OFFICIAL LISTS AND INDEXES OF NAMES AND WORKS IN ZOOLOGY

This single volume records for the first time all the animal names and titles of works on which the International Commission on Zoological Nomenclature has ruled since it was set up in 1895.

For easy reference the entries are arranged alphabetically in four sections: family-group names, generic names, specific names, and titles of works.

Half-tones mounted as multiple square or rectangular parts of a figure should be butted together along straight lines with numbers affixed on the lower right-hand corners of the different parts.
