CONFIDENCE

Bristol
TYPE 173

The Bristol Type 173 Twin Rotor Helicopter relies on Layrub as the main driving elements between engines and rotors.

Rubber trunion blocks are used giving a cushioned drive - there are no metal to metal contacts - no lubrication therefore little maintenance.

A Post card will see full technical data on its way to you.

THE SAUNDERS-ROE

Skeeter

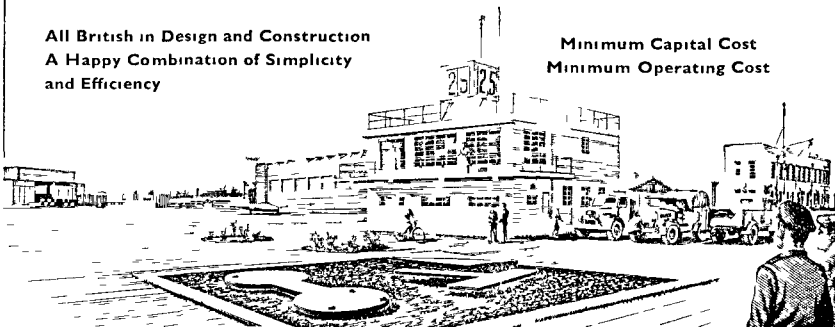

. . . THE IDEAL TRAINER

In these hard times economy is all-important—to the Services as much as to Industry That is one of the main reasons why the Skeeter makes such a strong appeal as a Trainer In economy it is in a class by itself, while in its characteristics as a Trainer it is—*the instructor's dream*

All British in Design and Construction
A Happy Combination of Simplicity
and Efficiency

Minimum Capital Cost
Minimum Operating Cost

CONTENTS

	<i>Page</i>
ORDINARY MEETING, 6th March, 1953	
A DISCUSSION ON RECENT HELICOPTER FLIGHT TESTING EXPERIENCES (3 papers)	
(I) Early tests flights in the Bristol 173 Helicopter	
By C T D HOSEGOOD	1
(II) Some handling aspects introduced by increased Helicopter requirements	
By W R GELLATLY	7
(III) Recent Helicopter flight testing experiences	
By JOHN A CAMERON	15
DISCUSSION	22
●	
The future employment of the 40-seater Helicopter and the need for dispersing air liners to airstrips round Britain's coasts	
By WILLIAM COURTENAY	27
●	
The noise of a pulse jet	
By ALAN POWELL	32
●	
Police College demonstration	42
An open exchange of letters between C M BELINN and PETER G MASEFIELD	43
EIGHTH ANNUAL GENERAL MEETING	47
Notices	50

OBJECTS OF THE ASSOCIATION

The objects of the Association are to collect compile and disseminate information of a technical and semi technical nature pertaining to Helicopters and all other types of Rotating Wing Aircraft
The Association aims to work in close co operation with existing Aeronautical Bodies on matters affecting its objects and it may act as an Advisory Body in the promotion of legislation calculated to be of benefit to the development of Rotating Wing Aircraft

**SYCAMORES CHOSEN
FOR R.A.F.
FIGHTER COMMAND**

R A F Fighter Command have chosen the
"Bristol" Sycamore Mark 13 helicopter for
search-rescue and communications duties
This choice implies recognition of a
versatility and efficiency unmatched by any
other aircraft British or foreign
