

	PAGE
Variations in serum protein levels associated with a high carbohydrate intake in man. By BETTY L. COLES and I. MACDONALD	xxxvi
The determination of gross energy values in nutritional studies using a conventional and ballistic bomb calorimeter. By D. W. ROBINSON, D. COLE, M. H. CLARKE and H. S. BAYLEY	xxxvii
The effect of inhibition of egg laying on the utilization of dietary energy in the domestic fowl. By H. S. BAYLEY, M. H. CLARKE, P. HUNTON and A. H. SYKES	xxxviii
Some differences in the composition of broiler and free range chickens. By MARGARET S. VIPOND, JEAN ROBERTSON and D. TAPSFIELD	xxxviii
Hydroxylysine as a stimulant in microbiological assays for lysine. By K. J. CARPENTER, A. W. HARTLEY and L. D. WARD	xl
Carbohydrate preference in the rat. By R. H. J. WATSON	xli
Food habits of West Indian immigrants. By J. C. MCKENZIE and PAMELA MUMFORD	xlii
Overeating low-protein diets by adult man. By D. S. MILLER and PAMELA MUMFORD	xliii
Urinary sulphur as a measure of the protein value of diets. By D. S. MILLER and PAMELA MUMFORD	xliv
Nutritional factors involved in the production of atherosclerosis in rabbits by semi-synthetic diets of low cholesterol content. By A. N. HOWARD, G. A. GRESHAM, D. JONES and I. W. JENNINGS	xlv
The influence of urea and other dietary supplements on the nitrogen content of the digesta passing to the duodenum of hay-fed sheep. By R. N. B. KAY and A. T. PHILLIPSON	xlvi
Effect of surplus leucine intake on serum cholesterol in man. By A. S. TRUSWELL ..	xlvi

FORTHCOMING ISSUE

It is hoped to publish in the next issue of the *Proceedings of The Nutrition Society* reports of symposia on The Effect of Soils, Fertilizers and Environment on the Yield and Nutrient Content of Plants (17 July 1964), Major Elements in Nutrition (12 September 1964) and Availability of Minerals in Foods of Plant Origin (3 October 1964) and abstracts of communications to be presented at a meeting to be held on 5 December 1964.

CONTENTS OF VOLUME 23, No. 2, 1964

SYMPOSIUM PROCEEDINGS

One Hundred and Sixty-third Scientific Meeting

CARBOHYDRATES AND NUTRITION	PAGE
Carbohydrates and nutrition: Chairman's opening remarks. By R. J. L. ALLEN	109
Carbohydrates and protein. By C. R. C. HEARD	110
Dietary carbohydrates and lipid metabolism. By I. MACDONALD	119
Nutritional consequences of altered carbohydrate absorption in infancy and childhood. By A. HOLZEL	123
The systemic influence of carbohydrates on teeth. By R. L. SPEIRS	129
Changes in the pattern of carbohydrate consumption in Britain. By J. P. GREAVES and DOROTHY F. HOLLINGSWORTH	136
Carbohydrate consumption and diabetes. By JOAN B. WALKER	143
Patterns and trends in carbohydrate consumption and their relation to disease. By JOHN YUDKIN	149

One Hundred and Sixty-fourth Scientific Meeting

NUTRITION OF MICRO-ORGANISMS	
Nutritional and environmental factors affecting the endogenous metabolism of bacteria. By E. A. DAWES	163
The relationship between the composition of the environment and the control of biosynthesis in bacteria. By B. A. FRY	170
The nutrition of certain intestinal protozoa. By J. MARGARET EADIE	188
The nutrition of the micro-aerophilic pathogen <i>Actinomyces israelii</i> . By J. W. PORTEOUS	195
Sulphate metabolism of moulds. By MARVIN J. JOHNSON	205

ABSTRACTS OF COMMUNICATIONS

One Hundred and Sixty-second Scientific Meeting

Measurement of total body fat in man with ⁸⁵ krypton. By F. E. HYTEN	xxi
Effects of progesterone on energy balance in rats. By G. R. HERVEY	xxii
A review of obese patients on subcaloric diets. By KATHLEEN ROSE and D. A. SEATON	xxiii
The intake of soil by the grazing sheep. By A. C. FIELD and D. PURVES	xxiv
The endogenous loss of magnesium in the adult rat and the effect of digestibility of diet on the transit time through the alimentary tract. By B. S. W. SMITH	xxv
The use of in vitro digestibilities of dried grasses for the prediction of their energy values for ruminants. By D. G. ARMSTRONG, R. H. ALEXANDER and MARY MCGOWAN	xxvi
Fluorine retention in growing lambs: a comparison of balance data with bone analysis. By R. G. HEMINGWAY and MOIRA J. YOUNG	xxvii
Agent and target in amino acid interactions. By G. H. SMITH and D. LEWIS	xxviii
Chick bioassay of lysine. By H. O. UWAEGBUTE and D. LEWIS	xxix
Glyceride structure and fat digestibility. By R. H. DAVIS and D. LEWIS	xxx
Nitrogen retention by cattle given all-concentrate diets containing different con- centrations of fish meal. By H. H. BOWERS, T. R. PRESTON, I. McDONALD, N. A. MACLEOD and EUPHEMIA B. PHILIP	xxxi

One Hundred and Sixty-fifth Scientific Meeting

Further studies on copper sulphate and molasses distillers dried solubles as growth stimulants in the diet of growing pigs. By R. S. BARBER, R. BRAUDE and K. G. MITCHELL	xxxii
The effects of a single large oral dose of vitamin A or carotene on vitamin A in the liver of the goat. By EDWIN C. OWEN and R. PROUDFOOT	xxxiii
Sex differences in the lipid response to dietary carbohydrate. By I. MACDONALD and A. NOWAKOWSKA	xxxiii
Retinal degeneration and other signs of vitamin A deficiency in the cat. By PATRICIA P. SCOTT and J. P. GREAVES	xxxiv
Variations in the distribution of calcium in the femurs of growing and adult cats on high and low calcium intakes. By E. R. HUMPHREYS and PATRICIA P. SCOTT	xxxv

[Continued on p. iii of wrapper]
