

NOTICE OF MEETING

XVIII International Grasslands Congress

June 8-19, 1997

Winnipeg, Manitoba

and

Saskatoon, Saskatchewan

Canada

For more information contact:

International Grasslands Congress Office
Box 4520, Station C
Calgary, Alberta
Canada T2T 5N3

Telephone: (403) 244-4487

Fax: (403) 244-2340

CALL FOR ABSTRACTS

1997 ANNUAL MEETING OF THE INTERNATIONAL EMBRYO TRANSFER SOCIETY

12-14 January; Nice Acropolis, Nice, France

Free communications will be presented as posters, abstracts of which will be published in the January, 1997 issue of THERIOGENOLOGY. Abstracts must be in English, and prepared according to THERIOGENOLOGY'S guidelines for direct offset reproduction; **abstracts must adhere rigidly to the guidelines on format, paper quality, and font size.** The abstract must report **unpublished, original data**, and contain objectives, experimental methods, results, and conclusions. Due to space **restrictions**, no one may be first author of more than one abstract or co-author of more than four abstracts. Each abstract will be subjected to **rigorous scientific review** by at least two referees. **A signed commitment to present the data in the poster session** at the annual conference is required. Students may enter their abstract in a competition sponsored by the IETS Foundation, and also are eligible to compete for three **US\$500** travel awards. The Foundation also offers to scientists from developing countries a grant to be awarded competitively on specific merit and need, consisting of **US\$1500** to be applied toward travel and lodging; registration fees will be deferred. Request details of eligibility, judging procedures, and prizes from the **IETS** office before preparing abstracts.

The **firm deadline** for receipt of the abstract (original and three photostatic copies) is **15 August 1996**. Do not fold your abstract and please provide some stiff backing to protect the abstract during transit. Fax copies will not be accepted. They should be **mailed** (postmark deadline) by **1 August** (outside Europe) or **10 August** (within Europe) to:

Dr Steph J. Dieleman, 1997 IETS Programme Chairman
Department of Herd Health and Reproduction
Faculty of Veterinary Medicine
Utrecht University
Yalelaan 7
3584 CL Utrecht, The Netherlands
Telephone: +31 30 253 1243; Fax: +31 30 252 1887
E-mail: DIELEMAN@BDV.DGK.RUU.NL

Abstract forms and instructions as well as information about the **student competition and travel awards** may be obtained from:

Mr Carl Johnson
International Embryo Transfer Society
1111 N. Dunlap Ave., Savoy, IL 61874 USA
Telephone: +001/217-356-3182; Fax: +001/217-398-4119

Topics of the invited papers include regulation of follicular and oocyte maturation, epidemiology of diseases related to the use of embryo transfer, progress with new sources of genetic material in breeding, what determines sex in mammals, and intercellular communication between embryo and recipient. There will be discussion of endangered species, cryopreservation and embryo banking, application of new techniques, and international embryo movement in workshops.

Illustrations. The same material should not normally be presented in tables and figures. Legends should be typed on a separate sheet.

a) Diagrams should be drawn in black ink, about twice the size of the finished block, on white paper or card, stout tracing paper or plastic film. Photographed diagrams are also accepted. Lettering inside the framework of the diagram should be avoided as far as possible but if unavoidable it should be included on a fly-leaf.

b) Photographs intended for half-tone reproduction should be on glossy paper. They will be accepted only if found necessary by the editors.

c) Colour plates are unlikely to be accepted unless the authors bear the cost.

Tables should be as simple and as few as possible. Each table should be typed on a separate sheet.

Abstract. Every paper should have a short abstract (not more than 250 words) complete in itself and understandable without reference to the paper. The abstract will be printed at the beginning of the paper and preferably should be in the format of unnumbered short paragraphs.

Keywords. Up to a maximum of five keywords selected from the *CAB Thesaurus* (1988) or from an equivalent reference volume should be listed at the end of the Abstract.

References. Only papers closely related to the author's work should be referred to; exhaustive lists should be avoided. References with three or more authors should be cited in the first on subsequent occasions with the first author in full followed by *et al.* (e.g. Smith, Jones and Brown: Smith *et al.*). References with two authors should be cited in full on all occasions. References should be given in full in the Reference list and it is the responsibility of authors to check for absolute accuracy in every detail of the reference.

Proofs are supplied once and must be returned corrected to the editors within 3 days. Only essential corrections should be made.

Reprints. Twenty-five reprints of each paper will be supplied free of charge to authors on request. Further copies may be purchased if the order is sent at the proof-stage.

Annual subscription is £140.00 (or \$255.00 in the USA and Canada) and the price for a single part is £24.00 (or \$43.00) net.

Abstracts of papers presented at British Society of Animal Science winter meeting are published as a separate section in the June issue of *Animal Science*.

Correspondence regarding subscriptions and sales (current and back numbers of the *Journal*) and any other enquiries, including those concerning copyright, should be addressed to: Durrant Periodicals, Winton Lea, Pencaitland, East Lothian, Scotland EH34 5AY.
