

Milk Composition

*British Society of Animal Science
Occasional Publication No. 25*

British Society of Animal Science

(formerly British Society of Animal Production)

The British Society of Animal Science aims to provide the opportunity for those with an interest in animals and animal production to exchange views, ideas and information. It is an energetic and active society with about 1300 members from over 30 countries throughout the world. Today, as ever, the Society is the natural meeting point for all those with an interest in animal science. Its membership is drawn from research, education, advisory work, commerce and the practical livestock industry.

The Society organizes a major scientific meeting once a year and occasional specialist meetings on key issues facing animal production. If you would like to join or receive further information about the Society contact: The Secretary, BSAS, PO Box 3, Penicuik, Midlothian EH26 0RZ, Tel: +44 (0)131 445 4508, Fax: +44 (0)131 535 3120, Email: BSAS@ed.sac.ac.uk, Web: www.bsas.org.uk

Animal Science

The Society's Journal is *Animal Science* (formerly *Animal Production*) which publishes fundamental and applied research and is a major scientific title of international repute. Papers reporting findings from basic and applied research relevant to all aspects of animal science can be found in it.

Animal Science is published six times a year in two volumes.

Information regarding subscriptions and sales (current and back numbers of the Journal and the Proceedings) can be obtained from: BSAS Publications Dept, PO Box 3, Penicuik, Midlothian EH26 0RZ, Tel: +44 (0)131 445 4508, Fax: +44 (0)131 535 3120, Email: BSAS@ed.sac.ac.uk, Web: www.bsas.org.uk

Occasional Publications

The British Society of Animal Science's *Occasional Publication* Series contains the full papers presented at certain symposia organized by the Society. A full list of titles is given on the back cover of this Publication. Copies may be obtained from the British Society of Animal Science PO Box 3, Penicuik, Midlothian EH26 0RZ.

MILK COMPOSITION

Proceedings of an International Symposium organized by
THE BRITISH SOCIETY OF ANIMAL SCIENCE
and held at the Stormont Hotel, Belfast, Northern Ireland in September 1999

BSAS OCCASIONAL PUBLICATION

Number 25

edited by R.E. AGNEW, K.W. AGNEW and A.M. FEARON

technical assistants M.D. STRONGE and L.V. WHAN

BSAS
EDINBURGH
2000

Occ. Publ. Br. Soc. Anim. Sci. No. 25

Contents

Foreword	i
List of Delegates	ii
The market for milk-consumer, health and processor requirements	
White, N. Consumer requirements for milk and milk products – current and future trends	1
Barker, M.E. Impact of consumption of milk and milk products on human health	19
Fox, P.F. and Guinee, T.P. Processing characteristics of milk constituents	29
Offered papers	
Rowe, M.T., Grant, I.R., Ball, H.J. and Pope, C. An investigation of the thermal death kinetics of <i>Mycobacterium paratuberculosis</i> during pasteurisation	71
O'Brien, B. Composition and processability of bovine milk from herds with different calving patterns	77
Hill, J., Boland, M., Harris, P. and Paterson, G. Impact of genetic polymorphism on milk powder manufacture and processing	87
Potential economic benefits of altering milk composition and the role of the animal breeder	
Garrick, D.J. and Lopez-Villalobos, N. Potential for economic benefits to the producer from altering the composition of milk	93
Gibson, J.P. Options for genetic improvement of milk composition	109
Posters	
Keady, T.W.J., Mayne, C.S. and Fitzpatrick, D.A. The effects of concentrate energy source on milk composition of lactating dairy cattle offered grass silage	119
Lock, A.L. and Garnsworthy, P.C. Changes in the conjugated linoleic acid content of milk from dairy cows throughout the year	125
Mansbridge, R.J., Blake, J.S. and Collins, C.A. The effect of whole linseed or xylose treated whole linseed on dairy cow performance and level of the fatty acids C _{18:3} , C _{20:5} and C _{22:6} in milk fat	131

Mansbridge, R.J., Blake, J.S. and Collins, C.A.	137
The effect of different dietary oil sources on dairy cow performance and the level of C _{14:0} and C _{16:0} fatty acids in milk fat	
Kraft, J., Lebzien, P., Flachowsky, G., Möckel, P. and Jahreis, G.	143
Duodenal infusion of conjugated linoleic acid mixture influences milk fat synthesis and milk CLA content in dairy cows	
McNamee, B.F., Fearon, A.M. and Pearce, J.	149
Influence of dietary copper sulphate supplementation on the milk fatty acid composition of dairy cows	
Patterson, D.C., Yan, T. and Gordon, F.J.	155
The effects of wilting of grass prior to ensiling and bacterial inoculation on milk composition	
Henning, R.H., Mulholland, M.V., Cushnahan, A., Peoples, A.C. and Bruce, D.W.	159
Demonstration of technologies and best management practice to improve milk protein content in a commercial dairying situation	
Slaghuis, B.A. and Klungel, G.H.	165
Variation of freezing point of cow's milk free from extraneous water during lactation	
Auldust, M.J., Menzies, C.M., Hooper, R.J. and Prosser, C.G.	169
Effects of atropine on the concentration and composition of milk protein in dairy cows	
Margerison, J.K. and Phillips, C.J.C.	175
The effect of suckling following mechanical milking on milk yield, milk composition and somatic cell count in dairy cattle	
Opportunities for nutritional manipulation of milk composition	
MacRae, J.C., Bequette, B.J. and Crompton, L.A.	179
Synthesis of milk protein and opportunities for nutritional manipulation	
Murphy, J.J.	201
Synthesis of milk fat and opportunities for nutritional manipulation	
Opportunities for non-nutritional manipulation of milk composition and application of current technology in practice	
Knight, C.H., Sorensen, A. and Muir, D.D.	223
Non-nutritional (novel) techniques for manipulation of milk composition	
Fearon, A.M. and Mayne, C.S.	241
Modifying milk fat composition - An example of current technology in practice	
Shanahan, T.	249
Applying current technology to improve milk protein at farm level	

Offered papers

- Keady, T.W.J. and Mayne, C.S.** 275
The effects of fish oil supplementation to dairy cattle on milk fat content and composition
- Lawless, F., Murphy, J.J., Fitzgerald, S., O'Brien, B., Devery, R. and Stanton, C.** 283
Dietary effect on bovine milk fat conjugated linoleic acid content
- Carson, A.F., Dawson, L.E.R. and Gordon, F.J.** 295
The effect of heifer rearing regime on milk yield and composition during the first lactation
- Boland M., Hill, J. and O'Connor, P.** 305
Changing the milk supply to increase cheese yield : The Kaikoura experience

Close of conference

- Mayne, C.S. and Gordon, F.J.** 317
Milk composition – The future
