## *President Woody White Appoints The Chairmen Whose Committees Will Guide The Society In The Coming Year*

---

Materials Research Society President C.W. "Woody" White has appointed the chairmen whose committees will shape the course the Society will take in 1984. These include a new panel, the Public Relations and Publicity Working Group, which as the Society burgeons into an international organization of increasing importance to the general, as well as the scientific, public will address such questions as how the MRS can help foster greater understanding and support of materials science.

The MRS's committee structure offers many opportunities for members of the Society to become involved in professional work that enhances their own development as well as furthers the advancement of materials science and engineering. Members are invited to contact the chairmen of committees in which they have an interest to volunteer.

The Executive Committee comprises the Society's officers and managers. For 1984 the Executive Committee consists of:
