## CONTENTS

	PAGE
<b>Abubakar, I.</b> Scattering of plane elastic waves at rough surfaces. I . . . . .	136
<b>Allan, D. W.</b> On the behaviour of systems of coupled dynamo . . . . .	671
<b>Asplund, E., Grosswald, E. and Grünbaum, B.</b> On a measure of asymmetry of convex bodies . . . . .	217
<b>Bather, J. A.</b> Bayes procedures for deciding the sign of a normal mean . . . . .	599
<b>Belinfante, D. C.</b> On viscous flow in a pipe with constrictions . . . . .	405
<b>Bodmer, W. F.</b> A method of evaluating the complex zeros of polynomials using polar coordinates . . . . .	52
<b>Cockcroft, W. H.</b> On the Thom isomorphism theorem . . . . .	206
<b>Cohen, M.</b> Single-centre expansions for the hydrogen molecular ion. II . . . . .	130
<b>Cohn, P. M.</b> Factorization in non-commutative power series rings . . . . .	452
<b>Collinson, C. D.</b> A class of conserved tensors in an arbitrary gravitational field . . . . .	346
<b>Croft, H. T.</b> Two problems on convex bodies . . . . .	1
<b>Croft, H. T.</b> On the sum of differentiable functions . . . . .	225
<b>Croft, H. T.</b> Some plane curve pathologies . . . . .	569
<b>Diananda, P. H.</b> On non-negative forms in real variables some or all of which are non-negative . . . . .	17
<b>Diananda, P. H.</b> On rearrangement of series. ( <i>Research note</i> ) . . . . .	158
<b>Diananda, P. H.</b> Some cyclic and other inequalities. ( <i>Research note</i> ) . . . . .	425
<b>Diananda, P. H.</b> Some cyclic and other inequalities. II. ( <i>Research note</i> ) . . . . .	703
<b>Douglas, A. S. and Garstang, R. H.</b> Transition integrals for $Si\text{ IV}$ and $Ca\text{ II}$ . . . . .	377
<b>Drazin, P. G.</b> On stability of parallel flow of an incompressible fluid of variable density and viscosity . . . . .	646
<b>Duty, R. L.</b> A note on Stokes phenomenon. ( <i>Research note</i> ) . . . . .	706
<b>Eggleston, H. G.</b> On covering a regular polygon with a triangle . . . . .	8
<b>Eliezer, C. J. and Roy, S. K.</b> The effect of a magnetic pole on the energy levels of a hydrogen-like atom . . . . .	401
<b>England, A. H.</b> A punch problem for a transversely isotropic layer . . . . .	539
<b>Fine, M. and Head, J. W.</b> A note on the convergence of multi-point Taylor's series. ( <i>Research note</i> ) . . . . .	548
<b>Flavin, J. N.</b> Thermo-elastic Rayleigh waves in a prestressed medium . . . . .	532
<b>Florides, P. S.</b> Applications of Møller's theory on energy and its localization in general relativity . . . . .	102
<b>Florides, P. S.</b> The electromagnetic energy and the gravitational mass of a charged particle in general relativity . . . . .	110
<b>Fowler, J.</b> A note on cubic equations . . . . .	165
<b>Garstang, R. H.</b> ( <i>Joint Author</i> ). Transition integrals for $Si\text{ IV}$ and $Ca\text{ II}$ . . . . .	377
<b>Good, I. J.</b> A short proof of MacMahon's 'Master Theorem'. ( <i>Research note</i> ) . . . . .	160
<b>Good, I. J.</b> Proofs of some 'binomial' identities by means of MacMahon's 'Master Theorem'. ( <i>Research note</i> ) . . . . .	161

	PAGE
<b>Grosswald, E.</b> ( <i>Joint Author</i> ). On a measure of asymmetry of convex bodies . . . . .	217
<b>Grünbaum, B.</b> ( <i>Joint Author</i> ). On a measure of asymmetry of convex bodies . . . . .	217
<b>Hall, P.</b> Wreath powers and characteristically simple groups . . . . .	170
<b>Halton, J. H.</b> Sequential Monte Carlo . . . . .	57
<b>Hammersley, J. M.</b> Generalization of the fundamental theorem on subadditive functions . . . . .	235
<b>Handscomb, D. C.</b> The Monte Carlo method in quantum statistical mechanics . . . . .	594
<b>Hayes, A.</b> Additive functionals on groups . . . . .	196
<b>Head, J. W.</b> ( <i>Joint Author</i> ). A note on the convergence of multi-point Taylor's series. ( <i>Research note</i> ) . . . . .	548
<b>Herszberg, J.</b> On certain types of isolated $s$ -ple points on algebraic primals in $S_d$ . . . . .	465
<b>Hudson, J. F. P.</b> Landau damping for non-Maxwellian distributions . . . . .	119
<b>Karlin, S.</b> and <b>McGregor, J.</b> On a genetics model of Moran . . . . .	299
<b>Keilson, J.</b> A simple random walk and an associated asymptotic behaviour of the Bessel functions. ( <i>Research note</i> ) . . . . .	708
<b>Kingman, J. F. C.</b> On queues in which customers are served in random order . . . . .	79
<b>Kingman, J. F. C.</b> The effect of queue discipline on waiting time variance. ( <i>Research note</i> ) . . . . .	163
<b>Krishna Iyer, P. V.</b> and <b>Shakuntala, N. S.</b> Asymptotic cumulants for distributions of $k$ -state Markov chains. ( <i>Research note</i> ) . . . . .	427
<b>Lakshmikantham, V.</b> On the stability and boundedness of differential systems . . . . .	492
<b>Lakshmikantham, V.</b> On the uniqueness and boundedness of solutions of hyperbolic differential equations . . . . .	583
<b>Liebeck, H.</b> Concerning nilpotent wreath products . . . . .	443
<b>Linden, C. N.</b> Inequalities for functions regular in the unit circle . . . . .	26
<b>Loynes, R. M.</b> The stability of a queue with non-independent inter-arrival and service times . . . . .	497
<b>Lynden-Bell, D.</b> On the gravitational collapse of a cold rotating gas cloud. ( <i>Research note</i> ) . . . . .	709
<b>Macdonald, I. G.</b> The Poincaré polynomial of a symmetric product . . . . .	563
<b>Mackie, A. G.</b> Applications of the theory of the general hodograph equation. Part I. Kirchhoff-Helmholtz flow past a wedge . . . . .	631
<b>Mackie, A. G.</b> Applications of the theory of the general hodograph equation. Part II. The non-symmetric flow at sonic speeds past a flat plate . . . . .	638
<b>Martin, J. L.</b> The exact enumeration of self-avoiding walks on a lattice . . . . .	92
<b>Mauldon, J. G.</b> Equally inclined spheres. ( <i>Research note</i> ) . . . . .	420
<b>McGregor, J.</b> ( <i>Joint Author</i> ). On a genetics model of Moran . . . . .	299
<b>McMillan, D. R.</b> and <b>Zeeman, E. C.</b> On contractible open manifolds . . . . .	221
<b>Mercier, R. P.</b> Diffraction by a screen causing large random phase fluctuations . . . . .	382
<b>Miller, A. J.</b> Road traffic flow considered as a stochastic process . . . . .	312
<b>Miller, G. F.</b> The evaluation of eigenvalues of a differential equation arising in a problem in genetics . . . . .	588

*Contents*

v

	PAGE
<b>Miller, H. D.</b> A matrix factorization problem in the theory of random variables defined on a finite Markov chain . . . . .	268
<b>Miller, H. D.</b> Absorption probabilities for sums of random variables defined on a finite Markov chain . . . . .	286
<b>Milne-Thomson, L. M.</b> Bounds for the torsional rigidity of isotropic beams . . . . .	417
<b>Mirsky, L.</b> Estimates of zeros of a polynomial . . . . .	229
<b>Misra, M.</b> A non-singular electromagnetic field. ( <i>Research note</i> ) . . . . .	711
<b>Mitchell, Ann F. S.</b> Sufficient statistics and orthogonal parameters . . . . .	326
<b>Paria, G.</b> On magneto-thermo-elastic plane waves . . . . .	527
<b>Parks, P. C.</b> A new proof of the Routh-Hurwitz stability criterion using the second method of Liapunov . . . . .	694
<b>Ragab, F. M.</b> Expansions of generalized hypergeometric functions in series of products of generalized Whittaker functions . . . . .	239
<b>Ragab, F. M.</b> The inverse Laplace transform of the product of two Whittaker functions . . . . .	580
<b>Raychaudhuri, A. K. and Som, M. M.</b> Stationary cylindrically symmetric clusters of particles in general relativity . . . . .	338
<b>Roseblade, J. E.</b> On certain classes of locally soluble groups . . . . .	185
<b>Roy, S. K.</b> ( <i>Joint Author</i> ). The effect of a magnetic pole on the energy levels of a hydrogen-like atom . . . . .	401
<b>Ruston, A. F.</b> Auerbach's theorem and tensor products of Banach spaces . . . . .	476
<b>Rutovitz, D.</b> Absolute and unconditional convergence in normed linear spaces . . . . .	575
<b>Samal, G.</b> On the number of real roots of a random algebraic equation . . . . .	433
<b>Sander, K. F.</b> Solutions of certain finite difference equations connected with Laplace's equation . . . . .	38
<b>Saxena, R. K.</b> Definite integrals involving G-functions . . . . .	489
<b>Schinzel, A.</b> On primitive prime factors of $a^n - b^n$ . . . . .	555
<b>Schwarzenberger, R. L. E.</b> Reducible vector bundles on a quadric surface . . . . .	209
<b>Scoins, H. I.</b> The number of trees with nodes of alternate parity . . . . .	12
<b>Shakuntala, N. S.</b> ( <i>Joint Author</i> ). Asymptotic cumulants for distributions of $k$ -state Markov chains. ( <i>Research note</i> ) . . . . .	427
<b>Sharples, A.</b> An approximate method in high-frequency scattering . . . . .	662
<b>Smith, W. L.</b> A note on characteristic functions which vanish identically in an interval. ( <i>Research note</i> ) . . . . .	430
<b>Sneddon, I. N.</b> Note on an electrified circular disk situated inside a coaxial infinite hollow cylinder . . . . .	621
<b>Som, M. M.</b> ( <i>Joint Author</i> ). Stationary cylindrically symmetric clusters of particles in general relativity . . . . .	338
<b>Stallings, J.</b> The piecewise-linear structure of Euclidean space . . . . .	481
<b>Stephenson, G.</b> A static spherically symmetric solution of the Einstein-Maxwell-Yukawa field equations . . . . .	521
<b>Surdin, M.</b> A note on time-varying gravitational potentials. ( <i>Research note</i> ) . . . . .	550
<b>Talbot, A.</b> On a class of Tchebysheffian approximation problems solvable algebraically . . . . .	244
<b>Underhill, J.</b> Non-relativistic dispersion relations for a two-channel scattering process . . . . .	363

	PAGE
<b>Verblunsky, S.</b> A uniqueness theorem for the exponential series of Herglotz (II). ( <i>Research note</i> ) . . . . .	422
<b>Williams, W. E.</b> Electromagnetic diffraction by a circular disk . . . . .	625
<b>Wulfsohn, A.</b> A note on the vague topology for measures. ( <i>Research note</i> ) . . . . .	421
<b>Zeeman, E. C.</b> ( <i>Joint Author</i> ). On contractible open manifolds . . . . .	221
<i>Proceedings</i> . . . . .	713
<i>Statement of Accounts</i> . . . . .	717

- The following papers have been accepted for publication and will appear shortly:
- HEADING, J. Uniform approximate solutions of certain  $n$ th order differential equations. I.
- THOMAS, D. P. Diffraction of a spherical cap.
- DAVIES, R. O. On a problem of Erdős concerning decompositions of the plane.
- FAIRLIE, D. B. An inequality in Feynman integrands.
- EDGE, W. L. A second note on the simple group of order 6048.
- UNDERHILL, J. Dispersion relations for a two-channel scattering process: residues of the scattering amplitudes.
- BESICOVITCH, A. S. A problem on measure.
- RILEY, N. The thermal boundary layer in the flow between converging plane walls.
- WICKRAMASINGHE, N. C. A note on the vapour pressure of a crystal.
- WEINMANN, A. Asymptotic expansions of generalized Bernoulli polynomials.
- CROFT, H. T. and SWINNERTON-DYER, H. P. F. On the Steinhaus billiard-table problem.
- DAVIES, H. Hamiltonian approach to the method of summation over Feynman histories.
- KINGMAN, J. F. C. On inequalities of the Tchebychev type.
- LARDNER, R. W. On the solutions of the Low equation.
- MELIGY, A. S. and EL GAZZY, E. M. On Coulomb wave functions.
- RAJAGOPAL, C. T. On the Nörlund summability of Fourier series.
- EZEILO, J. O. C. Further results for the solutions of a third-order differential equation.
- WRAGG, A. The solution of an infinite set of differential-difference equations occurring in polymerization and queueing problems.
- DAVIS, T. A. The Wiener-Pitt phenomenon on semigroups.
- SAXENA, R. K. Some formulae for the  $G$ -function.
- MISRA, M. A non-singular electromagnetic field.
- CORNER, A. L. S. Wildly embedded subgroups of complete direct sums of cyclic groups.
- LIEBECK, H. Concerning automorphisms of finitely generated groups.
- GOODRICH, R. F. and KAZARINOFF, N. D. Scalar diffraction by prolate spheroids whose eccentricities are almost one.
- HSU, L. C. Approximate integration of rapidly oscillating functions and of periodic functions.
- AFRIAT, S. N. The system of inequalities  $a_{rs} > X_r - X_s$ .
- AFRIAT, S. N. Gradient configurations and quadratic functions.
- GRIFFITHS, H. B. On a potential-theoretic example of Kiang.
- NOBLE, B. The solution of Bessel dual integral equations by a multiplying-factor method.
- NOBLE, B. Some dual series equations involving Jacobi polynomials.
- FOX, C. A generalized theory of Fourier transforms.
- ABUBAKAR, I. Scattering of plane elastic waves at rough surfaces. II.

## CONTENTS OF BIOLOGICAL REVIEWS

Vol. 37, No. 4. October 1962

- M. F. GLAESSNER. Pre-Cambrian fossils.
- WOLFGANG PFEIFFER. The fright reaction of fish.
- BRYN M. JONES. The cultivation of insect cells and tissues.
- DAVID C. SMITH. The biology of lichen thalli.
