

# GODS OF THE CITY

Religion and the American Urban Landscape  
Edited by Robert A. Orsi

"At last, a major dissection of the great mystery in modern American life—how religion and spirituality prospered amidst industrialization, urbanization, and rampant technological change after 1880!"—JON BUTLER, YALE UNIVERSITY

"Urban religion" strikes many as an oxymoron. How can religion thrive in the alienated, secular, fast-paced, and materialistic world of the modern, Western city? The authors in this collection believe that cities not only can provide the settings for religious expression, but also are material to the experiences which give rise to those religious expressions. In this book, they explore the distinctly urban forms of religious experience and practice that have developed in relation to the spaces, social conditions, and history of American cities.

“Since the 1960s Buddhism in America has been viewed through the lens of idealism, generally associated with the spiritual quest of baby boomers. This portrayal has been accurate only to a degree. Charles Prebish’s *Luminous Passage* is the first account in a new generation of commentary to demonstrate the complexity and variety of this tradition as

it establishes roots in this country. This book will surely stand as one of the most comprehensive assessments of Buddhism in the United States at the turn of the millennium.”

## Apocalypses

PROPHECIES, CULTS, AND MILLENNIAL BELIEFS  
THROUGH THE AGES

**EUGEN WEBER**

"A noted historian of ideas, [Weber] traces millennial fears and longings in the West from their pre-Christian roots in Persian, Hebrew and Greek Stoic thought right up to Jonestown, Waco and Heaven's Gate. He points out that reckoning in centuries is a very modern phenomenon, that 'millennium' in the Christian apocalypse meant simply a long time and that, since the writing of the Book of Revelation, there has hardly been a moment when somebody somewhere was not claiming that the end was nigh."

## The Channeling Zone

AMERICAN SPIRITUALITY IN AN ANXIOUS AGE

**MICHAEL F. BROWN**

"[An] artful analysis... Brown explores the ways channeling experiments with sexual identity (most channels are female, while most of the spirits they embody are male), retails religion and celebrates our post-modern fascination with multiple identities (channeling has 'elevated the protean impulse to a sacred principle'). He sees channeling, correctly, as utterly American in its individualism, commercialism and faith in progress... [Brown] deals splendidly with the subtexts of channeling."

## Red-Hot and Righteous

THE URBAN RELIGION OF THE SALVATION ARMY

**DIANE WINSTON**

"*Red-Hot and Righteous*, Diane Winston's shrewd and graceful history, explains how the Salvation Army scaled the heights of urban culture and explores the ways in which New York City and the Army in fact conquered each other... Winston helps us to understand how a religious movement that railed against 'the destroying menace of selfishness in the environment' built itself by embracing modern celebrations of the fluid self: costume, advertising, and the theater of personal conversion."

## The Secular Mind

Robert Coles

Does the business of daily living distance us from life's mysteries? Do most Americans value spiritual thinking more as a hobby than as an all-encompassing approach to life? Noted child psychiatrist and best-selling author Robert Coles offers a profound meditation on how secular culture has settled into the hearts and minds of Americans.

"It's a pleasure to be in the presence of a man so smart and yet still capable of being rendered speechless by a student's sincere philosophical concerns. There are no conclusions here, but following Coles's considerations is worth the effort."

## Spiritual Interrogations

Culture, Gender, and Community in Early African American Women's Writing

Katherine Clay Bassard

The late eighteenth century witnessed an influx of black women to the slave-trading ports of the American Northeast. The formation of an early African American community, bound together by shared experiences and spiritual values, owed much to these women's voices. *Spiritual Interrogations* is the first detailed account of pre-Emancipation writings from the period of 1760 to 1863, in light of a developing African American religious culture and emerging free black communities.
