

## INDEX OF AUTHORS.

	PAGE
ADEANE, C. R. W. and GASKELL, J. F. A Segregation Method for eliminating Tuberculosis from Cattle . . . . .	248
ASSIS, A. DE. On <i>Proteus pseudovaleriae</i> and its Occurrence in Man . . . . .	108
BAKER, JOHN R. The Influence of High Temperatures on the Testis . . . . .	183
BAMFORTH, J. An investigation of the bacilli of the capsulatus-mucosus group . . . . .	343
CHALMERS, C. H. A Study of Coliform Organisms in samples of "Certified Milk" . . . . .	295
CRUICKSHANK, ROBERT. The Weil-Felix Reaction in Typhus Fever. (With 1 Chart)	64
DUDGEON, LEONARD S. and SIMPSON, J. W. HOPE. On the Differentiation of the Staphylococci, with Special reference to the Precipitin Reactions . . . . .	160
DUNDAS, J. M. <i>See</i> ORR.	
ECKER, E. E. and RIMINGTON, C. A Preliminary Study of the Chemical Nature of the Toxic Substances produced by the Salmonella Group of Organisms . . . . .	44
FORBES, J. GRAHAM. Diphtheria prevalence in Hampstead and the Need for its Prevention. (With 1 Map, 2 Graphs and 3 Charts) . . . . .	49
FRUDENTHAL, P. <i>See</i> FRIDERICIA.	
FRIDERICIA, L. S., FRUDENTHAL, P., GUDJONSSON, S., JOHANSEN, G. and SCHOUBYE, N. Refection, a Transmissible Change in the Intestinal Content, enabling Rats to grow and thrive without Vitamin B in the food. (With 10 Charts)	70
GASKELL, J. F. <i>See</i> ADEANE.	
GODDEN, W. <i>See</i> ORR.	
GREENWOOD, M. <i>See</i> TOPLEY.	
GREY, EGERTON CHARLES. The pre-Beriberi Condition. With special reference to its existence in Japan. (With Plates I-III) . . . . .	257
GREY, EGERTON CHARLES. Studies in the Nutrition of Birds. (With 9 Text-figures)	268
GRIERSON, A. M. M. "Bacillus anthracoides." A Study of its Biological Characters and Relationships and its Pathogenic Properties under Experimental Conditions	306
GRIFFITH, FRED. The Significance of Pneumococcal Types . . . . .	113
GUDJONSSON, S. <i>See</i> FRIDERICIA.	
HARE, J. G. and TATE, P. On the Fungi causing Ringworm in Children attending London County Council Schools . . . . .	32
HOY, W. A. <i>See</i> WILLIAMS, R. S.	
JOHANSEN, G. <i>See</i> FRIDERICIA.	
KINGSBURY, A. NEAVE. The Serum Prophylaxis of Measles. (With an Introductory Note by Sir Malcolm Watson.) (With 6 Figures) . . . . .	1
KLIGLER, I. J. Study on the Epidemiology of Typhoid Fever. (With 5 Charts) . . . . .	14
KON, STANISEAW KAZIMIERZ and WATCHORN, ELSIE. Relation between the Nature of the Carbohydrate in the Diet and Refection of Rats. (With 3 Charts) . . . . .	321
MACKIE, T. J. <i>See</i> McLACHLAN.	
McKINLAY, PETER L. The Proportional Frequency of General Paralysis of the Insane and Locomotor Ataxia in different Social Classes. (With a Diagram) . . . . .	174
McKINLAY, PETER L. The Relation between Puerperal Septicaemia and certain Infectious Diseases. (With 3 Diagrams) . . . . .	186

	PAGE
MCKINLAY, PETER L. The decline of Infant Mortality. (With 1 Diagram) . . .	424
MCLACHLAN, D. G. S. and MACKIE, T. J. A Serological Study of the Haemolytic Streptococci associated with Scarlatina . . . . .	225
MATTICK, A. T. R. and PROCTER, F. The Production of Milk of Low Bacterial Content by means of Milking Machines. (With 1 Text-figure) . . . . .	215
NEWBOLD, E. M. <i>See</i> TOPLEY.	
NUTTALL, ZELIA. The Causes of the Physical Degeneracy of Mexican Indians after the Spanish Conquest as set forth by Mexican Informants in 1580 . . . . .	40
ORR, J. B., GODDEN, W. and DUNDAS, J. M. Iodine in Drinking Waters . . . . .	197
PROCTER, F. <i>See</i> MATTICK.	
RIMINGTON, C. <i>See</i> ECKER, E. E.	
ROSCOE, MARGARET HONORA. Spontaneous Cures in Rats reared upon a Diet devoid of Vitamin B and Antineuritic Vitamin . . . . .	103
SCHOUBYE, N. <i>See</i> FRIDERICIA.	
SIMPSON, J. W. H. <i>See</i> DUDGEON.	
SMITH, CHARLES M. Some Notes on Pneumonia Statistics in Glasgów with Special Reference to Children under Five Years of Age. (With 2 Charts) . . . . .	328
STEWART, F. H. The Life-cycle of Bacteria, alternate asexual and autogamic phases . . . . .	379
TATE, P. <i>See</i> HARE.	
TOPLEY, W. W., GREENWOOD, M., WILSON, J. and NEWBOLD, E. M. The Epidemic potency of strains of <i>Bact. aertrycke</i> of varying virulence . . . . .	396
WATCHORN, ELSIE. <i>See</i> KON.	
WHITTLE, C. H. On the Identification of Pneumococci and the Tests employed for distinguishing them from Streptococci . . . . .	200
WHITTLE, C. H. The relation of virulence in Pneumococci to disease, with a comparison of virulence of the different types of Pneumococci in various pathological conditions . . . . .	412
WILLIAMS, R. STENHOUSE and HOY, W. A. Tubercle Bacilli in the Faeces of apparently healthy Cows . . . . .	37
WILSON, J. <i>See</i> TOPLEY.
