

ACKNOWLEDGEMENTS

We thank the following Organisations and Institutions for giving their financial support:

International Astronomical Union
Observatoire de Paris
Centre National de la Recherche Scientifique
Digital Equipement France

We are most grateful to the members of the Scientific and Local Organizing Committees for contributing so much to the success of this Symposium

We thank the President of Paris Observatory, Prof. P. Charvin, for his Welcome Address, and for having made available the Meudon Observatory facilities.

The Symposium banquet was held at the Luxembourg Palais in the Senate dining room. We address our deepest thanks to Senator Paul Loridant for having allowed this social event at the same time, sumptuous and intimate.

A concert held at the auditorium "Marcel Dupré" of Meudon has been organized by Dominique Proust. The musical ensemble was composed by astronomers. Many thanks to all of them for such an enjoyable evening.

We acknowledge the efficient secretarial help of Geraldine Prieur during the first months of conference planning. We are very thankful to Sylvie Gordon, Suzanne Huille, Christiane Jouan, Mireille Petit and Véronique Thévenet for the perfect material organisation of the conference. Michel Poinse supervised very efficiently the technical organisation of the meeting, our best thanks to him too; all these friends and many others not named here have greatly contributed to the smooth running of this Symposium.

Major review and contributed papers are published as received from the authors, short contributions and all the discussions were done by Monique Michel: we extend to her our gratitude for a difficult job well done. Last not least Suzanne Huille helped very efficiently in the editorial work of the Symposium.
