

# The **AERONAUTICAL** Journal

## Contents

**C. Evans**

An investigation of large amplitude wing-rock

**D. J. Smith and T. Hughes**

The flow from notched nozzles in the presence of a free stream

**Professor G. M. Lilley**

The performance of man-powered aircraft

**R. V. Barrett**

Design and performance of a new low turbulence wind tunnel at Bristol University

**Dr. K. Ghosh**

Hypersonic large-deflection similitude for quasi-wedges and quasi-cones

**Library reviews, additions and reports**

Incorporating  
**The Aeronautical Quarterly**

**Volume 88 Number 873 March 1984**

# The AERONAUTICAL Journal

Reproduction of any of the papers  
published in this journal is not  
permitted without the written  
consent of the Editor.

None of the papers or paragraphs  
must be taken as expressing the  
opinion of the Council unless  
otherwise stated.

Printed by  
Manor Park Press Ltd,  
Unit 7, Highfield Industrial Estate,  
Edison Road, Hampden Park,  
Eastbourne.

Subscriptions: £110 per annum,  
post free.  
RAeS members: £10 per annum.  
Single copies, including back  
numbers: £11.

All foreign currency rates on  
application.

Britain

## **Joint RAeS and CASI 1984 Spring Convention**

### **Future applications and prospects for flight simulation**

**9th and 10th May 1984**

This is an international conference with speakers from the FAA, American Airlines, Air Canada, British Airways, Sperry Corporation, Regional Airlines (Canada), British Aerospace, Boeing, McDonnell Aircraft, CAE Electronics, Rediffusion, Link Miles, RAE, the Royal Air Force, Naval Training Equipment Center (Florida) and the Dept of the USA Navy.

For further particulars please apply to the RAeS Lectures Secretary.

### **MANAGEMENT STUDIES GROUP AND THE SOCIETY'S EDUCATION COMMITTEE**

#### **Should engineers be taught management?**

There has been much debate (and divergence of opinion within the Society) on if, when and how engineers should receive management training. A recent study of mechanical, electrical and electronic engineers revealed heavy criticism of ability in this field, and the same may well be true of aeronautical engineers.

**To stimulate this vital debate and to help ensure that the Society encourages aeronautical engineers in the most appropriate direction, the Society is organising a symposium on 22nd May at Hamilton Place.** Speakers representing different sectors of the aerospace community have been invited to initiate discussion of needs, and how these needs might be met.

Everyone who would like to make a contribution to the debate is welcome.

Further details in May's *Aerospace*, or from the Lectures Secretary.
