"We have experimentally proved that Listerine is a powerful antiseptic, preventing the development of bacteria and decomposition of vegetable infusions."—*British Medical Journal*, May 3, 1890.

LISTERINE

*A safe, non-poisonous, unirritating
antiseptic solution*

LISTERINE is particularly useful in the treatment of abnormal conditions of the mucosa, and admirably suited for a wash, gargle, or douche, in catarrhal conditions of the nose and throat.

LISTERINE in proper dilution may be freely and continuously used without prejudicial effect, either by injection or spray, in all the natural cavities of the body.

LISTERINE embodies a two-fold antiseptic effect, in that after the evaporation of its volatile constituents—thyme, eucalyptus, mentha, gaultheria, and ethyl alcohol—a film of boracic and benzoic acids remains upon the surface to which Listerine has been applied, affording more prolonged antiseptic protection.

LISTERINE is a trustworthy surgical dressing; it has no injurious effect upon the tissues in which the healing process is going on.

LISTERINE in teaspoonful doses will often afford relief in fermentative dyspepsia, and is largely prescribed, with excellent results, in the various forms of diarrhœa, occurring in infants and adults.

LISTERINE literature, including special pamphlets upon *Respiratory Diseases*, may be had, by physicians, upon application to

The Journal of Laryngology and Otology

(Founded in 1887 by MORELL MACKENZIE and NORRIS WOLFENDEN)

EDITED BY

A. LOGAN TURNER AND J. S. FRASER

ASSISTED BY

DOUGLAS GUTHRIE AND IRWIN MOORE

1. Original Articles are accepted on the condition that they have not been published elsewhere.

2. Manuscripts should be typewritten, on one side only of the paper, and well spaced.

3. Galley proofs and engraver's proofs of illustrations are sent to the author. Corrections, which should be kept to a minimum, must be clearly marked and no additional matter should be added.

4. The order for reprints should be sent when returning galley proofs, and for this purpose special forms are supplied, on which the price of the reprints is stated.

5. Authors of Original Communications on Oto-Laryngology in other Journals are invited to send a copy, or two reprints, to the *Journal of Laryngology*. If they are willing, at the same time, to submit their own abstract (in English, French, Italian, or German) it will be welcomed.

6. Editorial Communications should be addressed to "EDITORS, *Journal of Laryngology*, c/o Messrs OLIVER AND BOYD, Tweeddale Court, Edinburgh."

7. The Annual Subscription is Forty Shillings or Ten Dollars, and is payable in advance.

8. Single copies of back numbers, both of the present and the previous series, are on sale at Four Shillings (One Dollar) each.

9. An Annual Subscription can be commenced with any number of the Journal, and the preceding numbers of the current year can be purchased at Four Shillings (One Dollar) each.

HOSPITAL FOR DISEASES OF THE THROAT

GOLDEN SQUARE, LONDON, W. 1

HONORARY MEDICAL STAFF

SURGEONS.		OUT-PATIENTS.		OPERATIONS.	
Mr JEFFERSON FAULDER	Wednesday,	2 P.M.	Thursday,	10 A.M.

		{ Thursday,	2 P.M.		

CLINICAL INSTRUCTION

Clinical Instruction in the Diagnosis and Treatment of Disease is given daily in the Out-Patient Department from 2 to 5 p.m.; on Tuesdays and Fridays from 6.30 to 9 p.m. Major operations are performed at the times specified above, and minor operations by the Assistant Surgeons.

The Hospital contains 60 beds for In-Patients. There is also an Out-Patient attendance of over 60,000 yearly.

Practitioners and Medical Students are admitted to the Practice of the Hospital and from among them Clinical Assistants are chosen, whose duty it is to assist the member of the staff to whom they are appointed. For further information apply to the Dean—LIONEL COLLEDGE.

UNIVERSITY OF LONDON

THE SEMON LECTURE, entitled "THE DEVELOPMENT OF TRANS-ATLANTIC RHINO-LARYNGOLOGY," will be delivered by Professor H. S. BIRKETT, C.B., M.D. (Dean of the Faculty of Medicine, McGill University, Montreal), at the Rooms of the Royal Society of Medicine, 1 WIMPOLE STREET, W.1, on *Wednesday, 12th July, 1922, at 5 p.m.*

The Chair will be taken by the Vice-Chancellor of the University (Mr HOBURT J. WARING, M.S., F.R.C.S.).

ADMISSION FREE, WITHOUT TICKET

EDWIN DELLER, *Academic Registrar.*

HYDROGEN PEROXIDE SOLUTION (P., D. & Co.)

MADE IN ENGLAND

retains its germicidal power so much longer than most commercial preparations do, and is of such exceptional purity, that it is recognised all over the world as

THE MOST RELIABLE AND MOST EFFECTIVE FOR MEDICAL AND SURGICAL USES

"P., D. & Co." HYDROGEN PEROXIDE SOLUTION contains 3% by weight of absolute hydrogen peroxide, corresponding to about 10 volumes of available oxygen, as required by the British Pharmacopœia.

Supplied in bottles of 4, 8, 16 & 80 fluid ounces.

PLEASE SPECIFY "P., D. & Co." WHEN ORDERING

Prices and literature will be forwarded on request.
