THE THIRD VOLUME IN OUR 'RELIGIOUS LIFE' SERIES

OBEDIENCE

The first part of this book considers the historical aspect of the subject, beginning with the first movements of monasticism and leading the reader to the renewed conception of religious life and obedience which arose in the sixteenth century. The second and most fundamental part of this volume is concerned with doctrine, dealt with in a number of essays by leading theologians. The third part is of especial interest to superiors and all those who have charge of postulants, for it deals with the psychology of the mature human person subordinated to others by the vow of obedience. Finally, the fourth part is concerned with various incidental problems which arise in the common run of religious life.
