated by Muriel Vasconcellos

"Meyer presents a clear and detailed description of this complex topic. . . . It will be a valuable addition for serious scholars involved in the study of 20th-century Mexico or the problems relating to multinational corporations and their operations in developing countries." —*Choice*

## **Border Boom Town**

*Ciudad Juárez since 1848*

By Oscar J. Martínez

*Border Boom Town* traces the social and economic evolution of Ciudad Juárez, the largest city on the U.S.-Mexican border and one of the fastest-growing urban centers in the world. The author discusses the interdependence of Juárez and El Paso, the effects of the waves of Mexicans who migrate through the city en route to the United States each year, and efforts to integrate the northern Mexican frontier into the national economy.

## Pernambuco in the Brazilian Federation, 1889–1937

*Robert M. Levine.* The second volume in a series on Brazilian regionalism, this work focuses on the most important state in Brazil's impoverished northeastern sector. It provides a stark case study of a once-important state in political, social, and economic decline—a result of competition from foreign sugar growers, a shift of economic activity southward, and the resistance of the elite to political and economic reforms. \$17.50

**CONTEMPORARY VENEZUELA AND ITS ROLE  
IN INTERNATIONAL AFFAIRS**

Edited by **ROBERT D. BOND**

Here is the first systematic examination of contemporary Venezuela and its role as an emerging "middle power" in international affairs. It not only looks at Venezuela's foreign policy goals and actions—its key role in OPEC and its leading participation in the North-South dialogue—but relates these to domestic political and economic concerns as well.

**ORGANIZED LABOR IN LATIN AMERICA**

**Historical Case Studies of Workers in Dependent Societies**

By **HOBART A. SPALDING, JR.**

Using historical case studies to examine organized labor movements in Latin America from 1850 to 1960, Spalding shows convincingly why organized labor has not been a major revolutionary force within Latin American society. He documents the continuous struggles of the working people to better their lives in the most up-to-date and comprehensive historical study of Latin American labor now available.
