## EDITOR

William K Estes, *Harvard University*

*Psychological Science* is a new bimonthly publication being launched as the flagship journal of the American Psychological Society, founded 1988, to regain the scientific focus of psychological research. The journal is designed to be the forum for research, theory, and application in psychology and the closely related behavioral, cognitive, neural, and social sciences. The journal also considers psychology in government and public affairs. Unlike most research journals, *Psychological Science* encourages articles of general theoretical significance or of broad interest across specialties.

## Recent Articles

The Prenatal Origins of Behavioral Organization,  
*William P Smotherman and Scott R Robinson*

Facts, Fantasies, and the Future of Child Care in  
the United States, *Sandra Scarr et al.*

Serial vs Parallel Processing, *James T Townsend*

Answering Reading Comprehension Items Without  
Passages on the SAT, *Stuart Katz et al.*

Infants' Perception of Phase Structure in Music,  
*Carol L Krumhansl and Peter W Jusczyk*

*Psychological Science* (ISSN 0956-7976) is published bimonthly. Volume 1 (1990) subscriptions (US and Canada only): \$100.00 institutions; \$50.00 for non-member individuals. APS members receive the journal as part of their dues.
