JOURNAL OF DAIRY RESEARCH

Editor: W. MANSON, Hannah Research Institute, Ayr KA6 5HL, UK

Assistant Editors: B. F. BONE, MARY C. A. GRIFFIN, C. J. WILDE

Editorial Assistants: DOROTHY SKIDMORE, B. GILLIAN DAY

Secretary: L. C. FITZGERALD

The Journal was established in 1929 as a medium for the publication of the results of original research in dairy science and cognate subjects. It is published by the Cambridge University Press.

The subscription to volume 56, 1989, of the *Journal of Dairy Research* (ISSN 0022-0299) is £105.00 UK, £110.00 elsewhere (USA and Canada US \$226.00) for a volume of four parts published quarterly in February, May, August and November plus a special casein supplement. Single copies may be purchased at £27.00 net (USA and Canada US \$62.00) each, plus postage. Orders, which must be accompanied by payment, may be sent to any bookseller or to Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 2RU. Subscribers in the USA or Canada should send their orders to Cambridge University Press, 32 East 57th Street, New York, NY 10022. Second class postage paid at New York, NY and at additional mailing offices. POSTMASTER: send address changes in USA and Canada to *Journal of Dairy Research*, Cambridge University Press, 110 Midland Avenue, Port Chester, New York, NY 10573.

© Proprietors of *Journal of Dairy Research* 1989

Copying. This journal is registered with the Copyright Clearance Center, 27 Congress Street, Salem, MA 01970. Organizations in the USA who are also registered with CCC may therefore copy material (beyond the limits permitted by sections 107 and 108 of US Copyright law) subject to payment to CCC of the per-copy fee of \$5.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0022-0299/89 \$5.00 + .00.

ISI Tear Sheet Service, 3501 Market Street, Philadelphia, PA 19104, USA, is authorized to supply single copies of separate articles for private use only.

For all other use, permission should be sought from Cambridge or the American Branch of Cambridge University Press.

Back Volumes. Enquiries about the price and availability of back volumes should be sent to the publishers.

Claims for the replacement of journals believed to have been lost in transmission will only be entertained if made immediately upon receipt of the subsequent issue.

PROCEEDINGS OF THE
HANNAH RESEARCH INSTITUTE
CASEIN CONFERENCE

HANNAH RESEARCH INSTITUTE
AYR KA6 5HL, SCOTLAND
24–26 MAY 1988

Contents

PAGE

Preface	iii
Action of plasmin on bovine β -casein in a membrane reactor. S. VISSER, H. J. NOORMAN, C. J. SLANGEN and H. S. ROLLEMA	323
Tryptic phosphopeptides from whole casein. II. Physicochemical properties related to the solubilization of calcium. R. BERROCAL, S. CHANTON, M. A. JUILLERAT, B. PAVILLARD, J-C. SCHERZ and R. JOST	335
Chemical characterization of bioactive peptides from <i>in vivo</i> digests of casein. H. MEISEL and H. FRISTER	343
Biologically active peptides of casein and lactotransferrin implicated in platelet function. A-M. FIAT, S. LEVY-TOLEDANO, J. P. CAEN and P. JOLLÈS	351
Biologically active casein peptides implicated in immunomodulation. D. MIGLIORE-SAMOUR, F. FLOC'H and P. JOLLÈS	357
Opioid antagonist peptides derived from κ -casein. H. CHIBA, F. TANI and M. YOSHIKAWA	363
Isolation and partial purification of astringent compounds from ultra-high temperature sterilized milk. V. R. HARWALKER, B. BOUTIN-MUMA, H. CHOLETTE, R. C. MCKELLAR, D. B. EMMONS and G. KLASSEN	367
The level of bitterness and solubility of hydrolysates produced by controlled proteolysis of caseins. G. E. VEGARUD and T. LANGSRUD	375
Enzymic dephosphorylation of bovine casein to improve acid clotting properties and digestibility for infant formula. E. LI-CHAN and S. NAKAI	381
Rapid separation of bovine caseins by mass ion exchange chromatography. K. F. NG-KWAI-HANG and J. P. PÉLISSIER	391
Phosphorylation of casein components by Tyrosine-specific protein kinases. M. YOSHIKAWA, M. SHIMADA, T. MIYAMURA, T. TAKEYA and H. CHIBA	399
Study of calcium binding to phosphoserine residues of β -casein and its phosphopeptide (1-25) by ^{31}P NMR. J-J. BAUMY, P. GUENOT, S. SINBANDHIT and G. BRULÉ	403
Composition and structure of micellar calcium phosphate. C. HOLT, M. J. J. M. VAN KEMENADE, L. S. NELSON JR., L. SAWYER, J. E. HARRIES, R. T. BAILEY and D. W. L. HUKINS	411
A ^1H -NMR study of bovine casein micelles; influence of pH, temperature and calcium ions on micellar structure. H. S. ROLLEMA and J. A. BRINKHUIS	417

Hydrophobic interactions in human casein micelle formation: β -casein aggregation. C. W. SLATTERY, S. M. SOOD, P. CHANG	427
Dissociation and reassociation of enzyme-treated caseins under high pressure. K. OHMIYA, T. KAJINO, S. SHIMIZU and K. GEKKO.	435
Small-angle X-ray scattering investigation of the micellar and submicellar forms of bovine casein. H. PESSEN, T. F. KUMOSINSKI and H. M. FARRELL JR	443
A model for the assembly of bovine casein micelles from F2 and F3 subunits. T. ONO and T. OBATA	453
The structure of casein micelles between pH 5.5 and 6.7 as determined by light-scattering, electron microscopy and voluminosity experiments. H. J. VREEMAN, B. W. VAN MARKWIJK and P. BOTH	463
Surface and emulsifying properties of caseins. E. DICKINSON	471
Influence of glycosylation on the hydration properties of caseinates. M. LE MESTE, B. COLAS, G. BLOND and D. SIMATOS	479
Surface active properties at the air-water interface of β -casein and its fragments derived by plasmin proteolysis. M. WILSON, D. M. MULVIHILL, W. J. DONNELLY and B. P. GILL	487
Surface properties of the bovine casein components: relationships between structure and foaming properties. D. LORIENT, B. CLOSS and J. L. COURTHAUDON	495
Heat-induced changes in sodium caseinate. M. GUO, P. F. FOX, A. FLYNN and K. S. MAHAMMAD	503
Experiments on the heat-induced salt balance changes in cow's milk. Y. POULIOT, M. BOULET and P. PAQUIN	513
Milk stability in ethanolic solutions. A. PIERRE	521
Rheological properties of casein gels. T. VAN VILET, S. P. F. M. ROEFS, P. ZOON and P. WALSTRA	529
Application of fractal concepts to the study of caseinate aggregation phenomena. D. S. HORNE	535
Poster Presentation	543
List of participants	557
