## IMPORTANT ESTABLISHED JOURNAL!

*Enhance your use of behavior therapy techniques with children and adolescents with guidance from the experts!*

# Child & Family Behavior Therapy

### Editor: Cyril M. Franks, PhD

Distinguished University Professor, Graduate School of Applied and Professional Psychology, Rutgers University, Busch Campus, Piscataway, New Jersey

### Associate Editor:

### Charles Diament, PhD

Psychotherapy Associates, Red Bank, New Jersey

*"Fills the need for a high quality behavioral journal specifically limited to this population. Maintains stringent scientific standards while addressing vital clinical problems. REFLECTS PROFESSIONALS' EXPANDING INTEREST IN BEHAVIOR THERAPY PRINCIPLES TO THE PROBLEMS OF CHILDREN AND FAMILIES. A very welcome addition to the literature of behavior therapy."*

Louis R. Franzini, PhD, Professor of Psychology, San Diego State University

Sample copies of journals are available free of charge to libraries and faculty with library recommendation authorization. Please send your request to us on institutional letterhead to Sample Copy Department. Allow 6-8 weeks for delivery.

Here is a high-quality, state-of-the-art journal devoted to research and clinical applications in behavior therapy with children, adolescents, and their families. It meets the needs of clinicians, researchers, and all professionals and organizations concerned with the application of behavior therapy principles with young people and their families.

# INSTRUCTIONS TO CONTRIBUTORS

**Behaviour Change** is a quarterly journal devoted to the publication of research involving the application of behavioural and cognitive-behavioural principles and techniques to the assessment and treatment of health, social, organisational, community and educational problems. It publishes original empirical studies using either single subject or group comparison methodologies, review articles, case studies, brief technical and clinical notes, invited book reviews, and special issues dealing with particular topics in depth.

## MANUSCRIPTS SHOULD BE SUBMITTED TO:

**Matthew R. Sanders, Ph. D.,  
Department of Psychiatry,  
The University of Queensland,  
Clinical Sciences Building,  
Royal Brisbane Hospital,  
Herston, Q 4029, Australia.**

## Preparation of manuscripts

Four copies of each manuscript, prepared according to the Publication Manual of the American Psychological Association, 3rd edition (1983) should be sent to the editor with a cover letter requesting review of the manuscript. Spelling should conform to the Macquarie Dictionary. The cover letter should contain a statement indicating that the manuscript has not been published elsewhere nor is it currently under editorial review.

### 1. Cover page

The manuscript must have a cover page with the title of the article, author(s) names and affiliation, a running head and at the bottom of the paper the name and postal address of the person to whom correspondence, proofs and reprint requests should be sent. To facilitate anonymous review the second page should include the title of the article without author identification.

### 2. Abstract

Articles should be accompanied by an abstract which should not exceed 200 words. The abstract should follow the title page on a separate page. It should provide a brief overview of the aims, method and major findings and should not refer to the body of the text in the abstract.

### 3. Typing

Manuscripts should be typed on A4, double spaced, with 4cm wide margins. If a manuscript is accepted for publication authors who have prepared the manuscript on an IBM-compatible PC or Macintosh computer should submit a copy of the paper on disk in addition to the final hard copy version. Acceptable word processing formats are: Word Perfect, Microsoft, Multimate, Wordstar, Office Writer, Microsoft Works, Microsoft Word, Macwrite, and ASCII. Disks may be supplied in either 3.5 inch or 5.25 inch formats. The word processing program used and version number, are to be specified in writing on the title page of the final accepted manuscript. Disks will be returned after use.

### 4. Tables and Figures

Tables require consecutive numbering and should be referenced by number in the text. Tables should be typed on separate sheets. Indicate in the text the approximate location of tables and figures.

### 5. Proofs and Reprints

Page proofs will be sent to the corresponding author for correction. Excessive alteration of the manuscript, as distinct from correction of errors in reproduction are not permitted and will be charged to the author(s). Authors will receive 25 copies of their paper free of charge. Additional reprints may be ordered when the proofs are returned.
