

Rumen microbial synthesis of long-chain fatty acids. By R. KNIGHT, J. D. SUTTON, J. E. STORRY and P. E. BRUMBY	4A
Combined effects of cafeteria and tube-feeding on energy balance in the rat. By NANCY J. ROTHWELL and M. J. STOCK	5A
Effects of tube-feeding iso-energetic amounts of various dietary lipids on energy balance in the rat. By M. I. GURR, NANCY J. ROTHWELL and M. J. STOCK	6A
The efficiency of energy-reduced diets in the treatment of obesity by dietitians. By C. A. COOPER, A. E. DE LOOY and M. A. CONRY	7A
The effects of exercise and exercise training on dietary induced thermogenesis. By M. GLEESON, J. F. BROWN, J. J. WARING and M. J. STOCK	8A
Phosphorus availability from <i>n</i> -paraffin-grown yeast. By N. B. LOGAN and R. J. NEALE	9A
The effect of an antibacterial growth promoter on the levels of alkaline phosphatase (EC 3.1.3.1) in the intestinal mucosa of chicks. By P. H. RIPLEY and D. J. BROWN	10A
Urinary excretion of 3-methyl histidine in cattle as a measure of muscle protein degradation. By C. I. HARRIS and G. MILNE	11A
Protein turnover in rats following a short period of overfeeding. By Z. GLICK, P. J. GARLICK and M. A. McNURLAN	12A
Selenium deficiency in Friesian steers. By J. R. ARTHUR	13A
Defective leucocyte function in selenium deficient cattle. By R. BOYNE and J. R. ARTHUR	14A
Vegan diet and lifestyle; A preliminary study by postal questionnaire. By R. BROOKS and J. R. KEMM	15A
The hydrolysis of dipeptides by mucosa from different regions of the alimentary tract of the Brown Trout (<i>Salmo trutta</i>). By R. ASH	16A
The role of catecholamines and thyroid hormones in the metabolic response to semistarvation. By R. T. JUNG, P. S. SHETTY, M. BARRAND, B. A. CALLINGHAM and W. P. T. JAMES	17A
The effect of catecholamine replacement on the metabolic response to semistarvation. By P. S. SHETTY, R. T. JUNG, M. BARRAND, B. A. CALLINGHAM and W. P. T. JAMES	18A
Interconversion of glutamate and glutamine in the placenta during development of foetal lambs. by JENNIFER M. PELL, MARJORIE K. JEACOCK and D. A. L. SHEPHERD	19A
Maternal eating habits and the maintenance of breast feeding. By MARGARET J. WHICHLOW, BARBARA KING and SANDRA TAYLOR	20A
The effect in cattle of intravenous infusions of manganous chloride upon the rate of secretion of bile and its manganese concentration. By H. W. SYMONDS, M. J. VAGG and DENISE L. MATHER	21A

Proceedings of the Nutrition Society

CONTENTS OF VOL. 38, No. 1, MAY 1979

SYMPOSIUM PROCEEDINGS

Three Hundred and Twentieth Scientific Meeting
Goldsmith Theatre of the London School of Hygiene and
Tropical Medicine, Keppel Street, London
 7 and 8 SEPTEMBER 1978

PROTEIN-ENERGY MALNUTRITION

Chairman: PROFESSOR R. A. McCANCE, *University of Cambridge*

	PAGE
Childhood malnutrition – the global problem. By J. C. WATERLOW	1
Malnutrition and the community – the social origins of deprivation. By R. W. LONGHURST	11
Malnutrition and the family: deprivation in kwashiorkor. By JANET GOODALL	17
The malnutrition-infection complex and its environment factors. By L. MATA	29
Dietary factors in malnutrition: quality and quantity of diet in relation to child development. By M. CHURCH	41

Chairman: PROFESSOR J. C. WATERLOW, *London School of Hygiene and Tropical Medicine, London WC1*

The pathogenesis of oedema in kwashiorkor – the role of plasma proteins. By W. A. COWARD and MARTA FIOROTTO	51
Oedema in protein energy malnutrition: the role of the sodium pump. By J. PATRICK	61
Endocrines in protein-energy malnutrition. By R. G. WHITEHEAD and P. G. LUNN	69
Protein deficiency, starvation and protein metabolism. By D. J. MILLWARD	77

Chairman: R. G. WHITEHEAD, *MRC Dunn Nutrition Unit, Milton Road, Cambridge*

Progress in the treatment of protein-energy malnutrition. By ANN ASHWORTH	89
The differential diagnosis of protein-energy malnutrition: implications for prevention. By R. W. HAY	99

Three Hundred and Twenty-first Scientific Meeting
One Hundred and Twenty-sixth Scottish Meeting
Mounthatten Building, Heriot-Watt University, Grassmarket, Edinburgh
 22 SEPTEMBER 1978

ANTI-NUTRITIONAL FACTORS

Chairman: PROFESSOR J. W. T. DICKERSON, *Department of Biochemistry, University of Surrey, Guildford, Surrey*

The nutritional significance of plant protease inhibitors. By I. E. LIENER	109
The nutritional toxicity of <i>Phaseolus vulgaris</i> lectins. By A. PUSZTAI, EILEEN M. W. CLARKE and T. P. KING	115
Anti-nutrient factors affecting mineral utilization. By N. T. DAVIES	121
The chemical behaviour of food additives. By D. J. McWEENEY	129
Inactivation of vitamins. By H. KLÄUI	135
Immunologically mediated nutritional disturbances associated with soya-protein antigens. By M. E. J. BARRATT, PATRICIA J. STRACHAN and P. PORTER	143

Three Hundred and Twenty-third Scientific Meeting
One Hundred and Twenty-seventh Scottish Meeting
James Weir Building, University of Strathclyde
 3 NOVEMBER 1978

NUTRITION – VALUE FOR MONEY

Chairman: J. HAWTHORN, *University of Strathclyde, Department of Food Science and Nutrition, James P. Todd Building, 131 Albion Street, Glasgow G1 1SD*

Some findings of the National Food Survey of Great Britain. By A. H. J. BAINES	151
Modern food production – costly or necessary for the consumer? By JENNY SALMON	157
Health foods. By A. E. BENDER	163
Intensive livestock production: its impact on the cost and nutritive value of food. By A. S. JONES	173
Food losses in the UK. By D. D. SINGER	181

ABSTRACTS OF COMMUNICATIONS

Three Hundred and Twenty-second Scientific Meeting
School of Agriculture, University of Nottingham, Sutton Bonington, Loughborough
 29 SEPTEMBER 1978

Gluconeogenesis in isolated sheep hepatocytes. By R. I. RICHARDSON and ANNE F. LIVESEY	2A
The effect of ammonia on gluconeogenesis by isolated sheep liver cells. By T. E. C. WEEKES, R. I. RICHARDSON and N. GEDDES	3A
