

## Subject Index to Volume 37

### A

#### Age

- father's, 127
- gestational, 47
- mother's, 127, 321, 339

Åland islanders, 277

Analgesia, regional, 331

Anastomoses, 229

Attitude, psychological, 151

Australia, 119, 313, 321

### B

Bed rest, 19, 55

Bereavement, 173

Bias, 217

Birth order, 127, 161, 339

Birthweight, 27, 31, 41, 47, 55, 65,  
89, 331

Breast cancer, 263

Breech, 331

### C

Cancer, breast, 263

#### Care

- cost of, 1
- neonatal, 27
- perinatal, 193

Cesarean section, 11, 31, 65, 77, 105, 239  
elective, 99

Child loss, 181

Chorion, 229

Collaborative study, 111

Congenital malformations, 27, 111, 321

Conjoined twins, 111, 339

Consanguinity, 347

Contraception, 119

Cost of care, 1

### D

Delivery, 89

mode of, 11

preterm, 31

twin, 31

vaginal, 11

Demography, 143

historical, 249

Dermatoglyphics, 199

Development, infant, 81

Diagnosis, maternal, 187

Difference method, 299

Differences, individual, 205

Drugs, fertility, 65

Dutchmen, 277

### E

EEC-like syndrome, 347

Epidemiology, 277

## 384 Subject Index

### F

- Family
  - interaction, 161
  - stress, 193
- Father's age, 127
- Fecundity, 119
- Fertility, 119
  - drugs, 65
- Fetal growth, 35
- Finland, 143
- Finns, 277
- Follow up, 81

### G

- Genetic etiology, 205
- Geographic variation, 307, 339
- Germans, 277
- Gestation, multiple, 1, 19
- Gestational age, 47
- Grief, 181
- Growth
  - fetal, 35
  - intrauterine, 41

### H

- Height of women, 263
- Heritability, 205
- Historical demography, 249

### I

- Individual differences, 205
- Induction, ovulation, 137
- Infant
  - development, 81
  - preterm, 239
- Interaction
  - family, 161
  - mother-twin, 151

### L

- Labor, preterm, 1
- Longitudinal studies, 217
- Loss, child, 181

### M

- Malformations, congenital, 27, 111, 321
- Maternal age, 127, 321, 339
- Membranes, premature rupture, 1
- Menopause, 249
- Mental retardation, 347
- Mortality
  - neonatal, 65, 89, 105, 313
  - perinatal, 47, 263, 313, 321, 331
- Maternal diagnosis, 187
- Mother's age, 127
- Mother-twin interaction, 151
- Multiple
  - gestation, 1, 19
  - pregnancy, 181, 331
  - regression, 205

### N

- Neonatal
  - care, 27
  - mortality, 65, 89, 105, 313
  - resuscitation, 77
  - risk, 239

### O

- Ovulation induction, 137

### P

- Perinatal
  - care, 193
  - mortality, 47, 263, 313, 321, 331
- Personality, 161
- Placenta, 229
- Population study, 137
- Pregnancy
  - management, 183
  - multiple, 1, 19, 181, 331
  - triplet, 99
  - twin, 47, 187
- Prematurity, 55, 81, 331
- Preterm
  - delivery, 31
  - infant, 239
  - labor, 1
- Privation, 277
- Psychological attitude, 151

## R

## Rates

- response, 217
- twinning, 127, 143, 263, 277, 307

## Regional analgesia, 331

## Regression, multiple, 205

## Response rates, 217

## Retardation, mental, 347

## Risk

- factors, 11
- neonatal, 239

## S

## Seasonality, 339

## Secular trend, 119

## Selection, 217

## Sex, 321

## Social services, 193

## Starvation, 277

## Stillbirth, 313, 321

## Stress, family, 193

## Study

- collaborative, 111
- longitudinal, 217
- population, 137

## Swedes, 277

## T

## Temperament, 239

## Temporal variation, 307

## Trend, secular, 119

## Triplet

- frequency, 299
- zygosity types, 299

## Triplets, 41, 55, 65, 77, 89, 105

## Twin

- delivery, 31
- pregnancy, 27, 35, 47, 187
- register, 27

## Twinning, 119, 249, 321

- rates, 127, 143, 263, 277, 307

## Twins, 11, 41, 137, 151, 161, 173, 193,

- 205, 217, 229, 239, 313, 347
- conjoined, 111, 339

## U

## Ultrasound, 19, 35, 331

## Upbringing, 151

## V

## Variation

- geographic, 307, 339
- temporal, 307

## W

## Weight, 161

- birth, 27, 31, 41, 47, 55, 65, 99, 331
- placental, 41

## Weinberg's rule, 137

## Z

## Zygosity, 27, 35, 229

- determination, 19, 137
- triplet, 299
