

## INDEX OF SUBJECTS.

	PAGE
<i>Bacillus anthracoides</i> , a study of . . . . .	306
<i>capsulatus-mucosus</i> group . . . . .	343
Bacteria, life-cycle of . . . . .	379
Bacterial virulence and epidemic potency . . . . .	396
<i>Bact. aertrycke</i> , epidemic potency of strains of . . . . .	396
Beriberi, pre-beriberi condition, observed in Japan . . . . .	257
Cattle, <i>see</i> Tuberculosis	
Diphtheria . . . . .	188-96
prevalence in Hampstead . . . . .	49
prevention . . . . .	62
Epidemic potency of strains of <i>Bact. aertrycke</i> . . . . .	396
Epidemiology, <i>see</i> Typhoid	
Erysipelas . . . . .	188-96
Fungi causing Ringworm in Children, London . . . . .	32
General Paralysis of the Insane, statistics . . . . .	174
Immunity, <i>see</i> Measles, Pneumonia, <i>Staphylococcus</i>	
Infant mortality, decline in . . . . .	424
Iodine in drinking waters . . . . .	197
Locomotor Ataxia, statistics . . . . .	174
Measles, serum prophylaxis of . . . . .	1
Mexican Indians, causes of degeneracy . . . . .	40
Milk, coliform bacilli in "Certified milk" . . . . .	295
of low bacterial content, production of . . . . .	215
Milking machines, <i>see</i> Milk	
Mortality, <i>see</i> Infant	
Nutrition in Birds, experimental studies . . . . .	268
<i>see</i> Refection, Vitamins	
Pneumococci, identification of . . . . .	200
types in various pathological conditions . . . . .	412
Pneumococcus types, significance of . . . . .	113
Pneumonia . . . . .	113
Statistics in Glasgow (children) . . . . .	328
Precipitin reaction, <i>see</i> Staphylococci	
<i>Proteus pseudovaleriae</i> in man . . . . .	108
Puerperal septicaemia, relation to certain infective diseases . . . . .	186-96
Refection in Rats . . . . .	70, 103, 321
Ringworm, <i>see</i> Fungi	
Salmonella group, nature of toxins . . . . .	44
Scarlatina . . . . .	188-96
<i>see</i> Streptococci	
School children, <i>see</i> Ringworm	

	PAGE
Staphylococci, differentiation . . . . .	160
Statistics, <i>see</i> General Paralysis, Locomotor Ataxia, Mortality, Pneumonia	
Streptococci associated with Scarlatina, Serology of . . . . .	225
differentiation from Pneumococci . . . . .	200
<i>Streptococcus pyogenes</i> . . . . .	187
<i>erysipelatis</i> . . . . .	187
Temperature effects, <i>see</i> Testis	
Testis, influence of high temperatures on . . . . .	183
Tubercle bacilli in apparently healthy Cows' faeces . . . . .	37
Tuberculosis in Cattle, elimination by segregation . . . . .	248
Typhoid Fever, Epidemiology of (Palestine) . . . . .	14
Typhus Fever, Weil-Felix reaction in . . . . .	64
Virulence, <i>see</i> Pneumococci, <i>Bact. aertrycke</i>	
Vitamins . . . . .	70, 103
Water, <i>see</i> Iodine
