The Uses of Literature

Life in the Socialist Chinese
Literary System
Perry Link

Why have people in socialist China read and written literary works? *The Uses of Literature* looks broadly and empirically at the “uses” of literature from the points of view of authors, editors, political authorities, and several kinds of readers. Perry Link considers texts ranging from elite “misty” poetry to underground hand-copied volumes (*shouchauben*) and shows in concrete detail how people who were involved with literature sought to teach, learn, enjoy, explore, debate, lead, control, and resist.

Ten Thousand Things

Module and Mass
Production in Chinese Art
Lothar Ledderose

The Chinese throughout history have produced works of art in astonishing quantities—and have done so without sacrificing quality, affordability, or speed of manufacture. How have they managed this?

Lothar Ledderose takes us on a remarkable tour of Chinese art and culture to explain how artists used complex systems of mass production to assemble extraordinary objects from standardized parts or modules. As he reveals, these systems have deep roots in Chinese thought.

Closing the Shop

Information Cartels and
Japan's Mass Media
Laurie Anne Freeman

How is the relationship between the Japanese state and Japanese society mediated by the press? Here Laurie Anne Freeman examines the subtle, highly interconnected relationship between journalists and news sources in Japan. The level of interconnectedness, through both official and unofficial channels, helps set the agenda and terms of political debate in Japan's mass media.

This fascinating look at Japan's information cartels helps to explain the overall power and autonomy enjoyed by the Japanese state.
