"A gem of rigorous scholarship that sheds light on understudied key questions for constitutional democratic politics. Its scholarship is excellent."

—Jorge I. Domínguez,
Harvard University

"Employing a common typology and framework, this outstanding collection provides the first sustained examination of issues of political recruitment and candidate selection for major legislative and executive posts in contemporary Latin America."

The Voter's Dilemma and Democratic Accountability Latin America and Beyond

Mona M. Lyne

"Lyne's book constructs a sophisticated micro-logic of citizens' and politicians' choices resulting in exchanges based on clientelistic side-payments or policies as ways to perform democratic accountability. Institutions play a contingent role in that process, but Lyne shows how the role of institutions is nested in a political-economic framework. . . . Anyone interested in democratic accountability should read this book."

—Herbert P. Kitschelt,
Duke University

288 pages | \$60.00 cloth

Argentina's Radical Party and Popular Mobilization, 1916-1930

Joel Horowitz

"This book sheds new light on a crucial chapter in the struggle for democracy in Argentina. Drawing on approaches from political and labor history, Horowitz's study examines the complex negotiations between party leaders, state officials, and working people that shaped public life during the heyday of Radical Party rule. In the process, it questions familiar assumptions regarding cronyism and popular politics associated with the Argentine republic in the early twentieth century."

Going Local

Decentralization, Democratization,
and the Promise of Good Governance

Merilee S. Grindle

"*Going Local* makes a strong, original, and lively contribution to the literature on governance in developing countries. Grindle's work examines local politics in a way that makes them integral to the analysis of positive as well as negative outcomes. As in all good research, her findings seem to cut across the existing paradigms, building on them while at the same time moving our understanding of the world to a higher plane."

Reyes examines frontier mission social spaces and their relationship to the creation of gendered colonial relations in the Californias. This work fills a critical gap in the history of colonial California—which has only recently begun to give adequate attention to Hispanic women—but it also adds to current research on indigenous, Spanish, and Mexican women and public space.

Cover: Ignacio Manuel Altamirano superimposed on a map of the state of Morelos, Mexico.

El Zarco, The Blue-eyed Bandit will steal readers' hearts. Nineteenth-century Mexico comes alive in this elegantly crafted melodrama, a bridge to understanding the period's traditional gender roles, its stark moral divides, and, particularly, its harsh racial hierarchies. Ignacio Altamirano was one of several Latin American novelists who escaped the ideological grip of scientific racism long before the region's essayists and scientists could do so. Novelists did not have to disprove prevailing racist notions in order to escape them in fiction. They could create characters who defied racial stereotypes, appealing to their readers to recognize the truth of their depictions despite the pronouncements of prestigious European white supremacists. Altamirano's novel provides a paradigmatic example, made wonderfully accessible by Ronald Christ's translation and Christopher Conway's introduction. **Not to be missed!**
